

THE JVS WOMEN TO WORK PROGRAM

Supporting, Encouraging & Empowering Women

Through individualized coaching, counseling and placement services, JVS helps women re-enter the workforce after significant life-changing events, such as financial need due to family job loss, divorce, or the death or disability of a spouse or partner.

The program serves women of all ages, educational levels and from all walks of life. After intensive assessment and testing, led by experienced JVS counselors, each woman begins to identify her interests, skills and aptitudes. Together, participants gain self-esteem, learn new skills, job search strategies and find employment to support themselves and their families.

This successful mix of education, peer support, resources and personal growth works. **85% of women who complete the program find employment or enroll in additional training or education.**

Your sponsorship of JVS Trade Secrets provides the principal support for this life-changing program.

Women to Work participants emerge with:

Increased self-confidence • Goal setting • Enhanced communication skills • A support system • Improved decision-making skills • Financial proficiency • Market-ready job search skills • An action plan for the future
