#### **EXECUTIVE SUMMARY**

#### **SUMMARY OF ATTESTATION EXAMINATION**

Except for the material noncompliance described below involving teachers and reporting errors or records that were not properly or accurately prepared or were missing and could not be located for students in ESOL, Career Education 9-12 (OJT), and student transportation, the Bay County District School Board complied, in all material respects, with State requirements regarding the determination and reporting of full-time equivalent (FTE) students under the Florida Education Finance Program (FEFP) and the number of students transported for the fiscal year ended June 30, 2012:

- > Twenty of the 113 teachers in our sample did not meet State requirements governing certification, School Board approval of out-of-field teacher assignments, notification to parents regarding teachers' out-of-field status, or the earning of required in-service training points in ESOL strategies.
- > Twenty of the 48 students in our ESOL sample and 14 of the 88 students in our Career Education 9-12 (OJT) sample had exceptions involving reporting errors or records that were not properly or accurately prepared or were missing and could not be located.
- Fifty-three of the 305 students in our student transportation sample had exceptions involving their reported ridership classification or eligibility for State transportation funding.

Noncompliance related to reported FTE resulted in 47 findings. The resulting proposed net adjustment to the District's reported, unweighted FTE totaled to a negative 2.9833 but has a potential impact on the District's weighted FTE of a negative 25.8643. Noncompliance related to student transportation resulted in 8 findings and a proposed net adjustment of a negative 77 students.

Weighted adjustments to FTE are presented in our report for illustrative purposes only. The weighted adjustments to FTE do not take special program caps and allocation factors into account and are not intended to indicate the weighted FTE used to compute the dollar value of adjustments. That computation is the responsibility of the Department of Education. However, the gross dollar effect of our proposed adjustments to FTE may be estimated by multiplying the proposed net weighted adjustment to FTE by the base student allocation amount. For the Bay County District School Board, the estimated gross dollar effect of our proposed adjustments to reported FTE is a negative \$89,988 (negative 25.8643 times \$3,479.22).

We have not presented an estimate of the potential dollar effect of our proposed adjustments to student transportation because there is no equivalent method for making such an estimate.

The ultimate resolution of our proposed adjustments to FTE and student transportation and the computation of their financial impact is the responsibility of the Department of Education.

#### SCHOOL DISTRICT OF BAY COUNTY

The District was established pursuant to Section 1001.30, Florida Statutes, to provide public educational services for the residents of Bay County. Those services are provided primarily to prekindergarten through twelfth grade students and to adults seeking career education-type training. The District is part of the State system of public education under the general direction and control of the State Board of Education. The geographic boundaries of the District are those of Bay County.

The governing body of the District is the District School Board that is composed of five elected members. The executive officer of the Board is the elected Superintendent of Schools. For the fiscal year ended June 30, 2012, the District operated 45 schools serving prekindergarten through twelfth grade students, reported 25,512.20 unweighted FTE for those students, and received approximately \$36.4 million in State funding through FEFP.

#### FLORIDA EDUCATION FINANCE PROGRAM (FEFP)

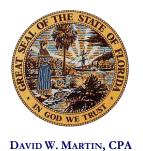

#### Full-Time Equivalent (FTE) Students

Florida school districts receive State funding through FEFP to serve prekindergarten through twelfth grade students (adult education is not funded by FEFP). FEFP was established by the Florida Legislature in 1973 to guarantee to each student in the Florida public school system the availability of programs and services appropriate to the student's educational needs which are substantially equal to those available to any similar student notwithstanding geographic differences and varying local economic factors. To provide equalization of educational opportunity in Florida, the FEFP formula recognizes: (1) varying local property tax bases, (2) varying program cost factors, (3) district cost differentials, and (4) differences in per-student cost for equivalent educational programs due to sparsity and dispersion of student population. The funding provided by FEFP is based upon the numbers of individual students participating in particular educational programs. A numerical value is assigned to each student according to the student's hours and days of attendance in those programs. The individual student thus becomes equated to a numerical value known as an unweighted FTE (full-time equivalent) student. For example, one student would be reported as one FTE if the student was enrolled in six classes per day at 50 minutes per class for the full 180-day school year (i.e., six classes at 50 minutes each per day is 5 hours of class a day or 25 hours per week that equals one FTE).

