Front Desk: 1-559-252-3611 - Fax: 1-559-456-8243

### COURSE DESCRIPTION

Crisis intervention is NOT psychotherapy, rather it is a specialized acute emergency mental health intervention which requires specialized training. As physical first-aid is to surgery, crisis intervention is to psychotherapy. Thus, crisis intervention is sometimes called "emotional first-aid." Crisis interventions are typically done individually (one-on-one) or in groups. This program is designed to teach participants the fundamentals of, and a specific protocol for, individual intervention. The audience for this class includes both emergency services, military, and business/industrial peer support personnel without formal training in mental health, as well as mental health professionals, who desire to increase their knowledge of individual (one-on-one) crisis intervention. Learn how to give emotional "first aid" to people in crisis using a variety of crisis communication techniques including the SAFER-R and Diamond models along with an important Problem Solving technique to empower victims with tools for self help..

*(14 contact hours; 1.4 General CEUs from UMBC)*
