This symbol refers to a hazard or unsafe practice which can result in personal injury or product or property damage. 2 F569569_EN. Fm Page 3 Friday, March 14, 2014 8:44 AM INSTALLATION LOCATION • We recommend that this air conditioner be installed properly by qualified installation technicians in accordance with the Installation Instructions provided with the unit. □ Before installation, check that the voltage of the electric supply in your home or office is the same as the voltage shown on the nameplate. □ Do not install this air conditioner where there are fumes or flammable gases, or in an extremely humid space such as a greenhouse.

@@@ NOTE Power mains ON Pull off the power plug from a receptacle, or switch off the breaker, or switch off the power disconnecting mean to isolate the air conditioner from the main power supply when not in use for a long time. 3 F569569_EN. Fm Page 4 Friday, March 14, 2014 8:44 AM SAFETY INSTRUCTIONS • • Read these Operating Instructions carefully before using this air conditioner. If you still have any difficulties or problems, consult your dealer for help. This air conditioner is designed to give you comfortable room conditions.

Use this only for its intended purpose as described in these Operating Instructions. confirm to authorized dealer or specialist on usage of specified refrigerant type. Using of refrigerant other than the specified type may cause product damage, burst and injury etc. Never touch the unit with wet hands. Never use or store gasoline or other flammable vapor or liquid near the air conditioner — it is very dangerous.

Do not use this appliance in a potentially explosive atmosphere. This air conditioner has no ventilator for intaking fresh air from outdoors. You must open doors or windows frequently when you use gas or oil heating appliances in the same room, which consume a lot of oxygen from the air. Otherwise there is a risk of suffocation in an extreme case. Provide a power outlet to be used exclusively for each unit, and a power supply disconnect, circuit breaker and earth leakage breaker for overcurrent protection should be provided in the exclusive line. Provide a power outlet exclusively for each unit, and full disconnection means having a contact separation in all poles must be incorporated in the fixed wiring in accordance with the wiring rules. To prevent possible hazards from insulation failure, the unit must be grounded. 4 Do not clean inside the indoor and outdoor units by users. engage authorized dealer or specialist for cleaning. In case of malfunction of this appliance, do not repair by yourself.

Contact to the sales dealer or service dealer for a repair. refrigerant gas leakage may cause fire. For safety, be sure to turn the air conditioner off and also to disconnect the power before cleaning or servicing. Pull off the power plug from a receptacle, or switch off the breaker, or switch off the power disconnecting mean to isolate the air conditioner from the main power supply in case of emergency. Do not insert your fingers or other objects into the air conditioner indoor or outdoor unit, rotating parts may cause injury. do not use modified cord , joint cord , extension cord or unspecified cord to prevent overheating and fire. Do not allow infants and small children to play with the remote control to prevent them from accidentally swallowing the batteries. f569569_EN. Fm Page 5 Friday, March 14, 2014 8:44 AM If the supply cord is damaged, it must be replaced by the manufacturer, service agent or similarly qualified persons in order to avoid a hazard. it is strongly recommended to be installed with Earth Leakage Circuit Breaker (ELCB) or Residual Current Device (RCD) to prevent electric shock or fire.

Stop using the product when any abnormality/failure occurs and disconnect the power plug or turn off the power switch and breaker. □ Abnormal noise or vibration of the unit is observed. @ □ The fan does not stop even if the operation is stopped. Contact immediately your local dealer for maintenance/repair. @ □ Do not operate with wet hands.

□ Do not over bend the power supply cord. @ use the ON/OFF operation button. Do not stick anything into the air outlet of the outdoor unit. This is dangerous because the fan is rotating at high speed. @ You may get injured.

Keep the fire alarm and the air outlet at least 1. 5m away from the unit. @ Children shall not play with the appliance. @ Do not sit or step on the unit. You may fall down accidentally. 5 F569569_EN. @ You may be injured and the unit may be damaged. @ This is not a mechanical failure. The unit automatically recovers after a few minutes. The English text is the original instructions.