#### **Student Transportation**

Any student who is transported by the District must meet one or more of the following conditions in order to be eligible for State transportation funding: live two or more miles from school, be physically handicapped, be a Career Education 9-12 or an ESE student who is transported from one school center to another where appropriate programs are provided, or be on a route that meets the criteria for hazardous walking conditions specified in Section 1006.23(4), Florida Statutes. The District received approximately \$3.9 million for student transportation as part of the State funding through FEFP.

# INDEPENDENT AUDITOR'S REPORT BAY COUNTY DISTRICT SCHOOL BOARD FLORIDA EDUCATION FINANCE PROGRAM (FEFP) FULL-TIME EQUIVALENT (FTE) STUDENTS

We have examined management's assertion, included in its representation letter dated August 27, 2012, that the Bay County District School Board complied with State requirements governing the determination and reporting of the number of full-time equivalent (FTE) students under the Florida Education Finance Program (FEFP) for the fiscal year ended June 30, 2012. These requirements are found primarily in Sections 1011.60, 1011.61, and 1011.62, Florida Statutes; State Board of Education Rules, Chapter 6A-1, Florida Administrative Code; and the FTE General Instructions 2011-12 issued by the Department of Education. As discussed in the representation letter, management is responsible for the District's compliance with State requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants (AICPA) and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States and, accordingly, included examining, on a test basis, evidence about the District's compliance with the aforementioned State requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. The legal determination of the District's compliance with these requirements is, however, ultimately the responsibility of the Department of Education.

#### **COMPLIANCE**

Our examination procedures disclosed the following material noncompliance:

#### 1. <u>Teachers</u>

Twenty of the 113 teachers in our sample did not meet State requirements governing certification, School Board approval of out-of-field teacher assignments, notification to parents regarding teachers' out-of-field status, or the earning of required in-service training points in ESOL strategies.<sup>1</sup>

#### 2. Students

Twenty of the 48 students in our ESOL sample<sup>2</sup> and 14 of the 88 students in our Career Education 9-12 (OJT) sample<sup>3</sup> had exceptions involving reporting errors or records that were not properly or accurately prepared or were missing and could not be located.

In our opinion, except for the material noncompliance mentioned above involving teachers and reporting errors or records that were not properly or accurately prepared or were missing and could not be located for students in ESOL and Career Education 9-12 (OJT), the Bay County District School Board complied, in all material respects, with State requirements governing the determination and reporting of the number of full-time equivalent (FTE) students under the Florida Education Finance Program (FEFP) for the fiscal year ended June 30, 2012.

The results of our examination disclosed other noncompliance with the State requirements mentioned above. We considered this other noncompliance in forming our opinion regarding the District's compliance and it did not affect our opinion as stated above. All noncompliance disclosed by our examination procedures is discussed in SCHEDULE D. The impact of this noncompliance on the District's reported FTE is presented in SCHEDULES A, B, C, and D.

<sup>&</sup>lt;sup>1</sup>For teachers, see SCHEDULE D, Finding Nos. 6, 14, 16, 17, 18, 19, 24, 29, 30, 31, 32, 33, 34, 35, 36, 42, 43, 44, 45, and 46.

<sup>&</sup>lt;sup>2</sup>For ESOL, see SCHEDULE D, Finding Nos. 1, 2, 4, 5, 9, 15, 21, 22, 23, 26, 37, 38, 39, and 47.

<sup>&</sup>lt;sup>3</sup>For Career Education 9-12 (OJT), see SCHEDULE D, Finding Nos. 20, 27, 40, and 41.

#### INTERNAL CONTROL OVER COMPLIANCE

In accordance with attestation standards established by the AICPA and Government Auditing Standards, we are required to report significant deficiencies in internal control detected during our examination and identify those considered to be material weaknesses. The purpose of our examination was to express an opinion on the District's compliance with State requirements and did not include expressing an opinion on the District's related internal controls. Accordingly, we express no such opinion. Due to its limited purpose, our examination would not necessarily identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses.<sup>4</sup> However, the material noncompliance mentioned above is indicative of significant deficiencies considered to be material weaknesses in the District's internal controls related to teacher certification and reporting errors or records that were not properly or accurately prepared or were missing and could not be located for students in ESOL and Career Education 9-12 (OJT). Other noncompliance disclosed by our examination procedures is indicative of control deficiencies<sup>4</sup> and is also presented herein. The findings, populations, samples, and exception totals that pertain to material and other noncompliance are presented in SCHEDULES A and D.

