* These kayaks take a Rhino Keyhole but a Standard Bigdeck.

Where you see Keyhole (Bigdeck), we recommend the Keyhole as the more secure fit but the Bigdeck will be easier to put on.

Special sizes - check with us first as we may need to get a template from the customer.

It is not possible to offer Rhino-style printing for special sizes but we can do a paint-on latex if reinforcement is wanted.

This chart is intended as a guide only, if a kayak is not listed then look for a similar cockpit site for comparison. As so many new boats come on the market all the time please feel free to add to the chart and advise us of any changes you feel should be made.
