

e-editing

Using an Electronic Editing System
to Produce High Quality Documents

e-editing system

- ⦿ Enables you and your colleagues to collaborate and edit each other's work using the PED Network
- ⦿ Allows bureaus to produce documents in a timely manner that are better written, meet constituent's needs, and exude professionalism
- ⦿ Reduces the amount of time and editing that program managers, assistant secretaries, deputy secretaries and Dr. García spend on documents

e-editing

This training will focus specifically on letters signed
by Dr. García that are produced by PED Divisions
and Bureaus

e-editing goals

- ⦿ To capture Dr. García's “voice” in each letter
- ⦿ To communicate clearly with the recipient of the letter
- ⦿ To consistently produce high quality documents

e-editing step 1

Decide what type of letter you will be writing:

- ⦿ Informative
- ⦿ Request
- ⦿ Regret/Apology
- ⦿ Explanation
- ⦿ Communication of PED Regulation or State Law
- ⦿ Other

e-editing step 2

Before you begin writing a letter, ask yourself:

- ⦿ What is the purpose of this letter?
- ⦿ What message do you want to communicate to the constituent?
- ⦿ How can you say this in a clear and concise manner?

e-editing step 2

The answers to the three previous questions will determine:

- ⦿ What type of response
- ⦿ How to structure the letter
- ⦿ What template to use

e-editing templates

WHY

Important template criteria:

- ⦿ Templates are like “skeletons”; they are the framework for your letter.
- ⦿ It is your job to add the “meat” to the letter; to ensure that Dr. García’s “voice” guides the letter.
- ⦿ It is also imperative that the letter is personalized to meet the needs of each constituent.

e-editing templates

HOW

- ⦿ Discuss with your bureau what kinds of letters you will be sending
- ⦿ Choose 5-10 recurring topics on which to base your templates.
- ⦿ Decide on 5-10 different salutations/openings you may want to use.
- ⦿ Choose 5-10 different closings.

e-editing designing templates HOW

- ⦿ When writing letters on behalf of Dr. García, your bureau may choose to use templates that will be created and reside on the **PED P-Drive**.
- ⦿ Each template should be designed then approved by your Program Manager, Assistant Secretary, and Lori Bachman/Dr. García before use.

Dear Ms. Lopez:

I am writing with reference to your letter received January 1, 2006 regarding your daughter, Victoria Lopez. One of our goals is to ensure that matters such as these are addressed. **Therefore, a copy of this letter is being sent to Principal Moya.**

In your role as a concerned parent in your community, you have communicated that you would like for Ms. Abbot to reconsider her disciplinary actions regarding Victoria. After reviewing the information you provided, **I recommend that you continue to work with Ms. Abbot since this is a local district decision outside the purview of the Public Education Department (PED). If you are not satisfied with the result after working with Ms. Abbot, your next step in the process would be to contact Principal Moya.** Our experience in the PED has demonstrated that, in most cases, you will find resolution by following a problem solving process at the local level.

Thank you for taking the time to fill out the intake sheet. Your dedication to informing the state government of issues that affect you is greatly appreciated. If you have further questions, please direct any future correspondence to:

cc: Geri Romero-Roybal, Assistant Secretary of Education (always include division administrator)

e-editing step 3

The third step in the process is to write the letter:

- ⦿ Once you have chosen your template, enter the appropriate constituent information and personalize the letter.
- ⦿ Make sure to follow the Protocol for Preparing Correspondence for Dr. García.

e-editing step 4

Setting up your bureau's system to:

- ⦿ Review
- ⦿ Revise
- ⦿ Edit

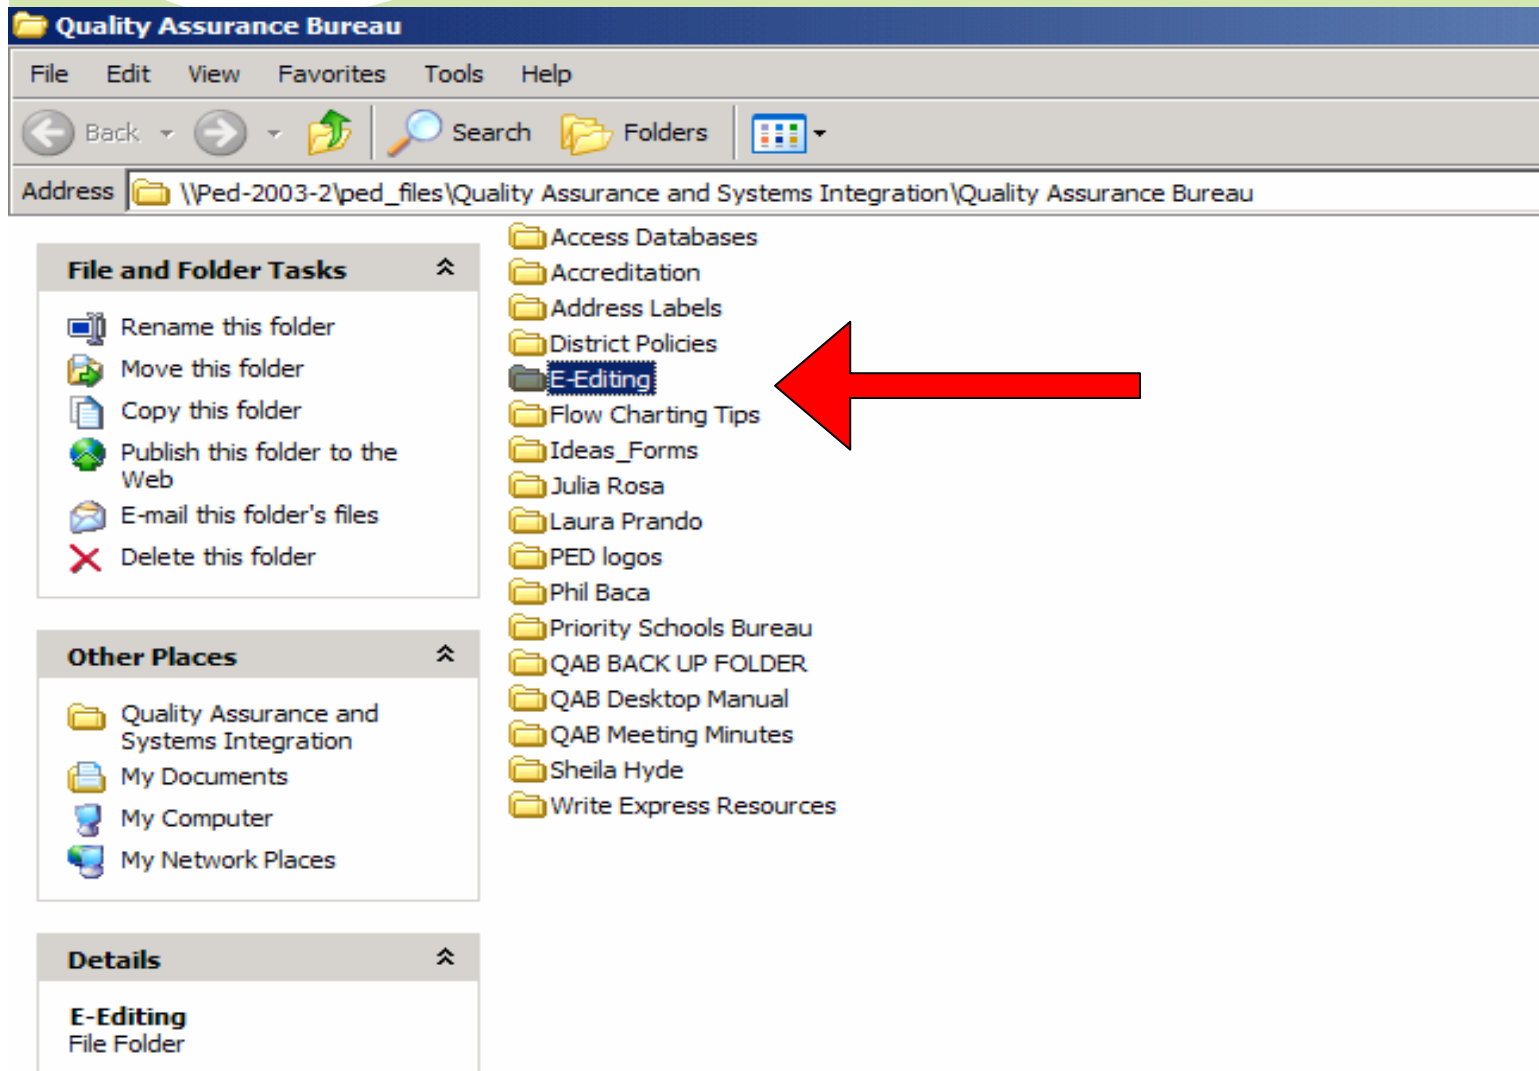

e-editing step 4

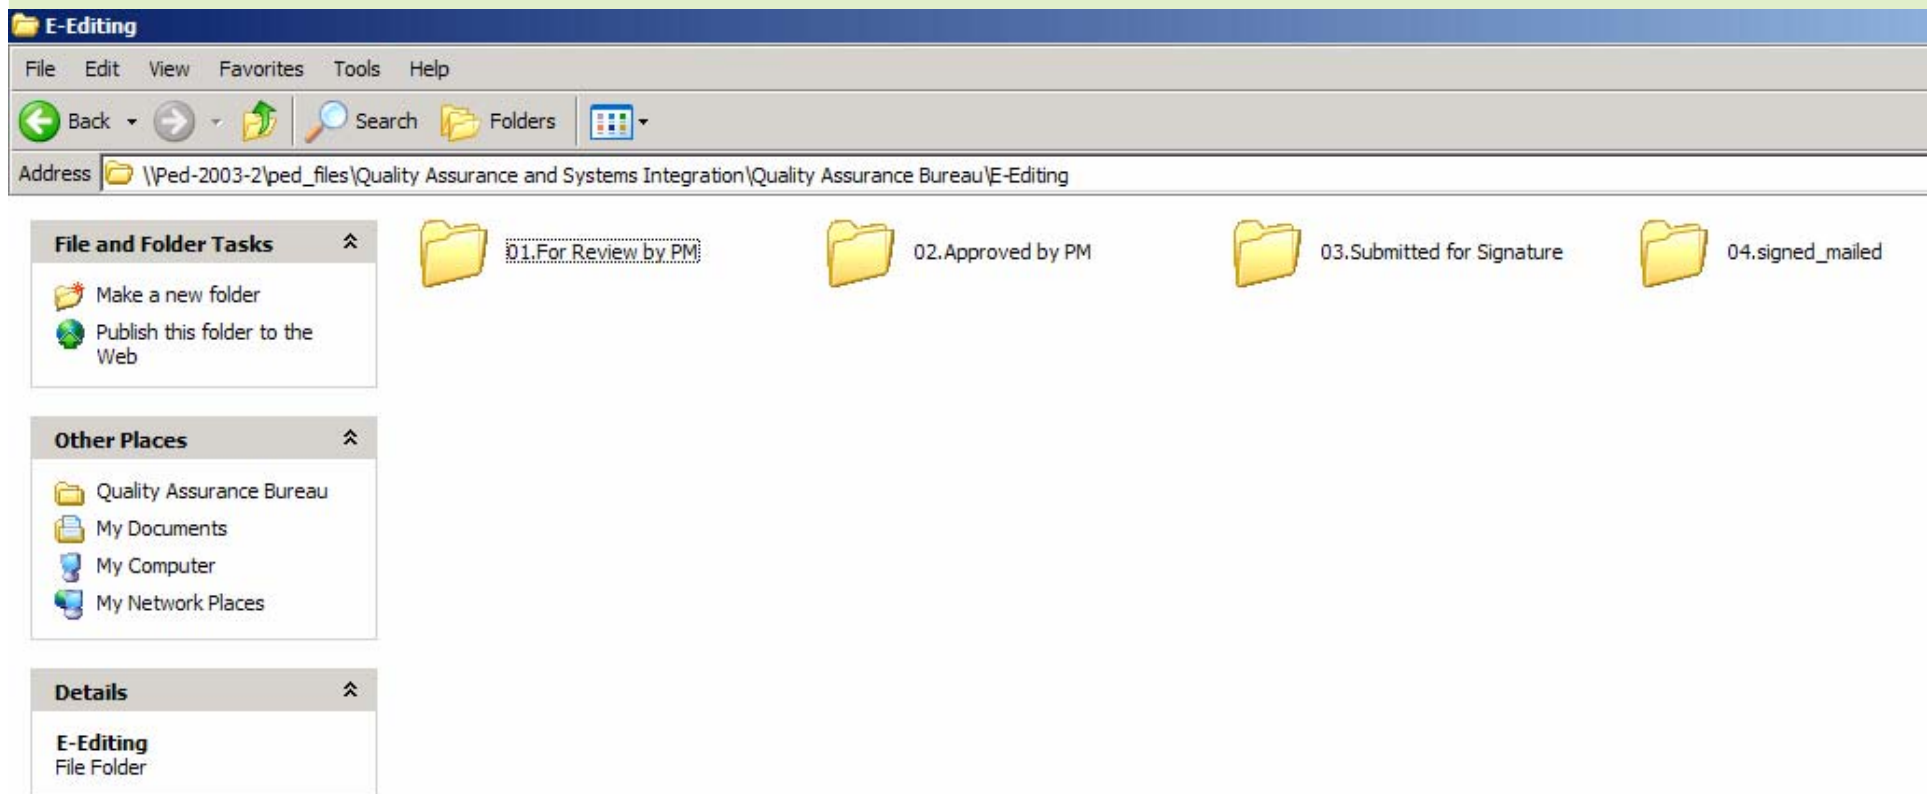

- ⦿ The e-editing system is based on folders on the PED Network
- ⦿ These folders are shared by bureau members (or specific people assigned to the process).
- ⦿ **Information Technology** can ensure that folders are secure and only designated people have access to the e-editing folders.
- ⦿ (Use the Track-It work order system to request help from IT.)

Create an e-editing folder in your bureau folder on the P Drive.