The District's written response to this examination has not been subjected to our examination procedures and, accordingly, we express no opinion on it.

Pursuant to Section 11.45(4)(c), Florida Statutes, this report is a public record and its distribution is not limited. Attestation standards established by the AICPA require us to indicate that this report is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the State Board of Education, the Department of Education, and applicable District management and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

David W. Martin, CPA

<sup>&</sup>lt;sup>4</sup> A <u>control deficiency</u> in the entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance on a timely basis. A <u>significant deficiency</u> is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to comply with the aforementioned State requirements such that there is more than a remote likelihood that noncompliance that is more than inconsequential will not be prevented or detected by the entity's internal control. A <u>material weakness</u> is a significant deficiency, or combination of significant deficiencies, that results in a more-than-remote likelihood that material noncompliance will not be prevented or detected by the entity's internal control.

#### POPULATIONS, SAMPLES, AND TEST RESULTS

For the Fiscal Year Ended June 30, 2012

#### **REPORTED FTE**

The funding provided by FEFP is based upon the numbers of individual students participating in particular educational programs. FEFP funds ten specific programs that are grouped under the following four general program titles: Basic, ESOL, ESE, and Career Education 9-12. Unweighted FTE represents FTE prior to the application of the specific cost factor for each program. (See SCHEDULE B and NOTES A3, A4, and A6.) The District reported 25,512.20 unweighted FTE at 45 schools to the Department of Education for the fiscal year ended June 30, 2012.

#### **SCHOOLS AND STUDENTS**

As part of our examination procedures, we sampled schools and students for testing FTE reported to the Department of Education for the fiscal year ended June 30, 2012. (See NOTE B.) The population of schools (45) consisted of the total number of schools in the District that offered courses in FEFP-funded programs. The population of students (8,572) consisted of the total number of students in each program at the schools in our samples. Our Career Education 9-12 data includes only those students who participated in OJT. Our populations and samples of schools and students are summarized as follows:

					Students			
	Number of	Schools	Number of	Students	with	Unweight	ed FTE	Proposed
<u>Programs</u>	<u>Population</u>	<u>Sample</u>	<u>Population</u>	<u>Sample</u>	<b>Exceptions</b>	<u>Population</u>	<u>Sample</u>	<u>Adjustments</u>

#### **SCHEDULE A (Continued)**

Bay County District School Board Florida Education Finance Program (FEFP) Full-Time Equivalent (FTE) Students

#### POPULATIONS, SAMPLES, AND TEST RESULTS

For the Fiscal Year Ended June 30, 2012

#### **TEACHERS**

We also sampled teachers as part of our examination procedures. (See NOTE B.) Specifically, the population of teachers (287) consisted of the total number of teachers at schools in our sample who taught courses in ESE Support Levels 4 and 5 or Career Education 9-12 or taught courses to ELL students. From the population of teachers, we sampled 113 and found exceptions for 20 of those teachers.

#### **PROPOSED ADJUSTMENTS**

Our proposed adjustments present the net effects of noncompliance disclosed by our examination procedures, including those related to our tests of teacher certification. Our proposed adjustments generally reclassify reported FTE to Basic education, except for noncompliance involving a student's enrollment or attendance in which case the reported FTE is taken to zero. (See SCHEDULES B, C, and D.)

Section 2 of the General Appropriations Act for the 2011-12 fiscal year (Chapter 2011-69, Laws of Florida) established the cost factors for that fiscal year as shown on SCHEDULE B. Generally, the cost factors are greater than or equal to 1.000, with Basic education cost factors being the lowest. However, for the 2011-12 fiscal year, the cost factor for Career Education 9-12 was 0.999. Chapter 2012-133, Laws of Florida, in part, amended Section 1011.62(13)(b), Florida Statutes, to add language providing that, beginning with the 2011-12 fiscal year, an audit adjustment may not result in the reclassification of special program FTE to basic program FTE if the special program cost factor is less than the basic program cost factor. Accordingly, for instances of noncompliance involving teachers not being properly certified and teaching Career Education 9-12 students out of field or parents of the students not being notified of the teachers' out-of-field status, we have presented disclosure Findings with no proposed adjustments. (See SCHEDULE D, Finding Nos. 19, 24, 35, and 36.)

The ultimate resolution of our proposed adjustments to FTE and the computation of their financial impact is the responsibility of the Department of Education.

