Dear AGS Publishing,

I wanted to thank you again for the wonderful opportunity to attend the ASHA Schools conference this summer. Although I have attended the National ASHA conference many times, I have never been able to attend the Schools Conference. I would not have been able to attend this year, had it not been for your award scholarship.

My experience at the conference was wonderful. I was pleased that all the sessions I attended were so relevant to working in the schools. The speakers were all so engaging-they were very knowledgeable, and were able to provide real life suggestions I could immediately apply in my work.

It was also nice to be around other speech-language pathologists who work in public schools to bounce ideas off them, and find out what works for them in their practice. Being able to interact with professionals who knew where I was coming from was one of the best "take aways" I got from the conference.

Overall, I felt the quality of speakers, the relevancy of topics, and the opportunity to interact with colleagues from similar areas of the field made the ASHA Schools Conference in Indianapolis a truly invaluable experience.

Thank you for your continued commitment to the SLP community!

Sincerely,

Anida J. Gonzales Levesque, MA, CCC-SLP

*Speech-Language Pathologist
Fairfax County Public Schools, Fairfax County, Virginia*
