Checklist For Application:

- Dated sales receipt
- Completed application

By participating in our We Save program, you can save energy and earn a rebate when you install a Vending Machine Controller on your indoor refrigerated vending machine.

What rebate can I earn?

Vending Machine Controller **\$50**

How much energy can I save?

By installing a Vending Machine Controller you can achieve energy savings as high as 46%.

Rebate Qualifications and Program Rules

- Non-residential customers receiving electric service from a local municipal electric utility that is a participating member of MMPA are eligible for the Vending Machine Controller rebate.
- Rebate will be issued to the customer only.
- **Vending Machine Controller must be installed on an indoor, refrigerated vending machine that contains non-perishable goods and is not located in an area that is occupied 24 hours, 7 days a week.** If you have questions, call your local municipal electric utility.
- Utility reserves the right to conduct inspections of any and all installations before issuing the rebate. If Utility finds that the application does not comply with MMPA rules and qualifications, rebate amount may be adjusted.
- Rebate requests are processed on a first-come first-serve basis. Annual rebate funds are limited. Rebate programs, qualifications, and amounts are subject to change at any time.
- Installation must be completed before submitting rebate application.
- Customer must apply for rebate within one year of purchase date shown on invoice.
- Rebate will not be given for equipment or designs that do not comply with local, state, or federal regulations.
- Utility is not liable for rebates promised to a customer as a result of a contractor misrepresenting the program.
- Utility is not responsible for any tax liability imposed as a result of the rebate payment.
- Utility gives no warranties, expressed or implied, with respect to equipment operation, material, workmanship, or manufacturing. The Utility does not guarantee that the implementation of energy-efficient measures or use of equipment purchased or installed pursuant to this program will result in energy or cost savings. In no event shall the Utility be liable for any incidental or consequential damage.
- Information contained in this rebate application may be shared with the Department of Commerce and MMPA.
- Qualifying customers must apply for rebate by November 30, 2016.