#### FINDINGS AND PROPOSED ADJUSTMENTS

For the Fiscal Year Ended June 30, 2012

#### **OVERVIEW**

Management is responsible for determining and reporting the number of full-time equivalent (FTE) students under the Florida Education Finance Program (FEFP) in compliance with State requirements. These requirements are found primarily in Sections 1011.60, 1011.61, and 1011.62, Florida Statutes; State Board of Education Rules, Chapter 6A-1, Florida Administrative Code; and the FTE General Instructions 2011-12 issued by the Department of Education. Except for the material noncompliance involving teachers and reporting errors or records that were not properly or accurately prepared or were missing and could not be located for students in ESOL and Career Education 9-12 (OJT), the Bay County District School Board complied, in all material respects, with State requirements governing the determination and reporting of FTE for the fiscal year ended June 30, 2012. All noncompliance disclosed by our examination procedures is discussed below and requires management's attention and action, as recommended on page 26.

Proposed Net
Adjustments
(Unweighted FTE)

### **Findings**

Our examination included the July and October 2011 surveys and the February and June 2012 surveys (see NOTE A5). Unless otherwise specifically stated, the Findings and Proposed Adjustments presented herein are for the October 2011 survey or the February 2012 survey or both. Accordingly, our Findings do not mention specific surveys unless necessary for a complete understanding of the instances of noncompliance being disclosed.

12. [Ref. 28103] One ESE student was absent during the entire 11-day survey period and should not have been reported with the survey's results. We also noted that the student's *Matrix of Services* form incorrectly included one Special Considerations point for which the student was not eligible. The point was designated for students with a *Matrix of Services* form score of 21 points and a Level 5 rating in four domains. This student had a Level 5 rating in only three domains. We propose the following adjustment:

- 25. [Ref. 49101] One student was reported incorrectly in Program No. 255 (ESE Support Level 5) in the October 2011 and February 2012 surveys based on the student's dual placement in both the Hospital and Homebound Program (when necessary) and a regular in-school schedule (when the Hospital and Homebound Program was not necessary). We determined that during the reporting surveys the student was attending school following the student's regular schedule and was not receiving Hospital and Homebound Program services at those times. We also noted the following exceptions:
  - a. The *Matrix of Services* form in the student's file was only for the student's Hospital and Homebound Program placement and a separate *Matrix of Services* form was not prepared for the student's in-school placement.
  - b. The *Physician's Statement* for the student had not been updated or renewed since it was first initiated in 2009.

We reviewed the teacher's roll book for the JROTC course and noted that the student was penciled in but had no attendance activity or any other type of coding to support that the student had attended the course. Also, the course was not included in the student's transcript as attempted or otherwise completed. Consequently, we could not validate the attendance for this student in the JROTC course. #### RECOMMENDATIONS AND REGULATORY CITATIONS

For the Fiscal Year Ended June 30, 2012

#### **RECOMMENDATIONS**

We recommend that management exercise more care and take corrective action, as appropriate, to ensure that: (1) only students who are in membership and in attendance at least 1 of the 11 days of a survey period are reported with that survey's results; (2) ELL Student Plans are reviewed and updated annually and properly maintained in the students' files; (3) ELL Student Plans are complete with the students' instructional time and course schedules attached; (4) parents are properly notified of their child's ESOL placement; (5) students' English language is assessed and ELL Committees are convened prior to the students entering their fourth, fifth, or sixth year of ESOL placement based on the students' individual ESOL anniversary dates; (6) students are reported in the proper funding categories for the correct amount of FTE and have adequate documentation to support that reporting, particularly with regard to students in ESOL and ESE Support Levels 4 and 5; (7) ESE students are reported in accordance with their Matrix of Services forms and those forms are properly scored and maintained in the students' files; (8) students are reported appropriately for their on-campus instruction based on the Matrix of Services form applicable to that placement; (9) students in Career Education 9-12 (OJT) are reported in accordance with timecards that are accurately completed, signed, and retained in readily-accessible files; (10) students in Career Education 9-12 (OJT) are reported in accordance with the students' time worked as documented on their timecards; (11) teachers are properly certified or, if out of field, are approved to teach out of field by the School Board; (12) parents are appropriately notified of teachers' out-of-field status; and (13) teachers earn in-service training points in ESOL strategies on a timely basis as required by rule and their in-service training timelines.

The absence of statements in this report regarding practices and procedures followed by the District should not be construed as acceptance, approval, or endorsement of those practices and procedures. Additionally, the specific nature of this report does not limit or lessen the District's obligation to comply with all State requirements governing FTE and FEFP.

