2014 Formulary

(List of Covered Drugs)

PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS WE COVER IN THIS PLAN

This formulary was updated on **10/28/2014**. For more recent information or other questions, please contact Coventry Health Care at 1-866-294-9803, (TTY/TDD 711), 24 hours a day, 7 days a week, or visit www.FHDFormulary.coventry-medicare.com.

Coventry Health Care of Missouri, Inc., Coventry Health Care of Kansas, Inc. and Coventry Life and Health Insurance Company are Coordinated Care plans with Medicare contracts. Enrollment in our plan(s) depends upon contract renewal.

Y0022_PDPCCP_2014_1085_1921 approved 8/2013

Formulary ID: 14265, Version: 17

Last Update: **10/28/2014**

RX-14-MOKS1

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to "we," "us", or "our," it means Coventry Health and Life Insurance Company, Coventry Health Care of Missouri, Inc. or Coventry Health Care of Kansas, Inc. When it refers to "plan" or "our plan," it means Coventry Health Care.

This document includes a list of the drugs (formulary) for our plan which is current as of **10/28/2014**. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, premium and/or copayments/coinsurance may change on January 1, 2015.

Limitations, copayments, and restrictions may apply.

This document may be available for free in other alternative formats. Please call 1-866-294-9803 (TTY/TDD users only: 711 Telecommunications Relay Services), 24 hours a day, 7 days a week, if you need plan information in another format.

Este documento puede estar disponible de forma gratuita en formatos alternativos. Por favor llame al 1-866-294-9803 (Los usuarios de TTY / TDD solamente: 711 Servicios de Retransmisión de Telecomunicaciones) 24 horas al día, 7 días a la semana si usted necesita información en otro formato.

This information is available for free in other languages. Please contact our customer service number at: 1-866-294-9803, 24 hours a day, 7 days a week. (TTY/TDD users please call 711 Telecommunications Relay Services).

Esta información está disponible de forma gratuita en otros idiomas. Por favor, póngase en contacto con nuestro número de servicio al cliente al 1-866-294-9803 (TTY / TDD llame al 711 Servicios de Retransmisión de Telecomunicaciones), 24 horas al día, 7 días a la semana si usted necesita información en otro formato.

What is the Coventry Health Care Formulary?

A formulary is a list of covered drugs selected by Coventry Health Care in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Coventry Health Care will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a Coventry Health Care network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the Formulary (drug list) change?

Generally, if you are taking a drug on our 2014 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2014 coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released. Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available at the same cost-sharing for those members taking it for the remainder of the coverage year. We feel it is important that you have continued access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money or we can ensure your safety.

If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food and Drug Administration (FDA) deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. The enclosed formulary is current as of **10/28/2014**. To get updated information about the drugs covered by Coventry Health Care, please contact us. Our contact information appears on the front and back cover pages.

In the event of a (non-routine) mid-year formulary change such as moving a preferred formulary drug to a non-preferred formulary tier, adding an additional requirement or limit to a drug, removing a dosage form, or exchanging one drug for therapeutic alternative by adding or deleting a drug or changing a tier as a result of a therapeutic alternative, we will notify you by providing you with a written notice of the (non-routine) formulary change. Please visit our website www.coventry-medicare.com or refer to your monthly Explanation of Benefits (EOB) for the (non-routine) formulary change. In addition, we will also update our online searchable formulary.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page B-1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, "Cardiovascular Agents". If you know what your drug is used for, look for the category name in the list that begins on page number B-1. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page Index-1. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

Coventry Health Care covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

What are compounded drugs?

Compounded drugs are composed of two or more ingredients and they require a prescription from a physician. In addition, compounded drugs are prepared by a pharmacist who mixes the various ingredients to customize the drug to meet your individual medical needs. Compounded drugs often have the same active ingredients as generic prescription drugs and brand name drugs, but they are different in (a) strength, (b) inactive ingredients such as preservatives, dyes, sugars and other inactive ingredients found in regular prescription drugs, and (c) form.

