Program Overview

This will be an interactive workshop with practice using the techniques discussed. Attendees will have new continuous improvement tools to help their teams functionality when they return to their organizations.

The Presenter

Kim Fehring is a Program Manager with Paycor, Inc. in the Product Development and IT Department. She has been with Paycor for 11 years, leading teams and initiatives in a variety of ways. Her personal mission statement is “I do what I do to help you do what you do better, faster and with higher quality.” This passion for improvement has steered her journey from Quality Assurance and Business Analysis to Enterprise Program Management responsible for Transformation and Change. She has helped teams at Paycor transform their customer service productivity and sales effectiveness. She often leads internal strategy sessions with Senior Leaders and helps departments plan the tactics around those strategies. Paycor recently moved to a new building in Norwood and Kim was the Project Manager for the Organizational Change that accompanied the address change. Kim is a Cincinnati native and University of Cincinnati graduate.
