A134.3.1 General

- A. ZipCONNECT[®] service is an intraLATA service that allows a subscriber with multiple locations which provide the same service to advertise one number for that service. The network routes calls to the subscriber location most appropriate for the calling party based on the geographic location of the caller. The ZipCONNECT[®] service subscriber may choose to route calls based upon wire center, block group, or zip code location of the caller.
- B. The ZipCONNECT[®] service subscriber who subscribes to Wire Center or Block Group Routing can also subscribe to any of the following routing options:

 - Routing based on the day of the week
 - Routing based on percent distribution

The Wire Center or Block Group Routing subscriber may subscribe to more than one routing option simultaneously. The Zip Code Routing subscriber can not subscribe to these routing options.

- D. The dedicated NXX of 203 (203-XXXX) is required for ZipCONNECT[®] service. To subscribe to or reserve a 203-XXXX number, see A34.2 of this Tariff.
- E. The ZipCONNECT[®] service number is the advertised number of the ZipCONNECT[®] service subscriber.
- F. If the ZipCONNECT[®] service subscriber needs the calling number of calls routed to subscriber locations in real time, the ZipCONNECT[®] service subscriber must subscribe to a compatible calling number identification service.
- G. A ZipCONNECT[®] service subscription is the routing information for one ZipCONNECT[®] service number. A subscription to ZipCONNECT[®] service is on a per LATA basis.

A134.3.2 Regulations

- B. Limitations and use of service as stated in Section A2. of this Tariff will apply.

To subscribe to a 203-XXXX number for ZipCONNECT[®] service, see A134.2 of this Tariff. Special numbers are furnished subject to the availability of numbers.
- D. Toll charges will apply if the ZipCONNECT[®] service subscriber's client is not located in the same local calling area as the subscriber; toll charges will be billed to the ZipCONNECT[®] service subscriber. Optional local calling plans will not apply.
- E. Local measured or message rate service charges, if applicable, will be collected from end users, subscribing to measured or message rate service, for calls to a ZipCONNECT[®] service number, as facilities permit. Local measured service subscribers will be charged the lowest rate band rate for any local call to the ZipCONNECT[®] service number.