The Plan only covers the compounds when one or more of the ingredients in the compounded drug are recognized by Medicare to be Part D drug eligible products. The plan only covers up to a 30-day supply at a time because compounded drugs do not have an extended expiration date as compared to commercially

manufactured medications. The member's cost share for a compounded drug is based on a variety of factors. (1) During the initial coverage phase of the benefit, the member's cost share is determined by the formulary tier placement of the highest tier of any of the individual ingredients in the compound. (2) When in the coverage gap or catastrophic phase of the benefit, the member's cost share is based off the benefit design and the individual drugs in the compound. (see the Annual Notice of Changes/Evidence of Coverage for benefit details). Regardless of the benefit phase, drug restrictions on the individual ingredients may apply (see below).

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

Prior Authorization: Coventry Health Care requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from Coventry Health Care before you fill your prescriptions. If you don't get approval, Coventry Health Care may not cover the drug.

Quantity Limits: For certain drugs, Coventry Health Care limits the amount of the drug that Coventry Health Care will cover. For example, Coventry Health Care provides no more than 2 inhalers per prescription for ProAir HFA. This may be in addition to a standard one-month or three-month supply.

Step Therapy: In some cases, Coventry Health Care requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Coventry Health Care may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Coventry Health Care will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page B-1. You can also get more information about the restrictions applied to specific covered drugs by visiting our web site. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask Coventry Health Care to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, "How do I request an exception to the Coventry Health Care's formulary?" on page A-5 for information about how to request an exception.

Are all drugs on this formulary provided for a long term extended 90-day supply?

Coventry Health Care only provide(s) a long term extended day supply (up to 90-days) for those drugs listed in this formulary with an abbreviation of "90D" in the "Drug Notes" column of the formulary. If the drug you need does not have a "90D" listed in the "Drug Notes" column of the formulary, Coventry Health Care will not provide coverage for an extended day supply. Drugs that do not have a "90D" in the "Drug Notes" column can be covered as follows:

Drugs will be covered only up to a 30 day supply per fill by default when there is no quantity limit noted. Drugs that are typically limited to a 30 day supply include FDA controlled substances and high cost agents.

Drugs with a quantity limit noted will be covered up to a 30 day supply per fill, unless otherwise noted in the day supply of the quantity limit note. Drugs that are typically limited to less than a 30 day supply include select medications used for pain and some antibiotics since typically these are only needed for a short term use to treat the medical issue. An example of a drug that is limited to less than 30 days per prescription is vancomycin (brand name Vancocin) 125mg tablets which has a quantity limit noted as 56 capsules per 14 days in the formulary drug list.

For more information on how to read this formulary, please see “How To Read The Drug List” on page A-7.

What are over-the-counter (OTC) drugs?

OTC drugs are non-prescription drugs that are not normally covered by a Medicare Prescription Drug Plan. However, Coventry Health Care cover(s) the OTCs listed in the chart below as part of Step Therapy and when a prescription is written by your doctor or other prescriber. We provide a 30 day supply for all members and a 31-day supply for members in long-term care. Your copayment is \$0 for these covered OTCs regardless of where you are in the various stages of your prescription drug benefit. The cost of these covered OTC drugs will not count toward your total drug costs (that is, the amount you pay does not count for the coverage gap). All OTCs have quantity limits.

Drug Name	Type	Strength
Loratadine	Tablets	10mg
Loratadine	Dissolve Tablets	10mg
Loratadine	Syrup	5mg/5 ml
Loratadine and Pseudoephedrine Sulfate	12 Hour Tablets	5mg/120mg
Loratadine and Pseudoephedrine Sulfate	24 Hour Tablets	10mg/240mg
Cetirizine	Tablets	5mg
Cetirizine	Tablets	10 mg
Cetirizine	Chewable Tablets	5mg
Cetirizine	Chewable Tablets	10 mg
Cetirizine	Syrup	1 mg/ml
Cetirizine HCL and Pseudoephedrine Hydrochloride	12 Hour Tablets	5 mg/120 mg

What if my drug is not on the Formulary?

If your drug, drug strength or drug's dosage form (examples of dosage forms include but are not limited to an extended release tablet, suspension, or an injection) is not included in this formulary (list of covered drugs), you should first contact Customer Service and confirm that your drug, drug strength or dosage form is not covered. If you have coverage questions, please contact Customer Service. Our contact information, along with the date we last updated the formulary, appears on the front and back covers.

