Overview of the Securitisation Option under the LGF

The COSME Guarantee for Securitisation will be provided to Financial Intermediaries in respect of the mezzanine tranche (the "Guaranteed Mezzanine Tranche") of eligible Securitised Portfolios consisting of at least 80% of SME debt finance transactions. The remainder of the transactions in the eligible Securitised Portfolio may include corporate loans with larger corporates.

The Guarantee may be provided for the mezzanine tranche of cash or synthetic securitisation operations.

The credit risk protection shall be provided through a Guarantee which shall be issued by EIF acting jointly with the European Commission for the benefit of a [specify relevant Beneficiary of the Guarantee]. ("the Beneficiary of the Guarantee") It shall cover the credit risk associated with the mezzanine tranche of the eligible Securitised Portfolio. For the purpose of alignment of interest, the Originator will have to retain a minimum exposure in accordance with Directive 2013/36/EU on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms (CRD IV) and Regulation (EU) No 575/2013 on prudential requirements for credit institutions and investment firms (CRR). As a reference, article 405 of CRR requires –as of the date of publication of this call- a minimum exposure 5% of the total nominal value of the Securitised Portfolio.

The Guarantee shall constitute a financial Guarantee and shall cover losses incurred by the Beneficiary of the Guarantee in respect of the Guaranteed Mezzanine Tranche.

Annex IV to the Open Call for Expression of Interest to select Originators under COSME Guarantee facility

The objective of the Guarantee is to support new SME financing. Therefore, Originators shall build up a portfolio of additional financing transactions to SMEs (the “Additional Portfolio”) of a volume to be determined in relation to the size of the Guarantee Mezzanine Tranche and in accordance with the COSME programme leverage objectives.

Complementarity with other financial instruments

Financial Instruments providing liquidity: The guarantees provided under the COSME LGF for securitisation will provide partial credit risk protection for a portfolio of SME debt finance transactions with the undertaking of creating a new portfolio of Intermediary Transactions (the Additional Portfolio). If Originators deem it necessary and if available to them, e.g. through national or regional programmes or through other institutions, they may use liquidity financial instruments supported through other sources (e.g. supplementary EIB global loans which would bring the potential to gain access to cheaper funding and pass on a lower interest rate to SMEs through a reduction of the funding margin).