Bay County District School Board Florida Education Finance Program (FEFP) Full-Time Equivalent (FTE) Students NOTES TO SCHEDULES

For the Fiscal Year Ended June 30, 2012

#### NOTE A – SUMMARY

A summary discussion of the significant features of the District, FEFP, FTE, and related areas follows:

#### 1. School District of Bay County

The District was established pursuant to Section 1001.30, Florida Statutes, to provide public educational services for the residents of Bay County, Florida. Those services are provided primarily to prekindergarten through twelfth grade students and to adults seeking career education-type training. The District is part of the State system of public education under the general direction and control of the State Board of Education. The geographic boundaries of the District are those of Bay County.

For the fiscal year ended June 30, 2012, the District operated 45 schools serving prekindergarten through twelfth grade students, reported 25,512.20 unweighted FTE, and received approximately \$36.4 million in State funding through FEFP. The primary sources of funding for the District are funds from FEFP, local ad valorem taxes, and Federal grants and donations.

#### 2. Florida Education Finance Program (FEFP)

Florida school districts receive State funding through FEFP to serve prekindergarten through twelfth grade students (adult education is not funded by FEFP). FEFP was established by the Florida Legislature in 1973 to guarantee to each student in the Florida public school system the availability of programs and services appropriate to the student's educational needs which are substantially equal to those available to any similar student notwithstanding geographic differences and varying local economic factors. To provide equalization of educational opportunity in Florida, the FEFP formula recognizes: (1) varying local property tax bases, (2) varying program cost factors, (3) district cost differentials, and (4) differences in per-student cost for equivalent educational programs due to sparsity and dispersion of student population.

Bay County District School Board Florida Education Finance Program (FEFP) Full-Time Equivalent (FTE) Students NOTES TO SCHEDULES

For the Fiscal Year Ended June 30, 2012

#### **NOTE A - SUMMARY** (Continued)

#### 3. Full-Time Equivalent (FTE) Students

The funding provided by FEFP is based upon the numbers of individual students participating in particular educational programs. A numerical value is assigned to each student according to the student's hours and days of attendance in those programs. The individual student thus becomes equated to a numerical value known as an FTE. For example, for prekindergarten through third grade, one FTE is defined as one student in membership in a program or a group of programs for 20 hours per week for 180 days; for grade levels four through twelve, one FTE is defined as one student in membership in a program or a group of programs for 25 hours per week for 180 days.

#### 4. <u>Calculation of FEFP Funds</u>

The amount of State and local FEFP funds is calculated by the Department of Education by multiplying the number of unweighted FTE in each educational program by the specific cost factor of each program to obtain weighted FTEs. Weighted FTEs are multiplied by the base student allocation amount and that product is multiplied by the appropriate cost differential factor. Various adjustments are then added to this product to obtain the total State and local FEFP dollars. All cost factors, the base student allocation amount, cost differential factors, and various adjustment figures are established by the Florida Legislature.

### 5. <u>FTE Surveys</u>

FTE is determined and reported during the school year by means of four FTE membership surveys that are conducted under the direction of district and school management. Each survey is a sampling of FTE membership for a period of one week. The surveys for the 2011-12 school year were conducted during and for the following weeks: survey one was performed for July 11 through 15, 2011; survey two was performed for October 10 through 14, 2011; survey three was performed for February 13 through 17, 2012; and survey four was performed for June 11 through 15, 2012.

# INDEPENDENT AUDITOR'S REPORT BAY COUNTY DISTRICT SCHOOL BOARD FLORIDA EDUCATION FINANCE PROGRAM (FEFP) STUDENT TRANSPORTATION

We have examined management's assertion, included in its representation letter dated August 27, 2012, that the Bay County District School Board complied with State requirements governing the determination and reporting of the number of students transported for the fiscal year ended June 30, 2012. These requirements are found primarily in Chapter 1006, Part I, E., and Section 1011.68, Florida Statutes; State Board of Education Rules, Chapter 6A-3, Florida Administrative Code; and the *Student Transportation General Instructions 2011-2012* issued by the Department of Education. As discussed in the representation letter, management is responsible for the District's compliance with State requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants (AICPA) and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States and, accordingly, included examining, on a test basis, evidence about the District's compliance with the aforementioned State requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. The legal determination of the District's compliance with these requirements is, however, ultimately the responsibility of the Department of Education.

