

Standard and Custom Wood Fabricating

Whether built-in or free-standing, ACI millwork can be fitted with electrical or computer wire management components that provide more flexibility in space planning. The cabinet configuration you choose will eliminate unwanted clutter while optimizing useable work surfaces.

As a custom manufacturer, ACI takes the greatest care to meet your requirements — even when it means altering standard designs, matching a finishes to a certain décor, or designing an entirely new item from the ground up. That's why ACI millwork should be your supplier of choice.

We have provided casework and furniture for many districts across the state from preschools and kindergartens to high schools, colleges and universities.

Our products are highly regarded by educators

for meeting the rigorous demands of the education setting. We combine our extensive experience with functional design and practical engineering to create innovative products virtually unmatched in quality and value. We offer a wide variety of storage and work surface solutions for specific applications including music rooms, science labs, audio/visual centers, technology labs, arts and crafts, libraries, and administration.

Our AWI (Architectural Woodworking Institute) premium, custom and economy construction uses industrial-grade particle board, top quality plastic laminate, and heavy-duty institutional-quality hardware for cabinets that are as strong as they are durable. It all adds up to millwork that will provide many years of outstanding performance under the heavy demands of the education environment.
