

## ASSOCIATE OF ARTS/LOUISIANA TRANSFER DEGREE (AALT): ARTS CONCENTRATION

All courses applied to the degree must be passed with a C or better. Developmental courses may not be applied to the degree.

Requirements for the AALT track in social sciences are listed below. When more than one option for fulfilling a requirement is given, even if some of these options are listed as “recommended” or “electives,” students should select courses that are required for the major they intend to pursue at a university. Students transferring to a University of Louisiana System (ULS) institution should follow the appropriate ULS track.

**See footnotes on back.**

Completion of the Associate of Arts/Science Louisiana Transfer (AALT, ASLT) degree guarantees that the student has met, in full, all lower division general education requirements at the receiving Louisiana public university. Graduates transferring with the transfer degree will have junior status. Courses or GPA requirements for specific majors, departments, or schools are not automatically satisfied by an AALT/ASLT degree.

## ADDITIONAL INFORMATION

### *Footnotes*

<sup>1</sup>Students may take any course (assuming they have completed the appropriate prerequisites) from the list that follows to fulfill the general education math elective requirement: MATH 111, MATH 117, MATH 120, MATH 201, MATH 210, MATH 220, MATH 221

<sup>2</sup>This category, “other related electives approved by advisor,” is included to enable students to take courses that are not listed among the associate degree requirements but are required for the intended university major. Students should not take courses with the expectation that they will count as “other related electives” unless the courses have been approved by an advisor.

<sup>3</sup>While no lab is required, students may opt to take a single one-credit hour lab that corresponds with one of the three lectures used toward the fulfillment of the natural sciences requirement.

### *Completing an Associate of Arts/Science Louisiana Transfer Degree (AALT/ASLT) at LDCC*

- A student’s placement in English and math courses will be determined by ACT, SAT, and/or COMPASS scores. As a result of these scores, some students may be required to take developmental classes in preparation for the English and math classes required for the transfer degree. Note: When appropriate, previous college work will be used to determine placement in these subject areas.
- A course may be applied only once for degree credit.
- Transfer coursework is unofficial until all official transcripts are evaluated and posted.
- To graduate with the AALT or ASLT, students must have LDCC and adjusted cumulative grade-point averages of 2.00.
- Students should refer to the LDCC General Catalog for a detailed explanation of graduation requirements.

### *Transferring to a University with an AALT or ASLT Degree*

Advising and planning are key to a student’s success in maximizing the transfer experience. All students who might eventually transfer from one institution to another should develop, with an advisor’s assistance, a written degree plan of courses to take for the transfer associate degree. Whenever possible, students should use the transfer degree requirements to satisfy the admission requirements of the university to which they wish to transfer; the university’s senior college, departmental, and/or program admission requirements; and course requirements for the baccalaureate degree. Additionally, a student with coursework from multiple institutions may need to contact the Campus Transfer Ombudsman\* at the transfer university for information regarding the applicability of non-LDCC coursework toward the intended major at the university.

Completion of the AALT or ASLT does not guarantee that a student will have the grade-point average necessary for admission to the university, senior college, department, program, etc, to which a student wishes to transfer. It is therefore essential that students find out these requirements\* as early as possible.

\*To identify the Campus Transfer Ombudsman (or designated contact person) or GPA requirements for the university to which you wish to transfer, visit the statewide articulation web site, [www.louisiana.gov](#). Links to each participating institution’s articulation web site can be found here with other helpful academic resources.