#### **COMPLIANCE**

Our examination procedures disclosed material noncompliance with the District's reported student ridership data as follows: 53 of the 305 students in our sample had exceptions involving their reported ridership classification or eligibility for State transportation funding. (See SCHEDULE G, Finding Nos. 1 through 8)

In our opinion, except for the material noncompliance mentioned above involving their reported ridership classification or eligibility for State transportation funding, the Bay County District School Board complied, in all material respects, with State requirements governing the determination and reporting of the number of students transported for the fiscal year ended June 30, 2012.

The results of our examination disclosed other noncompliance with the State requirements mentioned above. We considered this other noncompliance in forming our opinion regarding the District's compliance and it did not affect our opinion as stated above. All noncompliance disclosed by our examination procedures is discussed in SCHEDULE G. The impact of this noncompliance on the District's reported number of transported students is presented in SCHEDULES F and G.

#### INTERNAL CONTROL OVER COMPLIANCE

In accordance with attestation standards established by the AICPA and Government Auditing Standards, we are required to report significant deficiencies in internal control detected during our examination and identify those considered to be material weaknesses. The purpose of our examination was to express an opinion on the District's compliance with State requirements and did not include expressing an opinion on the District's related internal controls. Accordingly, we express no such opinion. Due to its limited purpose, our examination would not necessarily identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses.<sup>1</sup> However, the material noncompliance mentioned above is indicative of significant deficiencies considered to be material weaknesses in the District's internal controls related to their reported ridership classification or eligibility for State transportation funding. Other noncompliance disclosed by our examination procedures is indicative of control deficiencies<sup>1</sup> and is also presented herein. The findings, populations, samples, and exception totals that pertain to material and other noncompliance are presented in SCHEDULES F and G.

\_

A control deficiency in the entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to comply with the aforementioned State requirements such that there is more than a remote likelihood that noncompliance that is more than inconsequential will not be prevented or detected by the entity's internal control. A material weakness is a significant deficiency, or combination of significant deficiencies, that results in a more-than-remote likelihood that material noncompliance will not be prevented or detected by the entity's internal control.

The District's written response to this examination has not been subjected to our examination procedures, and accordingly, we express no opinion on it.

Pursuant to Section 11.45(4)(c), Florida Statutes, this report is a public record and its distribution is not limited. Attestation standards established by the AICPA require us to indicate that this report is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the State Board of Education, the Department of Education, and applicable District management and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

David W. Martin, CPA

#### **SCHEDULE F**

Bay County District School Board Florida Education Finance Program (FEFP) Student Transportation

#### POPULATIONS, SAMPLES, AND TEST RESULTS

For the Fiscal Year Ended June 30, 2012

Any student who is transported by the District must meet one or more of the following conditions in order to be eligible for State transportation funding: live two or more miles from school, be physically handicapped, be a Career Education 9-12 or an ESE student who is transported from one school center to another where appropriate programs are provided, or be on a route that meets the criteria for hazardous walking conditions specified in Section 1006.23(4), Florida Statutes. (See NOTE A1.)

As part of our examination procedures, we sampled students for testing the number of students transported as reported to the Department of Education for the fiscal year ended June 30, 2012. (See NOTE B.) The population of vehicles (279) consisted of the total of the numbers of vehicles reported by the District for each survey. For example, a vehicle that transported students during the July and October 2011 and February and June 2012 surveys would be counted in the population as four vehicles. Similarly, the population of students (19,663) consisted of the total numbers of students reported by the District as having been transported for each survey. (See NOTE A2.) The District reported students in the following ridership categories:

	Number of
	Students
Ridership Category	<u>Transported</u>
IDEA (K-12), Weighted	868
IDEA (K-12), Unweighted	498
IDEA (PK), Weighted	133
IDEA (PK), Unweighted	145
Teenage Parents and Infants	7
Two Miles or More	<u>18,012</u>
Total	<u>19,663</u>

Students with exceptions are students with exceptions affecting their ridership category. Students cited only for incorrect reporting of days in term, if any, are not included.

