This one-day workshop will introduce participants to effective hazard identification techniques. This is a crucial step in the development of a fully functioning health and safety management system.

Who should attend this course?

This workshop would benefit staff in organisations setting up or revising their organisation's Health & Safety Management System, and especially those most likely to become the management representative for the H&S system within their organisation.

Competent trainer

The trainer for this workshop is Kenneth Hannon. Kenneth has wide experience and knowledge of the health and safety requirements in current regulations, and has worked with a number of organisations in the implementation and auditing of a variety of management systems.

*This workshop supports the two-day course **AS/NZS 4801 Health and Safety Management Systems.***
