Name: \_\_\_\_\_

## ASSESSMENT

This sheet **identifies** areas of the multiplication table that have **not yet** been committed to memory. Assessment can be done by a student partner or a classroom teacher.

- THE STEPS**
- 1) **Partner reads** aloud the multiplication questions (gray rows) to student and **records** the **answers** (white rows).
  - 2) **Partner circles incorrect** answers "misses" (areas that require remediation and practice).
  - 3) **Partner records** incorrect answers to questions (misses) on the "Individual Student Assessment Record sheet".
  - 4) **Switch** roles with partner and repeat above steps.
  - 5) **Find the answers to misses** by using the "Solve it by Grid" worksheet and then correct them.
  - 6) **Work** on the Just Multiply It! Practice Sheets, based on areas that require remediation. Circle and then correct "misses".
  - 7) **Repeat** steps 1 - 6.
