Your recipient's maximum weekly hours are his/her monthly authorized hours divided by 4.0,

The chart on page 2 lists the services that have been authorized for your recipient (which have been marked with an X), along with a brief description of the types of work that may be performed as part of each service. You will only be paid for providing the authorized services that have been marked.

Your recipient is responsible for creating a work schedule with you to accommodate his or her maximum weekly hours and monthly authorized hours. Please note, if your recipient has more than one provider, you may be limited in the amount of the services you provide as your recipient may schedule other providers for these services. The total hours worked by all the providers cannot be more than the recipient's maximum weekly hours and authorized monthly hours. You will not be paid by the IHSS program for any hours that exceed your recipient's authorized monthly hours.

If you are working for more than one recipient, you will be able to work up to 66 hours per week. You are responsible for informing each of your recipients of the hours you will be available to work for him/her, taking into account hours you may be working for other recipients to make sure you do not exceed the 66 hours per week. If you work more than your recipient's authorized weekly hours without your recipient receiving county approval, you may incur a violation. However, your recipient may adjust the weekly authorized hours in specific circumstances without county approval.

If you are the only provider for your recipient, you will be able to work up to your recipient's maximum weekly hours and monthly hours.
