Dear Business Owner,

Incredible academic environments like the #1 rated educational system in Maryland, don't happen by accident. Behind the scenes, teams of professionals like the Maryland State Child Care Association (MSCCA) members, are making sure our children are ready for Kindergarten. They do this by providing the best early care and education programs, teachers and opportunities available. We are fortunate to live in a community with a diverse group of generous community and business partners, like you, make our mission possible.

The MSCCA is a local community nonprofit dedicated to ensuring our Maryland licensed child care and early learning centers have the support they need to maintain the highest standards. **We encourage our members to strive for excellence, but some of our best programs, teachers and caregivers lack the resources to attain their goals.**

That is why we are proud to announce **The Jennifer Nizer "Passion for Excellence Award"**, a grants program to assist dedicated, passionate child care professionals with expenses for a variety of needs including but not limited to; certifications, accreditation and higher education requirements. MSCCA will be awarding these grants at its Annual Conference by the Sea on April 29-May 1, 2016. MSCCA will be actively searching for deserving candidates throughout the state of Maryland.

MSCCA would like to build this educational/ resource fund and we are asking our business partners to step up. MSCCA will proudly display your business name on all documents related to the 2016 award promoting your contribution for donations exceeding \$200. All donors will be listed on our website and annual report.

Please add my name to your list of donors with my tax deductible donation: (EIN52-1398476)