If you learn that Coventry Health Care does not cover your drug, you have two options:

- You can ask Customer Service for a list of similar drugs that are covered by Coventry Health Care. When you receive the list, show it to your doctor or other prescriber and ask him or her to prescribe a similar drug that is covered by Coventry Health Care. If you prefer you can also take this printed formulary document to your next doctor or other prescriber's appointment to ask your doctor or other prescriber if another drug on the formulary list could be used for your condition.
- You can ask Coventry Health Care to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Coventry Health Care's Formulary?

You can ask Coventry Health Care to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover your drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at a lower cost-sharing level if this drug is not on the specialty tier. If approved this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, Coventry Health Care limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover more. If approved, this drug will be covered at a predetermined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost sharing level.

Generally, Coventry Health Care will only approve your request for an exception if the alternative drug(s) is included on the plan's formulary, the lower cost-sharing drug(s) or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tiering or utilization restriction exception. **When you are requesting a formulary, tiering or utilization restriction exception you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your doctor or other prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor or other prescriber believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor or other prescriber to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor or other prescriber to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For new members (defined as in the plan for less than 90 days) or current members taking a therapy in which the drug becomes non formulary or requires a new Prior Authorization or Step Therapy edit with the new benefit year, we will cover a temporary supply. For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply (unless you have a prescription written for less than 30 days, in which case, we will allow multiple refills to provide up to a total of 30 days of the drugs) when you go to a network pharmacy. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

For new members (defined as in the plan for less than 90 days) or current members taking a therapy in which the drug becomes non formulary or requires a new Prior Authorization or Step Therapy edit with the new benefit year, we will cover a temporary supply. If you are a resident of a long-term care facility, we will allow you to refill your prescription until we have provided you with a 91-day transition supply, **consistent with dispensing increment**, (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan. If you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90

days of membership in our plan, we will cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

For current members who are changing from one treatment setting to another, for example entering a long-term care facility from a hospital or being discharged from a hospital to home, the member and provider will need to utilize our exception and appeals process should the drugs not be on our formulary. Members entering or being discharged from a long-term care facility will be allowed a one-time emergency supply of a 31-day supply for medications which the member has not already received a transition supply. In addition, the dispensing pharmacist will be able to override early refill edits, where appropriate, for members entering or being discharged from a long-term care facility where beneficiaries are not allowed to take their previously filled medications with them to their new location.

For more information

For more detailed information about your Coventry Health Care prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about Coventry Health Care please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY/TDD users should call 1-877-486-2048. Or, visit www.medicare.gov.

Coventry Health Care's Formulary

The formulary that begins on page B-1 provides coverage information about the drugs covered by Coventry Health Care. If you have trouble finding your drug in the list, turn to the Index that begins on page Index-1.

How to Read the Drug List

The formulary drug list that begins on page B-1 is set up like a table to make it easy to read. The column headers look as follows:

A Drug Name	B Drug Notes	C Coventry Health Care	
		D Tier	E Plan Notes

- A. The first column of the chart is the “Drug Name”. This column will list out the names of drugs. Brand name drugs are capitalized (e.g., COUMADIN) and generic drugs are listed in lower-case italics (e.g., *warfarin*).
- B. The second column is called “Drug Notes”. This column will list any requirements for coverage of the drug. Please refer to the “Plan Notes” column for any additional requirements.
- C. The remaining columns are specific to the plan you are enrolled in. The Plan Name and Type will appear on top of the “Tier” and “Plan Notes” columns. Please refer to the cover of your Evidence of Coverage or your Membership Identification Card for the name of your plan.

D. The “Tier” column defines the type of drug and the copayment and/or coinsurance level. Please refer to “Explanation of Cost-Sharing Tiers” on page A-9 for an explanation of the cost-share tiers and the levels of coverage. In addition, please refer to Chapter 6, “What you pay for your Part D prescription drugs” in your Evidence of Coverage for the exact amounts you pay for the drugs in each cost-sharing tier.

E. The “Plan Notes” column lists any additional requirements for coverage of the drug under a specific plan. The requirements under “Plan Notes” are in addition to those listed under “Drug Notes”.