#### FINDINGS AND PROPOSED ADJUSTMENTS

For the Fiscal Year Ended June 30, 2012

#### **OVERVIEW**

Management is responsible for determining and reporting the number of students transported in compliance with State requirements. These requirements are found primarily in Chapter 1006, Part I, E., and Section 1011.68, Florida Statutes; State Board of Education Rules, Chapter 6A-3, Florida Administrative Code; and the *Student Transportation General Instructions 2011-2012* issued by the Department of Education. Except for the material noncompliance involving their reported ridership classification or eligibility for State transportation funding, the Bay County District School Board complied, in all material respects, with State requirements governing the determination and reporting of students transported for the fiscal year ended June 30, 2012. All noncompliance disclosed by our examination procedures is discussed below and requires management's attention and action, as recommended on page 43.

Proposed Net
Adjustments

#### **Findings**

Our examination procedures included both general tests and detailed tests. Our general tests included inquiries concerning the District's transportation of students and verification that a bus driver's report existed for each bus reported in a survey. Our detailed tests involved verification of the specific ridership categories reported for students sampled from the July and October 2011 surveys and the February and June 2012 surveys. Adjusted students who were in more than one survey are accounted for by survey. For example, a student sampled twice (i.e., once for the October 2011 survey and once for the February 2012 survey) will be presented in our Findings as two sample students.

1. [Ref. 51] One student in our sample was incorrectly reported in the IDEA (PK), Unweighted ridership category in the October 2011 survey. However, we determined that the student lived more than two miles from his assigned school and should have been reported in the Two Miles or More ridership category. We propose the following adjustment:

2. [Ref. 52] Two students in our sample were incorrectly reported in the IDEA (PK), Unweighted ridership category. The students were not IDEA students and were enrolled in a Voluntary Prekindergarten Education Program. Consequently, these students were not eligible for State transportation funding. We propose the following adjustments:

<u>(1)</u>

4. [Ref. 55] Twelve students in our sample were reported incorrectly in an IDEA-Weighted ridership classification. Ten of the students' IEPs did not support the students' IDEA-Weighted classifications and two of the students were not IDEA students. However, we were able to determine that seven of the students lived more than two miles from their assigned schools and were eligible for reporting in the Two Miles or More ridership category and three of the students were eligible for reporting in the IDEA (PK), Unweighted ridership category. The remaining two students lived less than two miles from school and were not otherwise eligible for State transportation funding. We propose the following adjustments:

#### RECOMMENDATIONS AND REGULATORY CITATIONS

For the Fiscal Year Ended June 30, 2012

#### RECOMMENDATIONS

We recommend that management exercise more care and take corrective action, as appropriate, to ensure that: (1) only those students who are indicated as riding on the bus drivers' reports should be reported for State transportation funding; (2) transported students are reported in the correct ridership category; (3) bus driver reports are available, legible, and maintained in readily-accessible files; (4) only those students who are documented as enrolled in school during the survey week concerned and transported by the District at least one time during the 11-day survey window are reported for State transportation funding; (5) the distance from home to school for students classified in the Two Miles or More ridership category is verified prior to those students being reported; (6) students are reported on the correct bus that transports them to their assigned school of enrollment; (7) IEPs for Speech Impaired, Language Impaired, or Specific Disabled students who are reported in the IDEA (K-12), Unweighted ridership category indicate the need for transportation as it relates to the students' disabilities; (8) students reported in IDEA-Weighted classifications are appropriately documented as meeting one of the five criteria and as noted on the students' IEPs; (9) only PK students with disabilities or PK children of students enrolled in a Teenage Parents and Infants Program are reported for State transportation funding and proper documentation is maintained to support this reporting; and (10) transportation personnel review the District database for completeness and verify that all students have matching demographics to support that the students are properly enrolled and are otherwise eligible for State transportation.

The absence of statements in this report regarding practices and procedures followed by the District should not be construed as acceptance, approval, or endorsement of those practices and procedures. Additionally, the specific nature of this report does not limit or lessen the District's obligation to comply with all State requirements governing student transportation.

A summary discussion of the significant features of student transportation and related areas follows:

#### 1. Student Eligibility

Any student who is transported by bus must meet one or more of the following conditions in order to be eligible for State transportation funding: live two or more miles from school, be physically handicapped, be a Career Education 9-12 or an ESE student who is transported from one school center to another where appropriate programs are provided, or be on a route that meets the criteria for hazardous walking conditions specified in Section 1006.23(4), Florida Statutes.

