

Casalini libri offers monthly bibliographical updates (NTI) relative to new titles published in Italy, France and Spain based on the Dewey Decimal Classification free of charge. Please complete one form per profile, checking the imprint countries and the subject areas to be covered. Should you require a more detailed subject profile, we can provide you with an extended form with 3-digit Dewey classes.

For librarians who do not require monthly updates, Casalini produces six-monthly Core Lists of the most significant titles published in Italy, France and Spain in the Social Sciences, Philosophy, Art, Literature and History. Core titles in all subject areas can be accessed in our online databases. See reverse to request this service.
