
Healthy Sacramento Coalition General Coalition Meeting

November 19, 2014

THE HEALTHY
SACRAMENTO
COALITION

SIERRA HEALTH
FOUNDATION

The Healthy Sacramento Coalition is made possible by funding from the Centers for Disease Control and Prevention and Sierra Health Foundation

An Overview of the HSC Approved Framework and Principles

Approved by Coalition October 2014

Framework

- Prioritize a targeted number of neighborhoods within 15 zip codes
 - Leverage existing work being done in the city/county within the targeted neighborhoods
 - Use the neighborhoods and the focus of the work to determine partners to engage
-

Principles

- Health Equity Lens
 - Youth and Resident Engagement
 - Social Determinants of Health Lens
 - Advance policy, systems, and environmental change
-

Definition of Social Determinants of Health

- Factors that contribute to a person's current state of health
 - These factors can be biological, socioeconomic, psychosocial, behavioral, or social in nature
-

Determinants of Health

- Determinants of health of a population:
 - Biology and genetics (sex and age)
 - Individual behavior (alcohol consumption and smoking)
 - Social environment (where a person lives)
 - Health services (access to quality health care and health insurance coverage or lack thereof)
-

Discussion of Neighborhood Selection and Criteria Recommendation

- Steering Committee developed a three-tiered selection criteria for choosing priority zip codes

Criteria Recommendation

1. Neighborhoods that are close to being “better”
(possibility of immediate impact by HSC)
 2. Neighborhoods that don’t have a lot of investment or attention *(HSC can provide assistance in building capacity)*
 3. Neighborhoods that have existing work - existing activity/ resource/ asset; health equity lens *(HSC can be supportive, but not have much impact).*
-

Priority Zip Codes for Consideration

1. Neighborhoods that are positioned for immediate impact
 - South Sacramento
 - Zip Code: 95822 – Land Park
 - Zip Code: 95828 – Florin
 - Zip Code: 95823 – Valley Hi
 2. Neighborhoods that currently do not have existing resources/activity
 - Zip Code: 95838 – Del Paso Heights
 - Zip Code: 95832 – Meadowview
-