DRUG NOTES

The following list contains an explanation of the abbreviations you will see in the “Drug Notes” column. These are the special requirements that apply to the drug in all cases where the drug is covered on the formulary.

Medicare Part B v. Medicare Part D B v D This drug requires a prior authorization to determine if this drug may be covered under Medicare Part B or Part D depending upon the circumstances. Information may need to be submitted describing the use of the drug, how the drug is going to be purchased, and where the drug will be administered to make the determination.	Quantity Limits QL The plan will only cover a certain amount of these drugs for one copay/coinsurance or over a defined number of days. For example, a drug that is covered up to one tablet per day will be displayed as “30 QY 30 DY” which means a quantity of 30 tablets will be covered per 30 day supply. These limits may be in place to ensure safe and efficient use of a drug. If your doctor or other prescriber prescribes more than this amount or thinks the limit is not right for your situation, you or your doctor or other prescriber can ask the plan to cover the additional quantity.
High Risk Medications HRM The plan recognizes that there are certain medications that are considered high risk medications. These may be inappropriate in elderly patients and could cause harmful side effects. We encourage you to speak with your doctor or other prescriber if you are prescribed one of these medications to see if there may be other alternatives available to you.	90-day Long-Term Supply 90D The plan provides a long-term (extended day) supply up to 90 days of these drugs.

PLAN NOTES

The following list contains an explanation of the abbreviations you will see in the “Plan Notes” column. These are the special requirements that apply to the drug on your plan’s formulary where the note is listed.

Prior Authorization PA You or your doctor or other prescriber must provide additional information to the plan before the plan will cover this drug. The plan uses this information to help ensure the drug is covered appropriately for Medicare-eligible health conditions. In some cases you may be asked to try another drug on the formulary before the plan covers the drug you are requesting. If you do not get approval, your drug may not be covered by the plan, and you would be responsible for the full cost.	Non-Formulary NF This drug is a non-formulary drug. The plan does not include this drug on its formulary. You or your doctor or other prescriber may request an exception. Your doctor or other prescriber will need to provide a supporting statement for an exception.
Step Therapy ST There are effective, clinically proven lower-cost alternatives to this drug that treat the same health condition. The plan may require that you try an alternative drug for your health condition before the plan will cover the drug you are requesting. If you have already tried other drugs or your doctor or other prescriber thinks other drugs are not right for your situation, you or your doctor or other prescriber can ask the plan to cover these drugs by request, as an exception through the process described on page A-5.	

Explanation of Cost-Sharing Tiers

Every drug on the formulary is in one of 5 cost-sharing tiers depending on which plan you are enrolled in. When you review the drug list that appears on page B-1, the column called “Tier” will show whether the drug is on Tier 1, 2, 3, 4, or 5. In general, the higher the cost-sharing tier, the higher your cost for the drug. Here is how the plan defines its cost-sharing tiers:

Five (5) Tier Plans - Coventry Health Care

Tier 1 – “Preferred Generic Drugs”

Preferred Generic drugs offer the lowest out-of-pocket cost to you. You and your doctor or other prescriber should decide if Tier 1 medications are right for your treatment.

Tier 2 - “Non-Preferred Generic Drugs”

Some Tier 2 drugs have lower-cost Tier 1 options that you may consider with your doctor or other prescriber.

Tier 3 - “Preferred Brand Drugs”

Preferred Brand drugs are offered at a lower cost-share than Non-Preferred Brand and Non-Preferred Generic drugs. You might consider having your doctor or other prescriber review the formulary list of Tier 3 drugs as an alternative to the Non-Preferred Brand drugs on Tier 4.

Tier 4 - “Non-Preferred Brand Drugs”

The drugs on this tier include the plan’s Non-Preferred Brand drugs along with some non-preferred generic drugs. The cost of these drugs are usually higher than Tiers 1, 2 and 3 drugs. By discussing your prescription needs with your doctor or other prescriber and sharing a copy of this formulary, you and your doctor or other prescriber may find equally effective alternatives with lower-cost brands on Tier 3 and lower cost generics on Tiers 1 and 2. If you, along with your doctor or other prescriber request a formulary exception for a non-formulary drug (a drug that is not on our drug list) and your request is

approved, the non-formulary drug will be treated as a Tier 4 drug and you will be responsible for paying the cost of the non-formulary drug as if it were on Tier 4.

