

Natural Products Association Presents:

GMOs: Science vs. Nature

Tuesday, October 7, 2014

9:00 a.m. – 12:00 p.m.

Las Vegas, NV

GMO. GE Food. Natural. Organic. Non-GMO. Locally sourced. These buzz words are all the rage and at the current center of attention in the nation's food supply. More people than ever before are thinking about where their food comes from and what chemicals or hormones might have been added along the way. With Vermont and Maine already passing GMO labeling laws and over 20 states having proposed GMO labeling bill requirements, it shows that the U.S. is making GMO a priority. Companies are marketing their use of non-GMO ingredients to win over consumers, but will labeling your product as containing GMO ingredients make a difference to the consumer? Come to Las Vegas to hear Stuart M. Pape (Squire Patton Boggs (US), LLP), Robert Craven (CEO MegaFood), and Jason Sapsin (Fox Rothschild LLP and former Associate Chief Counsel of the FDA), speak on the evolution of GMOs, legal challenges surrounding voluntary labeling as non-GMO, how to verify that your non-GMO product is actually non-GMO, the costs involved in producing non-GMO food and the challenges of meeting consumer demand of non-GMO products.

Name(s) & Title(s) _____

Company _____

Address _____

City/State/Zip _____

Phone _____ Ext. _____ Fax: _____

Email (required – confirmation sent by email) _____
