SUBJECT: STUDENT USE OF PERSONAL TECHNOLOGY/BRING YOUR OWN DEVICE (BYOD) (STUDENT AGREEMENT)**STUDENT AGREEMENT**

By taking advantage of equipment that you, as parents, may have already provided your children, and by the District providing a filter wireless network (Wi-Fi), the District can partner with you to provide students with the best academic resources available.

Learning about and being held accountable for the responsible use of either District-owned technology or personally-owned electronic devices is an important part of preparing students to be successful in the future. Whether using District-owned or personally-owned electronic devices for school purposes, each student is expected to act in an appropriate manner in accordance with the District's Responsible Use Policy (RUP).

Students in grades 3-12 may bring and use personal, portable, electronic devices starting at the beginning of the 2014-15 school year. Devices such as, but not limited to, electronic readers, small laptops, computers, tablets, cell phones and other portable equipment can access the District's filtered Wi-Fi network.

All students, teachers, and parents/guardians participating in BYOD must adhere to the following guidelines, the student Code of Conduct, and all Board of Education policies.

- Individual takes full responsibility for his/her device and keeps it with him/herself at all times. The school is not responsible for the security of the device and if lost, the school will spend only limited time trying to locate;
- These devices have educational and monetary value. Students are prohibited from trading or selling these items to other students on District property including school buses;
- Device must be in silent mode while on school campuses and while riding school buses;
- Device may not be used to cheat on assignments or tests;
- Device may not be used to record, transmit or post photographic images or video a person, or persons on campus during school activities/hours;
- Student may only access files on the computer or Internet sites which are related to the classroom curriculum;
- Electronic devices are only to be used in the classroom for educational purposes at the discretion of the teacher. Students must comply with every teacher's request to not use device or shut down device when asked;
- School/District administrators have the right to prohibit use of devices at certain times or during designated activities (i.e. school presentations, musicals, guest speakers, testing) that occur during the school day;

SUBJECT: STUDENT USE OF PERSONAL TECHNOLOGY/BRING YOUR OWN DEVICE (BYOD) (STUDENT AGREEMENT)

STUDENT AGREEMENT

- Individual acknowledges that the schools' network filters will be applied to his/her connection to the Internet and will not attempt to bypass them;
- Individuals understand that by bringing a device on premises subjects the device to scanning and security measure. Individuals also agree that there is antivirus protection already on the device brought in to the school. Knowingly infecting the District network with a Virus, Trojan or program designed to damage, alter, destroy or provide access to unauthorized data or information is in violation of the RUP policy and will result in disciplinary action;
- Individual realizes that processing or accessing information on school property related to hacking; altering or bypassing network security policies is in violation of the RUP policy and will result in disciplinary action;
- The School district has the right to collect and examine any device that is suspected of causing problems or was the source of an attack or Virus infection;
- Student understandings that printing from personal laptops will not be possible at school;
- Student ensures device is fully charged or runs off personal battery while on campus.
- Teachers will not store student devices at any time, nor with any district employee diagnose, repair or work on a student's personal device.

I understand and will abide by the above policy and expectations for BYOD. I further understand that any violation is unethical and may result in the loss of my network or device privileges as well as other disciplinary action.
