Refund Policy: If a participant requests a refund, there is a \$10.00 non-refundable fee deducted from all cancellations to cover administrative costs. Refund requests may be made up to three days prior to the start of the course. No refunds are issued after the start of the course.

This course will prepare the student for the VTNE by reviewing the basics of veterinary science and technology. A discussion of study strategies and test-taking tips is also covered.

The approach to teaching includes lectures, discussions, weekly homework and reading assignments.

Students will be given rapid fire multiple choice questions similar to those found on the VTNE to allow them to see which areas they need to focus additional review time on independently.
