Please pay by cheque or Direct Debt 067 014 ACC 28010658 receipt no. (essential) reference surname and followed by TEV17th Please send this form back as a record of what payments are due. Or email me your preferences

Training Day and Working Bee Information

A good way to get to know other NTEC members is to participate in our working bees. These are usually good fun even if you are doing a little work as well. The working Bee on the 17th and 22nd Dec will consist of working on the cross country course in preparation for our ride on 10th Jan. Please wear suitable clothing and bring some tools eg sledge hammers or large hammer suitable for pegging down jumps and portable drills with screw driving bits some will be available on the night if you don't have any. We also will be doing some brushing of the new jumps so if you have any teatree in long lengths that would be great.
