## Questions and City of Milton Answers

1. Do you guys do tire repairs? I noticed that was not on the list, and do you want a price for plugging or patching tires.

**No tire repairs. They have to be replaced.**

2. A lot of the repairs are specific to the particular vehicles and you have several different vehicles in your fleet. Do you want individual pricing for each year and model for the, control arms, struts, fan motors and fuel rails?

**Price per type vehicle listed in bid document.**

3. You guys will fall under government pricing for tires. We have the ability to get the tires that you need but Milton will have to issue the PO and we will inventory them for you, and I can facilitate everything with the tire distributor for you. I am not sure how you are purchasing them now but I was making sure Milton was willing to do that.

**We are purchasing under government pricing now and are not required to inventory.**

4. We have the ability to pick up and deliver vehicles. Does that help you guys at all if we offer that to you?

**Pick-up and delivery is only helpful on spare cars. This service is not required**
