*** Available cash is set at \$3,500. Timeframe: Rapid Rescore**

Order a detailed report to try different settings which may yield better results. Potential score improvements include the impact of actions identified by Credit Assure(TM) and the effect of time. Time may account for none, some, or all of a potential improvement, and may decrease it or even cause it to be negative.

How is the score improvement calculated and what does "OK" mean?

- 1) Credit Assure(TM) scans each credit file for accuracy and opportunities. It uses a default setting of the applicant having up to \$3,500 in cash available and the ability to make any potential changes within less than a month's time. The default assumptions are set system-wide, but you can use different amounts of available cash and/or time frames if you choose to order a CreditXpert(R) product.
- 2) If you received a result of "OK" for a particular bureau from Credit Assure(TM), it only indicates that there were no opportunities found by Credit Assure(TM) in its default rapid rescore mode.

Would you rather not print this cover page?

When you print your credit report, select range of "2-" and you will not print this cover page.

NOTICE TO THE HOME LOAN APPLICANT - Credit Score Disclosure

In connection with your application for a home loan, the lender must disclose to you the score that a consumer reporting agency distributed to users and the lender used in connection with your home loan, and the key factors affecting your credit scores.

The credit score is a computer generated summary calculated at the time of the request and based on information that a consumer reporting agency or lender has on file. The scores are based on data about your credit history and payment patterns. Credit scores are important because they are used to assist the lender in determining whether you will obtain a loan. They may also be used to determine what interest rate you may be offered on the mortgage. Credit scores can change over time, depending on your conduct, how your credit history and payment patterns change, and how credit scoring technologies change.

Because the score is based on information in your credit history, it is very important that you review the credit-related information that is being furnished to make sure it is accurate. Credit records may vary from one company to another.

If you have any questions concerning the terms of the loan, contact the lender.

For information on FICO scores, please contact the developer, Fair Isaac Corporation, at www.myfico.com or 1-800-319-4433.

The consumer reporting agencies listed below provided a score that was used in connection with your home loan application.

a Return Transcript, which includes most of the line items of a tax return as filed with the IRS. A tax return does not reflect changes made to the account after the return is processed. Transcripts are only available for the following returns: Form 1040 series, Form 1065, Form 1120, Form 1120A, Form 1120H, Form 1120L, and Form 1120S. b Account Transcript, which contains information on the financial status of the account, such as payments made on the account, penalty assessments, and adjustments made by you or the IRS after the return was filed. Return information is limited to items such as tax liability and estimated tax payments. Account transcripts are available for most returns. Most requests will be processed within 10 business days.

c Record of Account, which provides the most detailed information as it is a combination of the Return Transcript and the Account Transcript. Available for current year and 3 prior tax years. Most requests will be processed within 10 business days.

7 Verification of Nonfiling, which is proof from the IRS that you **did not** file a return for the year. Current year requests are only available after June 15th. There are no availability restrictions on prior year requests. Most requests will be processed within 10 business days.

8 Form W-2, Form 1099 series, Form 1098 series, or Form 5498 series transcript. The IRS can provide a transcript that includes data from these information returns. State or local information is not included with the Form W-2 information. The IRS may be able to provide this transcript information for up to 10 years. Information for the current year is generally not available until the year after it is filed with the IRS. For example, W-2 information for 2011, filed in 2012, will likely not be available from the IRS until 2013. If you need W-2 information for retirement purposes, you should contact the Social Security Administration at 1-800-772-1213. Most requests will be processed within 10 business days.

Caution: If you need a copy of Form W-2 or Form 1099, you should first contact the payer. To get a copy of the Form W-2 or Form 1099 filed with your return, you must use Form 4506 and request a copy of your return, which includes all attachments.

9 Year or period requested. Enter the ending date of the year or period, using the mm/dd/yyyy format. If you are requesting more than four years or periods, you must attach another Form 4506-T.
