FEBRUARY 18-20, 2015

SHERATON DENVER DOWNTOWN HOTEL
DENVER, COLORADO

SYMPOSIUM INFORMATION

Increase your knowledge about the latest airport technical issues and trends by attending the 2015 Airport Consultants Council/American Association of Airport Executives Airport Planning, Design and Construction Symposium on February 18-20 in Denver, Colorado. The symposium is the preeminent technical event for obtaining the latest information and developments affecting the industry.

PROGRAM OVERVIEW

The symposium offers highly technical content for airport professionals of all disciplines and experience levels. Workshops include a balanced mix of presentations and interactive discussions between subject matter experts and participants on a broad range of topics. Technical tracks cover planning, terminal/landside, engineering/airside, and program management/construction management, as well as three mini-tracks featuring the latest on international trends, developments in airport finance and airport information technology. Sustainability and the latest in airport research will be incorporated into the program and designated through icons to help inform your session selections. Plenary sessions and a keynote luncheon will cover new trends and innovations that will impact airport professionals today and into the future. Session topics range from *Incorporating Climate Adaption into Airport Planning to Airport Mega Hubs and Advancements in Pavement*.

WHO SHOULD ATTEND

The symposium is geared toward airport professionals involved in planning, environmental issues, architecture, engineering, program and construction management, security, IT and airport operations. In 2014 more than 750 representatives from airports, consulting firms, construction companies, industry suppliers, airlines and government agencies attended. Along with providing comprehensive technical content, the symposium offers time to network and connect with other industry professionals.

SYMPOSIUM HIGHLIGHTS

- 25 Unique Technical Workshops with More Than 80 Technical Presentations
- "Open Mic" Sessions with FAA and TSA
- Networking Sessions for Thought-Provoking Discussions and Connections
- Keynote Talks and Plenary Sessions with Industry Leaders
- Young Professionals Program
- More Than 40 Exhibitors Demonstrating New Technology
