

THE WILDERNESS CENTER

February 2016 Events

Star Watch

Friday, February 5, 8:00

Get some relief from cabin fever and experience a planetarium show and do some observing if the skies are clear. Orion and Gemini will be the stars of the show.

Environment Investigators: Frosty Feet

Saturday, February 6, 1:00 - 2:00

Compare the tracks of different wild animals. Then, hit the trails to find out who else has been walking there. Remember to dress warmly!

Mysterious Monarchs

Saturday, February 6, 2:00

2015 was a big year for monarch butterflies. Join us for a look at the amazing things we've learned and the conservation efforts being enacted to protect monarchs, including an update on their status as an endangered species.

Cost: \$5members, \$10 non-members

Nature Musik: Winter in the Woods

Thursday, February 11, 10:00 - 10:45

This class is designed for children ages 2-4 with an adult partner. We will do basic rhythm, tonal and movement activities, all based on the seasonal nature that is happening outside the window. Join Education Specialist Karrie McAllister and be prepared to sing, dance, play simple instruments and be active with your child!

Great Backyard Bird Count

Saturday, February 13, 9:00 - 2:00

Come to the Wildlife Observation Room for as long or as short a time as you like, identify and count birds for this annual citizen-science project.

Planetarium Show

Saturday, February 13, 1:00 - 2:00

TWC Astronomy Club members will present an informational program on the night sky during the day! Learn the latest astronomical sightings and seasonal constellations.

Story Time: Groundhog Hill

Wednesday, February 17, 11:00

Celebrate Groundhog Day! We'll have great groundhog stories and funny finger plays. Visit Groundhog Hill to see a real groundhog burrow.

Homeschool Art: For the Love of Lines

Thursday, February 18, 2:30

Our class will focus on teaching students all about the importance of lines and contour drawings. Perfect for beginners! Welcoming ages 4-14.

Cost: \$15 per student, includes all supplies

Visit byebyebluegallery.com to register.

Wild Edibles: The Basics of Permaculture

Saturday, February 20, 10:00 - 11:30

Permaculture is a system for sustainable living, developed in the 1970s and now practiced by millions worldwide. While permaculture is mainly associated with growing food, it also covers water harvesting, renewable energy, agroforestry, animal management, waste recycling, sustainable housing, finance, community building and earth repair. If you are interested in permaculture, self-reliance and self-sufficiency join Rob Kaiser, organizer of The Medina Permaculture Meet-Up Group to learn more about these fascinating subjects.

Playscape Playdate: Snow and Stick Sculptures

Saturday, February 20, 11:00-1:00

Why build a snowman when you can build a snowbear, snowbirds or any critter in the woods? If the snow is scant, we'll use sticks to create a wild sculpture. In the event of inclement weather, an alternative indoor activity will be available.

Fabulous Ferns

Saturday, February 20, 2:00

Because of the mostly green color, ferns often get overlooked among colorful flowering plants. But their beauty is obvious when one takes a closer look, for "Ferns exhibit the pure beauty of leaves." We will be looking at the identification, habitat, natural history and folklore of 45 of Ohio's 62 fern species with instructor Marvin Smith of the TWC Botanizers' Club.

Amphibians and Water Quality Lab

Tuesday, February 23, 10:00-12:00

Wetland ecologists use the quantity and quality of amphibian populations to determine wetland quality. We'll use a simulation activity to examine the use of the Coefficient of Conservatism scoring method. Keywords: salamanders, conservation, vernal pools, wetland health

Cost: \$10 members, \$15 non-members

**All TWC programs are
free for members
with a donation requested
from non-members,
unless otherwise indicated.**

Wilderness Walk

Wednesday, February 24, 1:00 - 2:00

Learn the natural history of the area and season. Spend an afternoon on a walk around one of the trails with at TWC guide!

Wilderness Sprouts: Rocks

Friday, February 26, 10:00 - 11:00

Rocks rock! We will look at fossils and other rock samples and make some rock art to take home. Wilderness Sprouts is designed for children ages 3-5 and an adult. Each month will include a lesson and experiment, a craft, and an outdoor adventure (weather permitting.)

Astronomy Club Meet-Up

Friday, February 26, 7:30 pm

For our monthly meet-up we will talk astronomy, have a meeting about astronomical events in 2016, and then talk more astronomy! Meet in the Astronomy Education Building.

Bird Banding

Saturday, February 27, 10:30-11:30

See birds up close as banding procedures are explained and demonstrated. Discover what is learned from bird banding research.

Ohio Geology

Saturday, February 27, 1:00 - 2:30

Explore the geologic history of Ohio to understand why the rocks in our state are where they are. Learn the different sedimentary rocks that are used for Ohio industry. Fossil identification and collection sites will also be discussed. Bring your own rocks or fossils to show!

Foxfield Preserve Info Session

Saturday, February 27, 2:00 - 3:30

Foxfield Preserve is a nature preserve cemetery at TWC. Natural burial is an economical, environmentally friendly alternative to modern burial. A natural burial at Foxfield Preserve leaves a permanent legacy for your family, community and the natural world. Visit foxfieldpreserve.org.

Art of Nature: Mixed Media Painting Class

Saturday, February 27, 2:00 - 4:00

Using acrylic paint, torn paper and ink, each student will be able to complete a winter tree painting. All skill levels welcome. Local artist Marlea Hershberger will provide step-by-step instructions with lots of room for participants to explore their creative side.

Cost: \$35, visit byebyebluegallery.com to register

Save the Date

Geology Day

Saturday, March 5, 10:00 - 2:00

Learn about rocks and minerals, start a rock collection, view fossils, make rock art and visit the rock walk. Join fellow rock hounds at free activity stations for all ages!

Hastily-Assembled Grassroots Band

Saturday, March 12, 7:00 pm

From rock-a-billy to reggae, and blues to bluegrass, from country green to city blue, the band members, traveling different paths of life, come together at an intersection of American musical diversity that proves to be fun, exciting, and spontaneous. Join us for an evening's journey through musical roots of our American culture.

Cost: \$8 for TWC members, \$12 for nonmembers.

Children 15 and under are half price.

Visit wildernesscenter.org
to see our full calendar of events!

Register for programs
by calling 330.359.5235

We try to make any weather cancellation decision at least 2 hours before the program starts. Call if in doubt.