#### 2. <u>Transportation in Bay County</u>

For the fiscal year ended June 30, 2012, the District received approximately \$3.9 million for student transportation as part of the State funding through FEFP. The District's transportation reporting by survey was as follows:

Survey Period	Number of <u>Vehicles</u>	Number of <u>Students</u>
July 2011 October 2011 February 2012 June 2012	20 129 129	161 9,679 9,787 36

42, 43, 44, 45

29, 30, 31, 32, 34,

In response to the FEFP Audit Summary of Findings pertaining to FTE (Schedule D), we have sent a copy of the findings to each principal/supervisor to work to correct these deficiencies so that the records will be correct next year. I am offering the following summary of findings and corrective actions:

Corrective Action

The District will continue to provide ESOL

courses through Beacon Learning Center.

Currently, these courses are offered free-of-

charge to Bay District teachers. The District

1, 2, 4, 5, 9, 15 21, 22, 23, 26, 37 38, 39	Training will be provided at the quarterly Guidance Counselor Meetings regarding: ELL Committees and their functions for placement of students, assessments needed to determine English proficiency needs, courses using ESOL strategies, ELL Student Plans, filing of information, parental notification of placement in ESOL, etc.
3, 10, 11, 12, 13, 25	Training will be provided at the quarterly Guidance Counselor Meetings.
3	Training will be provided at monthly data clerk meetings. The new data program FOCUS will provide data to review in this area.
6, 14, 16	Teachers and principals will receive notification when they are out-of-field for an ELL student and need to take courses toward ESOL endorsement and/or meeting their ESOL course requirements.

### EXHIBIT A (CONTINUED) MANAGEMENT'S RESPONSE

	continues to pay for the ESOL endorsement to be added to a teacher's certificate.
7, 9, 10, 11, 12, 13, 25	Training will continue to be provided at monthly data clerk meetings on coding ESE students according to their matrix.
8	To assist in eliminating matrix problems, the ESE Department will continue to remind ESE teachers through meetings, newsletters, and the Resource Teacher that teachers MUST write a new matrix or review existing matrix for every student.
12, 13, 28	Teachers will receive training on the new data system for attendance and the principal will monitor the attendance through the FOCUS data program.
19, 24, 30, 31, 33, 35, 36, 42, 43	Teachers and principals will receive notification when teachers are out-of-field. Parents of students in the class being taught will also be notified that the teacher is out-of-field but otherwise, a qualified teacher.
20, 27, 40, 41	The supervising teacher for Career Education OJT students will develop an organized plan to record the receipt of timecards documenting that students worked during the reporting surveys and that all timecards are signed by the student and the student's employer.
24, 30, 31, 33, 35, 36	The District will send a semester out-of-field report to the District School Board for approval.
25	The ESE Resource Teacher will work with principals, teachers, and data clerks in the schools to remind Hospital/Homebound teachers that if services were provided during the survey periods, all files must include a yearly Physician's Statement for the student. Also, the Matrix of Services form must be filed for Hospital/Homebound and a separate one for in-school placement.

## EXHIBIT A (CONTINUED) MANAGEMENT'S RESPONSE

28	Training will continue to be provided at monthly data clerk meetings on coding students and data entries regarding transcripts. Attendance verification forms will be signed by the teacher.
35, 36	New out-of-field notification procedures are being implemented.
42, 43	The District will send a quarterly out-of-field report to the District School Board for approval.
46	District will continue to provide ESOL courses through Beacon Learning Center. Charter Schools are notified of the Auditor Findings and asked to correct deficiencies.
47	Charter schools are invited to attend, but are not required to attend training at the quarterly Guidance Counselor Meetings regarding: ELL Committees and their functions for placement of students, assessments needed to determine English proficiency needs, courses using ESOL strategies, ELL Student Plans, etc.

The District is reorganizing the Transportation Department for the 2013 -2014 school year. The Executive Director for Operational Support Services will meet with the Supervisor of Transportation to provide additional employee training on verification procedures and reporting requirements. They will stress the importance of mandatory reports that are available, legible, and maintained in readily accessible files. Transportation will take corrective action as required to ensure that all students transported by buses or vans are accurately classified and reported in the correct ridership category for the number of days-

in-term. Additional training will be provided on reporting students in IDEA-weighted classifications, especially PK students enrolled in a voluntary PK program. New practices are now in place to verify that students who are documented as enrolled in school and meet the two-mile distance requirement are transported at least one time during each survey week. Transportation will ensure that all bus drivers' (FEFP) reports are maintained and secured in files that are only accessible by Transportation Specialists.

Please contact me if you have any additional questions or concerns.