Other languages are translation of the original instructions. @ - The power is sometimes disconnected when the cord is moved. - Burnt odor or abnormal noise is detected during operation. - The body is deformed or abnormally hot. Contact immediately your local dealer for maintenance/repair. 6 F569569_EN. @ pb 7 F569569_EN. @ (Wired type: available for all indoor units) □ Slim Type Ducted (Z1) This air conditioner is not equipped with air outlet parts. these must be obtained locally. Please refer to the manual of the locally adopted air outlet parts. 8 F569569_EN. Fm Page 9 Friday, March 14, 2014 8:44 AM SPECIAL REMARKS "DRY" Operation How it works • • • Once the room temperature reaches the level that was set, the unit repeats the cycle of turning on and off automatically. In order to prevent the humidity in the room from rising again, the indoor fan also turns off when the unit stops operating. The fan speed is set to "LO. " automatically , and cannot be adjusted.

□ "DRY" operation is not possible if the outdoor temperature is 15 °C or less. Heating Operation Heating performance • Because this appliance heats a room by utilizing the heat of the outside air (heat pump system), the heating efficiency will fall off when the outdoor temperature is very low.

[You're reading an excerpt. Click here to read official PANASONIC S-73MZ1H4A user guide](http://yourpdfguides.com/dref/5641139)
<http://yourpdfguides.com/dref/5641139>

If sufficient heat cannot be obtained with this heat pump, use another heating appliance in conjunction with this unit. When the outdoor temperature is low, frost or ice may form on the outdoor heat exchanger coil, reducing the heating performance. When this happens, a microcomputer-controlled defrosting system operates.

At the same time, the fan on the indoor unit stops (or runs at very low speed in some cases) and the "STANDBY" indicator appears on the display until defrosting is completed. Heating operation then restarts after several minutes. (This interval will vary slightly depending upon the outdoor temperature and the way in which frost forms.) For several minutes after the start of heating operation, the indoor fan will not start running (or it will run at very low speed in some cases) until the indoor heat exchanger coil has warmed up sufficiently. This is because a cold draft prevention system is operating. During this period, the " " (standby) indicator remains displayed. " " (standby) remains displayed during defrosting or when the compressor has been turned off (or when the unit is running at very low speed) by the thermostat when the system is in the heating mode. Upon completion of defrosting and when the compressor is turned on again, " " (standby) will turn off automatically as heating operation resumes. Defrosting • (standby) on the display • • • NOTE Should the power fail while the unit is running If the power supply for this unit is temporarily cut off, the unit will automatically resume operation (once the power is restored) using the same settings before the power was cut off. CARE AND CLEANING 1.

For safety, be room. Do • • Always try to keep the air filter clean. (Refer to "CARE AND CLEANING".) A clogged filter will impair the performance of the unit. To prevent conditioned air from escaping, keep windows, doors and any other openings closed. NOTE Should the power fail while the unit is running If the power supply for this unit is temporarily cut off, the unit will automatically resume operation once power is restored using the same settings before the power was interrupted. Untuk mencegah kemungkinan bahaya akibat kegagalan isolasi, unit harus diarde Jangan bersihkan sendiri bagian dalam unit indoor dan outdoor. Jangan masukkan jari tangan Anda atau benda lain ke unit dalam atau unit luar pendingin ruangan, suku cadang yang berputar bisa mengakibatkan cedera. Penghilangan bunga es • (standby) di layar • • • CATATAN Bila daya terputus saat unit sedang beroperasi Jika catu daya untuk unit ini terputus sementara waktu, unit akan secara otomatis melanjutkan pengoperasian kembali (setelah daya dikembalikan) menggunakan pengaturan yang sama seperti sebelum daya terputus. @@@@Fm Page 65 Friday, March 14, 2014 9:23 AM [India Only] Declaration of Conformity with the requirements of the e-waste (Management and Handling) Rules, 2011 (adopted by Notification S. o. 1035(E) of Ministry of Environment and Forests) The Product is in conformity with the requirements of Rule 13 of the e-waste Rules. The content of hazardous substance with the exemption of the applications listed in SCHEDULE II of the e-waste Rules: 1. Lead (Pb) – not over 0. For the purpose of recycling to facilitate effective utilization of resources, please return this product to a nearby authorized collection center, registered dismantler or recycler, or Panasonic service center when disposing of this product.