Tier 5 – “Specialty Drugs”

The drugs on this tier are very high-cost/unique drugs and include both brand and generic drugs. The plan does not lower the cost-sharing amount for drugs in this tier.

Where Can I Find the Actual Costs Associated With The Cost-Share Tiers?

Please refer to Chapter 6, “What you pay for your Part D prescription drugs” in your Evidence of Coverage for the exact amounts you pay for the drugs in each cost-sharing tier.

If you are in a program that helps pay for your drugs, we mail an insert, called the “Evidence of Coverage Rider for People Who Get Extra Help Paying for Prescription Drugs” (LIS Rider), that tells you about your drug coverage. This Rider also lists the amount you pay for drugs in each cost-sharing tier. You can also contact Customer Service at the telephone numbers on the cover of this formulary to find out what your costs are in this situation.

Preferred Network Pharmacies

We offer lower cost-sharing when you choose to purchase your prescription drugs at one of our Preferred Network Pharmacies. A listing of our Preferred Network Pharmacies is provided in our Coventry Health Care Provider/Pharmacy Directory and on our website at <http://PharmacyLocator.coventry-medicare.com>.

Non-Preferred Network Pharmacies

We have over 65,000 pharmacies in our network across the United States and the District of Columbia. That means you can have your covered prescription drugs filled at any network pharmacy in the area even if you are traveling for business or leisure. You can purchase your prescription drugs at any non-preferred network pharmacy, but the amount you pay for those prescription drugs will be slightly higher than if you purchased them at a Preferred Network Pharmacy. Please refer to your Coventry Health Care Provider/Pharmacy Directory for a complete list of our Non-Preferred Pharmacies or visit our searchable Pharmacy Directory on line at <http://PharmacyLocator.coventry-medicare.com>.

Limited Distribution of Some Drugs

Some drugs may be subject to limited distribution or restricted access. This means that a drug may only be available at certain pharmacies. These pharmacies dispense drugs that are restricted by the FDA to certain locations or that require special handling, provider coordination, or education on their use. (Note: This scenario should happen rarely.)

If you are having difficulty finding a network pharmacy to fill a medication that is limited to select pharmacies by the FDA, please contact Customer Service at the telephone numbers provided on the cover of this formulary.

Drugs Packaged to Provide an Extended Day Supply

Some drugs are packaged by the manufacturer to provide greater than a 30-day supply, such as medroxyprogesterone acetate injection. In these cases you may be responsible for paying multiple copayments for a single prescription when filling a packaged drug that would normally provide greater than a 30-day supply. For more information please call the toll-free Customer Service number located on the cover.

Early Refills

We have guidelines regarding refilling your prescription too early. These guidelines are designed for your safety and to minimize the excessive use, waste and stockpiling of prescription medications. In general, the plan does not cover early refills. If you try to fill a prescription several days (for example more than 7

days early following a 30 day fill) too early your refill can be delayed because of your drug supply on hand. If you have filled a routine prescription a few days early each month you can accumulate an extra supply of your prescription. We track the prescriptions you fill routinely over a 6 month timeframe to determine if an excessive amount of the prescription is being accumulated. If accumulation occurs your prescription refill can be delayed. We delay the refill because we are concerned both with members unable to fill their medication but also in situations where the member has an excessive amount of their drug on hand based on how the physician wrote the prescription.

To avoid having a refill delayed, you may want to use these guidelines. Please note these are simply guidelines.

For a 30-day retail prescription, order a refill when you have no more than a seven (7)-day supply left.

For a 30-day mail order prescription, you may order the refill a few days earlier, to ensure you receive the refill before the medication on hand is used.

For a 90-day retail or mail order, request the refill when you have no more than a 14-day supply remaining.

The determination of whether your prescription is filled too early is based on a number of factors such as:

The original prescription from your doctor or other prescriber, including his/her instructions for dosage;

Refills you have purchased of the same prescription drug previously; and

How much of the prescription drug you still should have on-hand based on your previous refills and your doctor or other prescriber's instructions on dosage.

