### MODAPTS® CERTIFICATION COURSE October 15 – 18, 2012

☐ \$500/person **Cost of Certification includes:**  
3 1/2 days hands-on interactive training (8 AM - 5 PM)  
Reference manual  
Practitioner Certification (Passing test score required)  
1 Year Membership in International MODAPTS® Association (IMA)

### MODAPTS® GREEN-BELT TRAINING OCTOBER 16, 2012

☐ \$250/person **Includes Annual Membership Renewal**

**GREEN BELT** Course Description: This six hour course is for Yellow Belt Certified Practitioners with more than two full year's experience using MODAPTS®. It will provide a thorough review of relevant Yellow Belt material (simultaneous motions, process writing and auxiliary elements), build on that expertise and add Large/Heavy and Office MODAPTS® and industry specific studies. The goal for this course is to ensure that the practitioner is well rounded in the use of MODAPTS® and competent in its use equivalent to a thoroughly experienced practitioner of two years. The certification is valid for a period of 5 years as long as membership dues are paid.

#### Objectives of the course:

Upon successful completion of this course, student will be able to:

- Write all MODAPTS® coding including warehouse and clerical.
- Use Simultaneous Motion to write MODAPTS® code.
- Perform a complicated multi-step work analysis using MODAPTS® including auxiliary activities.
- Demonstrate thorough understanding of all of MODAPTS® applications in a variety of work settings.
- Demonstrate 90% proficiency or better on certified proficiency test

### MODAPTS® YELLOW-BELT TRAINING OCTOBER 17, 2012

☐ \$250/person **Includes Annual Membership Renewal**

This six hour course will provide a thorough refresher course for a "practicing" practitioner with more than a full year's experience using MODAPTS® (preferably certified at least two years). It will place emphasis on simultaneous motions, decision making (and other auxiliary activities) and coding. The certification is valid for a period of 5 years as long as membership dues are paid.

#### Objectives of the course:

Upon successful completion of this course, student will be able to:

- Write basic (excluding Warehouse and Clerical) MODAPTS® code
- Use Simultaneous Motion to write basic MODAPTS® code
- Perform a multi-step work analysis using MODAPTS®
- Have the basic skills to apply MODAPTS® applications (task analysis) to certain auxiliary activities such as decision making and other student directed problem areas.
- Demonstrate 90% proficiency or better on certified proficiency test
