OVERVIEW

Home Assessment Validation and Entry (HAVEN)

Home health agencies can transmit data using software available from CMS or software that conforms to CMS standard electronic record layout, edit specifications, and data dictionary, and that includes the required OASIS data set. HAVEN is software provided free from CMS for HHAs to use to submit their OASIS data. The software and installation instructions are available via the link below to the HAVEN software.

For information on submitting your OASIS information to the State, see the Home Health Care Agency System User's Guide below.

For questions about HAVEN, please call the HAVEN Help Desk at 1-877-201-4721 from 7:00 a.m. to 7:00 p.m. Central Time or send haven_help@ifmc.org (mailto:haven_help@ifmc.org).