If you order a refill at a network pharmacy too soon, you will be asked to wait until the allowable refill date. If you order the refill through our mail order service too soon, the mail-order service may hold the refill until the allowable date.

If you are told that it is too soon to fill your prescription but are out of medication (or almost out of medication) because of a change in how your doctor or other prescriber told you to take the drug, you will need to have your doctor or other prescriber provide a new prescription with the new directions to your pharmacy.

What do I do if I need to get my prescription filled before I have used most of the supply I have at home because I am going on a trip?

If you are in need of filling a prescription early due to domestic travel, remember that this plan has network pharmacies in every state for your convenience. You can transfer your prescription, in compliance with state laws, to a network pharmacy when travelling domestically or you can present your prescription insurance card and a new prescription to the new pharmacy when you are due for your next fill. When planning for either domestic or international travel please make sure you take advantage of extended day supply options for drugs eligible for 90 day fills; this may provide you a supply of your drugs to last for your entire trip. However, if you are traveling to an international destination for an extended period of time and have exhausted other options including 90 day fills, please have your pharmacy contact our Customer Service for assistance. Please see page A-1 of this formulary on how to contact Customer Service.

Vaccines

Your prescription drug benefit covers vaccines for meningitis, shingles, diphtheria, tetanus and more. Some vaccines, like those for the flu and pneumonia, are covered by Medicare Part B. The cost for vaccines depends on where you have it administered.

For the best coverage, we recommend that you get vaccines at a network pharmacy, if your state allows it. The administration fee (the service cost that the healthcare professional charges for giving the vaccine) will likely be lower, so it could save you money. Please refer to your Evidence of Coverage for description on other coverage methods for vaccines and information on how these vaccines are paid for. If you don't see the vaccine you need listed in the drug list, call Customer Service at the telephone numbers provided on page A-1 of this formulary. They can see if the vaccine is covered and send you a reimbursement form if you need one.

Mail Order

We are pleased to offer Mail-Order services to all of our members. Our mail-order service, in general, is designed for those medications that members may take on an ongoing basis. It is a great way to purchase and receive your medications. You can obtain up to a 90-day supply of those drugs identified on the formulary drug list with a "90D" through mail order.

Please note that the actual quantity and/or days' supply may vary for each prescription. Your doctor or other prescriber's instructions on how to take the medication, state and federal dispensing guidelines, or how the medication is packaged may impact the quantity and/or days' supply you can receive. When switching from your local pharmacy to mail order, please make sure you have an adequate supply of your prescriptions on hand prior to sending your next fill request to the mail order pharmacy.

What is the timeframe for Mail-Order?

First-time orders will usually be delivered within 8 to 11 days after your order is received. Refills usually arrive in less time. Refills ordered online are usually delivered within 5 to 8 days after your order is received. New and renewal prescriptions faxed from your doctor or other prescriber will usually be delivered in 5 to 8 days.

How are medications shipped?

Most medications are shipped via the U.S. Postal Service at no cost to you. Medications containing certain controlled substances are shipped United Parcel Service (UPS). If necessary, you can request express shipping for an additional fee.

What if I need to speak with a pharmacist?

Our registered pharmacists are available 24 hours a day, seven days a week to answer any questions about your medications. Please call Customer Service at the telephone numbers listed on page A-1 of this formulary.

How much do I pay for mail order?

The amount you pay for covered drugs through our mail order service may be lower than if you purchase them at a network pharmacy. Please refer to Chapter 6, "What you pay for your Part D prescription drugs" in your Evidence of Coverage for your cost-shares for drugs purchased through Mail Order.

Cancelling your order

Should you wish to cancel your order, you must call Customer Service immediately at the toll-free numbers shown on the back of your Member ID card. You can only cancel an order before your medication is dispensed. If you do not call and request to cancel your order, your medication will be shipped to you and you will be charged the applicable co-payment/coinsurance. Please also note that medications properly dispensed and shipped cannot be returned to the mail-order pharmacy for a refund.

or credit, unless the shipment was due to our error. This policy is based in part on federal and state laws regarding the proper dispensing of prescription medications.

