 - c. Association of Schools of Public Health
 - d. National Board for Public Health Education

4. Which organizations accredit teacher education programs in school health education?
 - a. American School Health Association & American Public Health Association
 - b. American School Health Association & Teacher Education Accreditation Council
 - c. National Council for Accreditation of Teacher Education & Education Board
 - d. National Council for Accreditation of Teacher Education & Teacher Education Accreditation Council

5. What is one of the recommendations of the National Task Force on Accreditation in Health Education?
 - a. only students from accredited undergraduate programs/schools would be eligible for the CHES examination
 - b. accreditation would be mandatory for all academic programs in health education
 - c. faculty in health education programs would be required to have certification
 - d. there would be only one accrediting agency for all academic programs
6. The results of the National Health Educator Competencies Update Project (CUP) presented at the Dallas II conference included all of the following except for which one?
 - a. three levels of practice were identified
 - b. seven updated Areas of Responsibility emerged from the research
 - c. a new hierarchical model
 - d. a three year research effort
7. The Council on Education for Public Health has undertaken which new activity?
 - a. accrediting free-standing graduate school health education programs
 - b. accrediting undergraduate public/community health education programs co-located with a master's degree program
 - c. counseling individual public health educators about career opportunities
 - d. offering study groups for the certification examination
8. Based on the recommendations of the Accreditation Task Force and the CUP report, which action was NOT taken by the National Commission for Health Education Credentialing?
 - a. surveyed stakeholders about advanced levels of certification
 - b. conducted a detailed analysis of CUP model compared to previous frameworks
 - c. released a new edition of the study guide for the certification examination
 - d. changed eligibility for certification exam to include only graduates of accredited programs
9. Which statement is FALSE regarding the SOPHE/AAHE Baccalaureate Program Approval Committee (SABPAC)?
 - a. SABPAC processes and criteria are now more compatible with accreditation requirements
 - b. SABPAC has new leadership and an expanded number of representatives
 - c. It has been recommended that program approval is preferable to accreditation.
 - d. There are few differences between program approval and accreditation criteria.
10. The Implementation Task Force will engage in all of the following activities on behalf of the health education profession, except for which one?
 - a. monitor the NCATE/TEAC movement toward a unified national accreditation system for teacher education
 - b. promote accreditation for all professional preparation programs
 - c. promote certification for individuals
 - d. raise money for the health education profession
