Take Your Company to the Next Level

A Small Business Management Workshop Series

Session III - Show Me the Money

The finances of a business can be complicated (and even intimidating!) with break-even analysis reports, calculating business ratios and creating financial statements. It is these reports and a good understanding of where the money is coming from and where it is going to that lenders want to see. This seminar will assist you when your lender, accountant or attorney says "Show Me the Money!"