For additional information about our mail order cancellation policy, please contact Customer Service at the telephone number on the back of your member ID card.

Can I return my medication for a refund or credit?

Medications properly dispensed and shipped cannot be returned for a refund or credit unless the shipment was due to our error. This policy is based in part on federal and state laws regarding the proper dispensing of prescription medications. Exceptions are granted when the plan has made an error. In those cases, we may request that you return the medication to us (we will pay for the shipping), so we can properly dispose of the medication and refund or credit you for the charge that you have incurred.

What should I do with my expired or unused medication?

Please contact Customer Service for general instructions on how to dispose of your expired or unused medication.

Working with your doctor or other prescriber

If we receive a prescription directly from your doctor or other prescriber, we will work with your doctor or other prescriber to fill your prescription. In some cases, we may contact your doctor or other prescriber if we have questions about your prescription before it is filled and shipped to you. To ensure that you are properly informed of any changes to your prescription that your doctor or other prescriber may make, we ask that you contact your doctor or other prescriber before your prescription is filled and shipped to you to learn if there were any changes to your prescription that you may not agree with. If your medication has been shipped, we will not be able to accept it if you return it to us. We cannot accept the return of properly dispensed prescription medications for credit or refund.

Generic Substitution

If your doctor or other prescriber writes a prescription for a brand drug, we may substitute it for a generic drug where appropriate and in compliance with state law. For example, if your doctor or other prescriber writes a prescription for a brand drug (and a generic equivalent is available) but did not indicate "dispense as written," or "brand only," we may dispense the generic equivalent drug instead, if permitted to do so. Please also refer to Chapter 5, "Using the plan's coverage for your Part D prescription drugs, Section 4.2, "What kinds of restrictions?" in your Evidence of Coverage for additional information.

Payment Options Available

You can pay by credit card, personal check, electronic funds transfer, or money order. Please do not send cash. If you would like to pay by credit card, there are two methods of setting up your account using a credit card:

One Time Use – If your order is over \$100.00 and you did not include your payment with your order, the Mail Order pharmacy will contact you by telephone and request your payment before your order is shipped. If you choose to use a credit card, the credit card will be used for this payment only, unless you have given us permission to bill future orders to your credit card.

Auto Bill – Under this option, all medication orders under \$350.00 will be automatically charged to your credit card before they are shipped to you if you are set up for automatic refills. The Mail Order pharmacy will contact you and request your approval for orders over \$350.00. Please note that shipment will be delayed until the Mail Order service has received your approval for the payment of your order.

Handling of mail order claims that are close to the end of the benefit year

Unless you have notified us otherwise, mail order requests received towards the end of the benefit year will be processed for the current benefit year and your TrOOP and drug spend amounts will be applied to your current benefit year. If you would like us to process your request for the upcoming benefit year, instead of the current benefit year, you must notify us in writing of your request and we will place your prescription on hold for a future date not greater than 90 days from the date of your request.

My Online Services

My Online Services is a secure web-based tool with features that allow you to view, track and store personal health information. Through *My Online Services*, you may find a pharmacy near you, track your current medications and prescription history, track your claims and authorizations, access your health benefit information, research clinical and health-related information, request an ID card, update your address and more.

To register for *My Online Services*, you must be an enrolled member and the registration process is easy. Go to www.coventry-medicare.com and click on *My Online Services* located at the top of the screen. You will need your member ID number (found on the back of your card), your zip code, your date of birth and your e-mail address.

Are you wondering why our network pharmacies automatically give you the generic version of a brand drug?

Here is the answer!

The Food and Drug Administration (FDA) makes sure that all generic drugs are safe and effective. Every generic drug is put through a rigorous, multi-step approval process by the FDA. From quality and performance to manufacturing and labeling, everything must meet FDA's high standards. The FDA makes it tough to become a generic drug in America, so you can rest assured that generics are safe, effective and a lower cost option to brand name drugs.

If you are currently taking brand name drugs, talk to your doctor or other prescriber to see if there are generic equivalents available for you. Not only will you find they are safe and just as effective as brand drugs, but your cost-shares will be much lower.

Visit www.fda.gov/cder or call 1-888-INFO-FDA (463-6332) to learn more.
