

PATIENTS:

- 1. ALWAYS KEEP THIS FORM WITH YOU.** You may want to fold it and keep it in your wallet.
- Clearly record ALL of the medications you are currently taking. This includes:
 - Medications prescribed by your doctor(s)
 - Medications that you buy over-the-counter (Examples: aspirin, antacids)
 - Herbals (Examples: ginseng, St. Johns Wort)
- Take this form to ALL doctor visits, ALL medical testing (MRI, CT, stress tests, etc), ALL pre-assessment visits for surgery, and ALL hospital visits (ER, in-patient admission, out-patient visits).
- Update this form as changes are made to your medications. If a medication is stopped, draw a line through it and record the date it was stopped. If help is needed, ask your doctor, nurse, pharmacist, or family member to help you fill out this form and keep it updated.

- Record the name of your doctor who prescribed each medication. Also, add the reason for taking the medication (Examples: high blood pressure, high blood sugar, high cholesterol)
- Tell your family, friends and neighbors about the benefits of using this form.

HOW DOES THIS FORM HELP YOU?

Benefits of using this form:

- 1. Reduces confusion and saves time.** You do not have to remember all the medications you are taking. The form does this for you. It saves you and each medical office time.
- 2. Improves communication.** It provides doctors, health care providers and hospitals/clinics with a current list of all of your medications. It also lets the patient and/or family member know exactly what medications are to be taken and when.
- 3. Improves MEDICATION SAFETY.** It helps to detect and correct medication or food interactions and duplications.