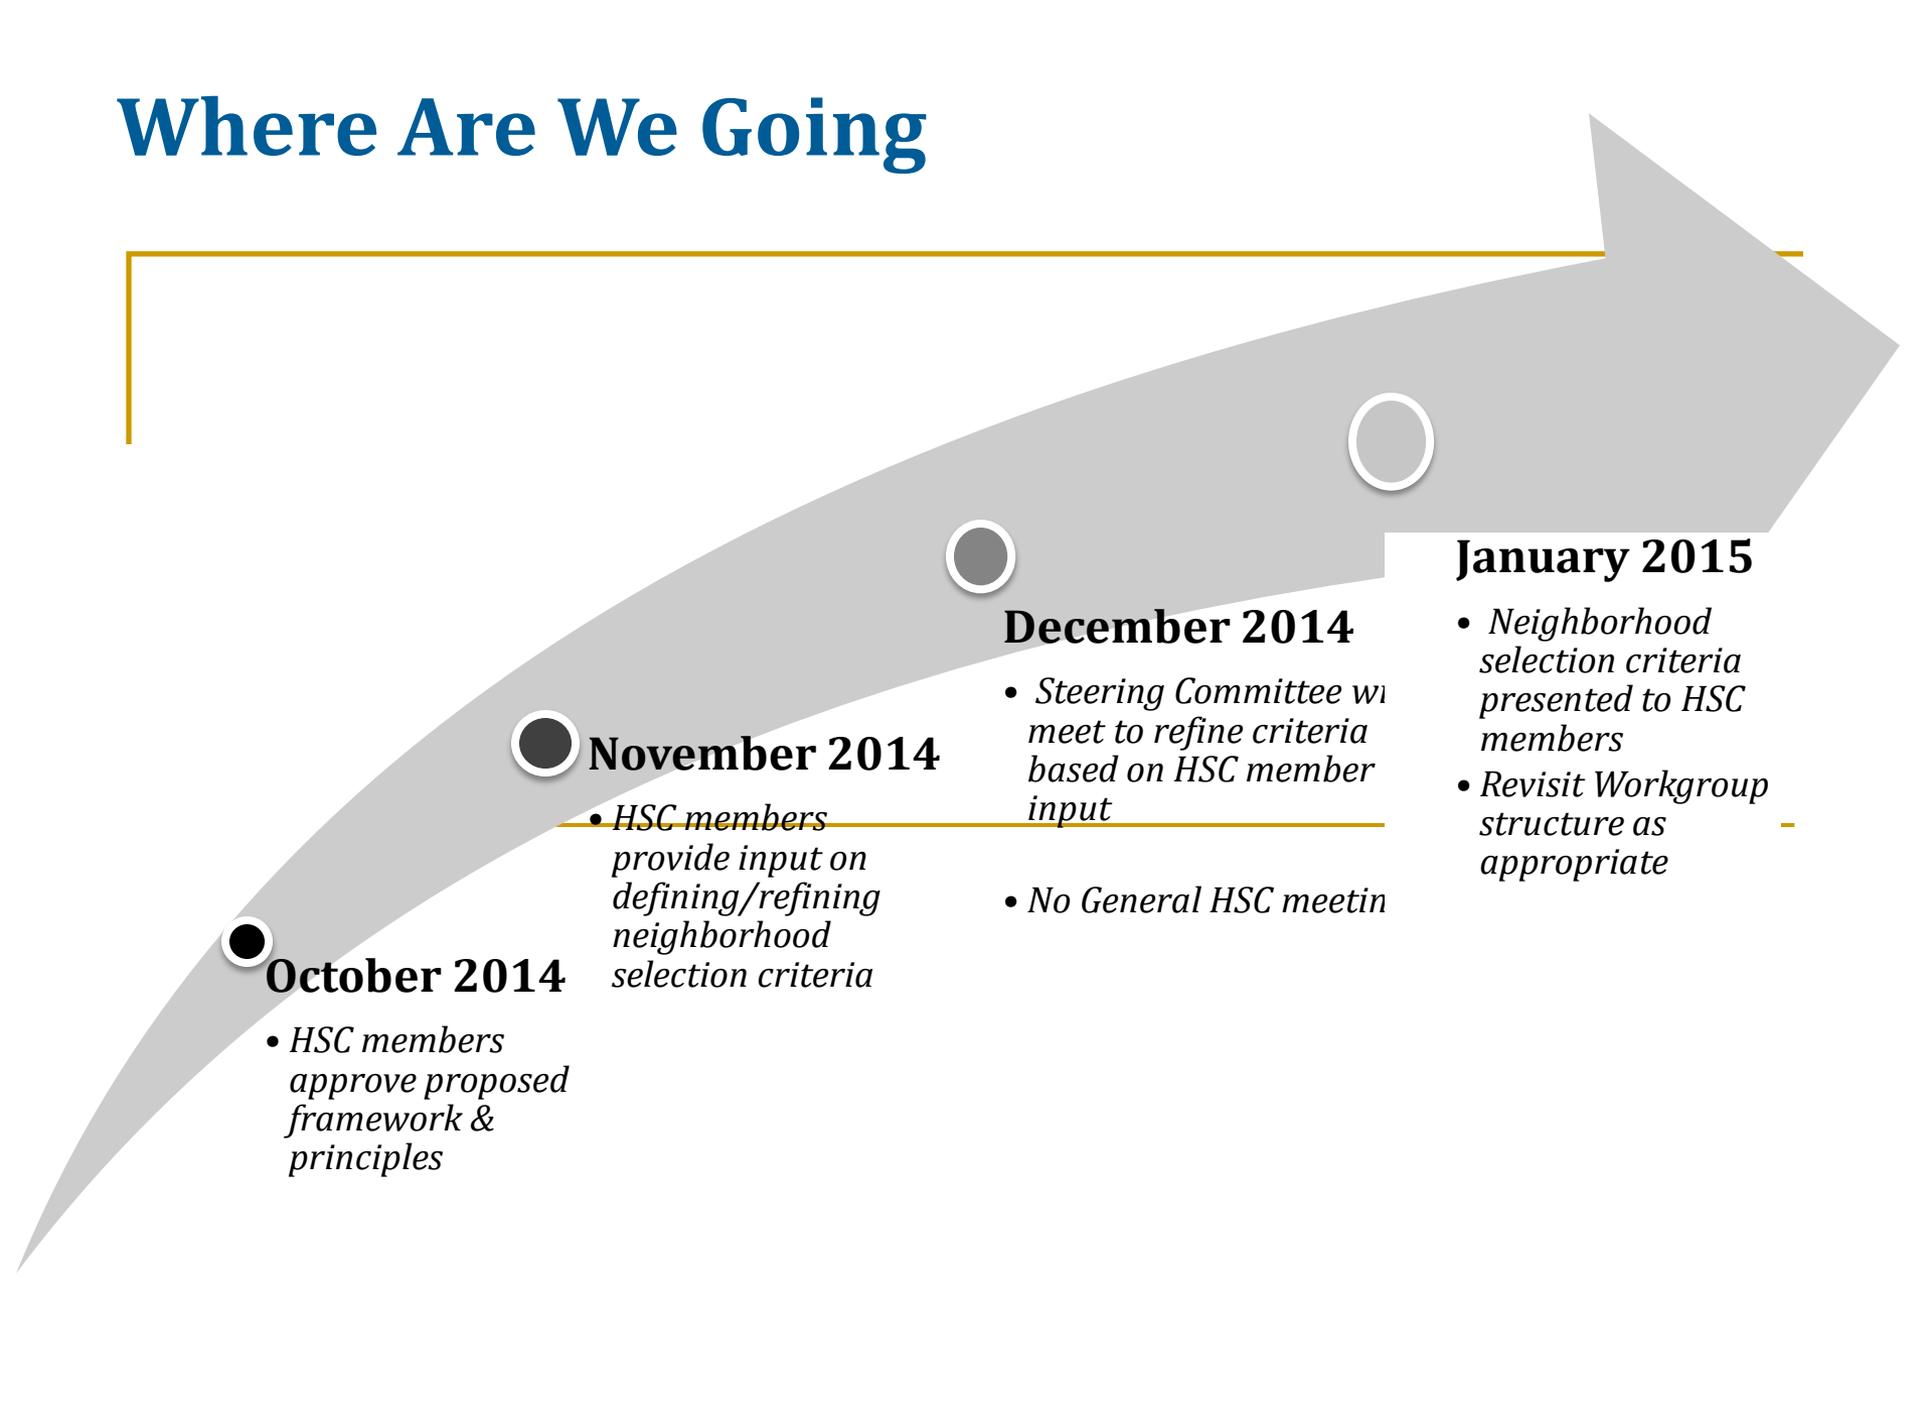

Neighborhood Selection Considerations

- Local government investments-policy maker platform, resources they give to communities
 - Potential for investment-readiness to utilize allocated funding (Cap & Trade \$\$\$)
 - A trusted organization in the neighborhood; established infrastructure
-

Neighborhood Selection Considerations Cont.

- Leveraging within the neighborhood
 - Financial/in kind support
 - Existing data sources (applying broad social determinants of health data, crime, transportation, education, asset poverty, etc.)
 - CBO's, Businesses, etc.
-

Where Are We Going

October 2014

- *HSC members approve proposed framework & principles*

November 2014

- *HSC members provide input on defining/refining neighborhood selection criteria*

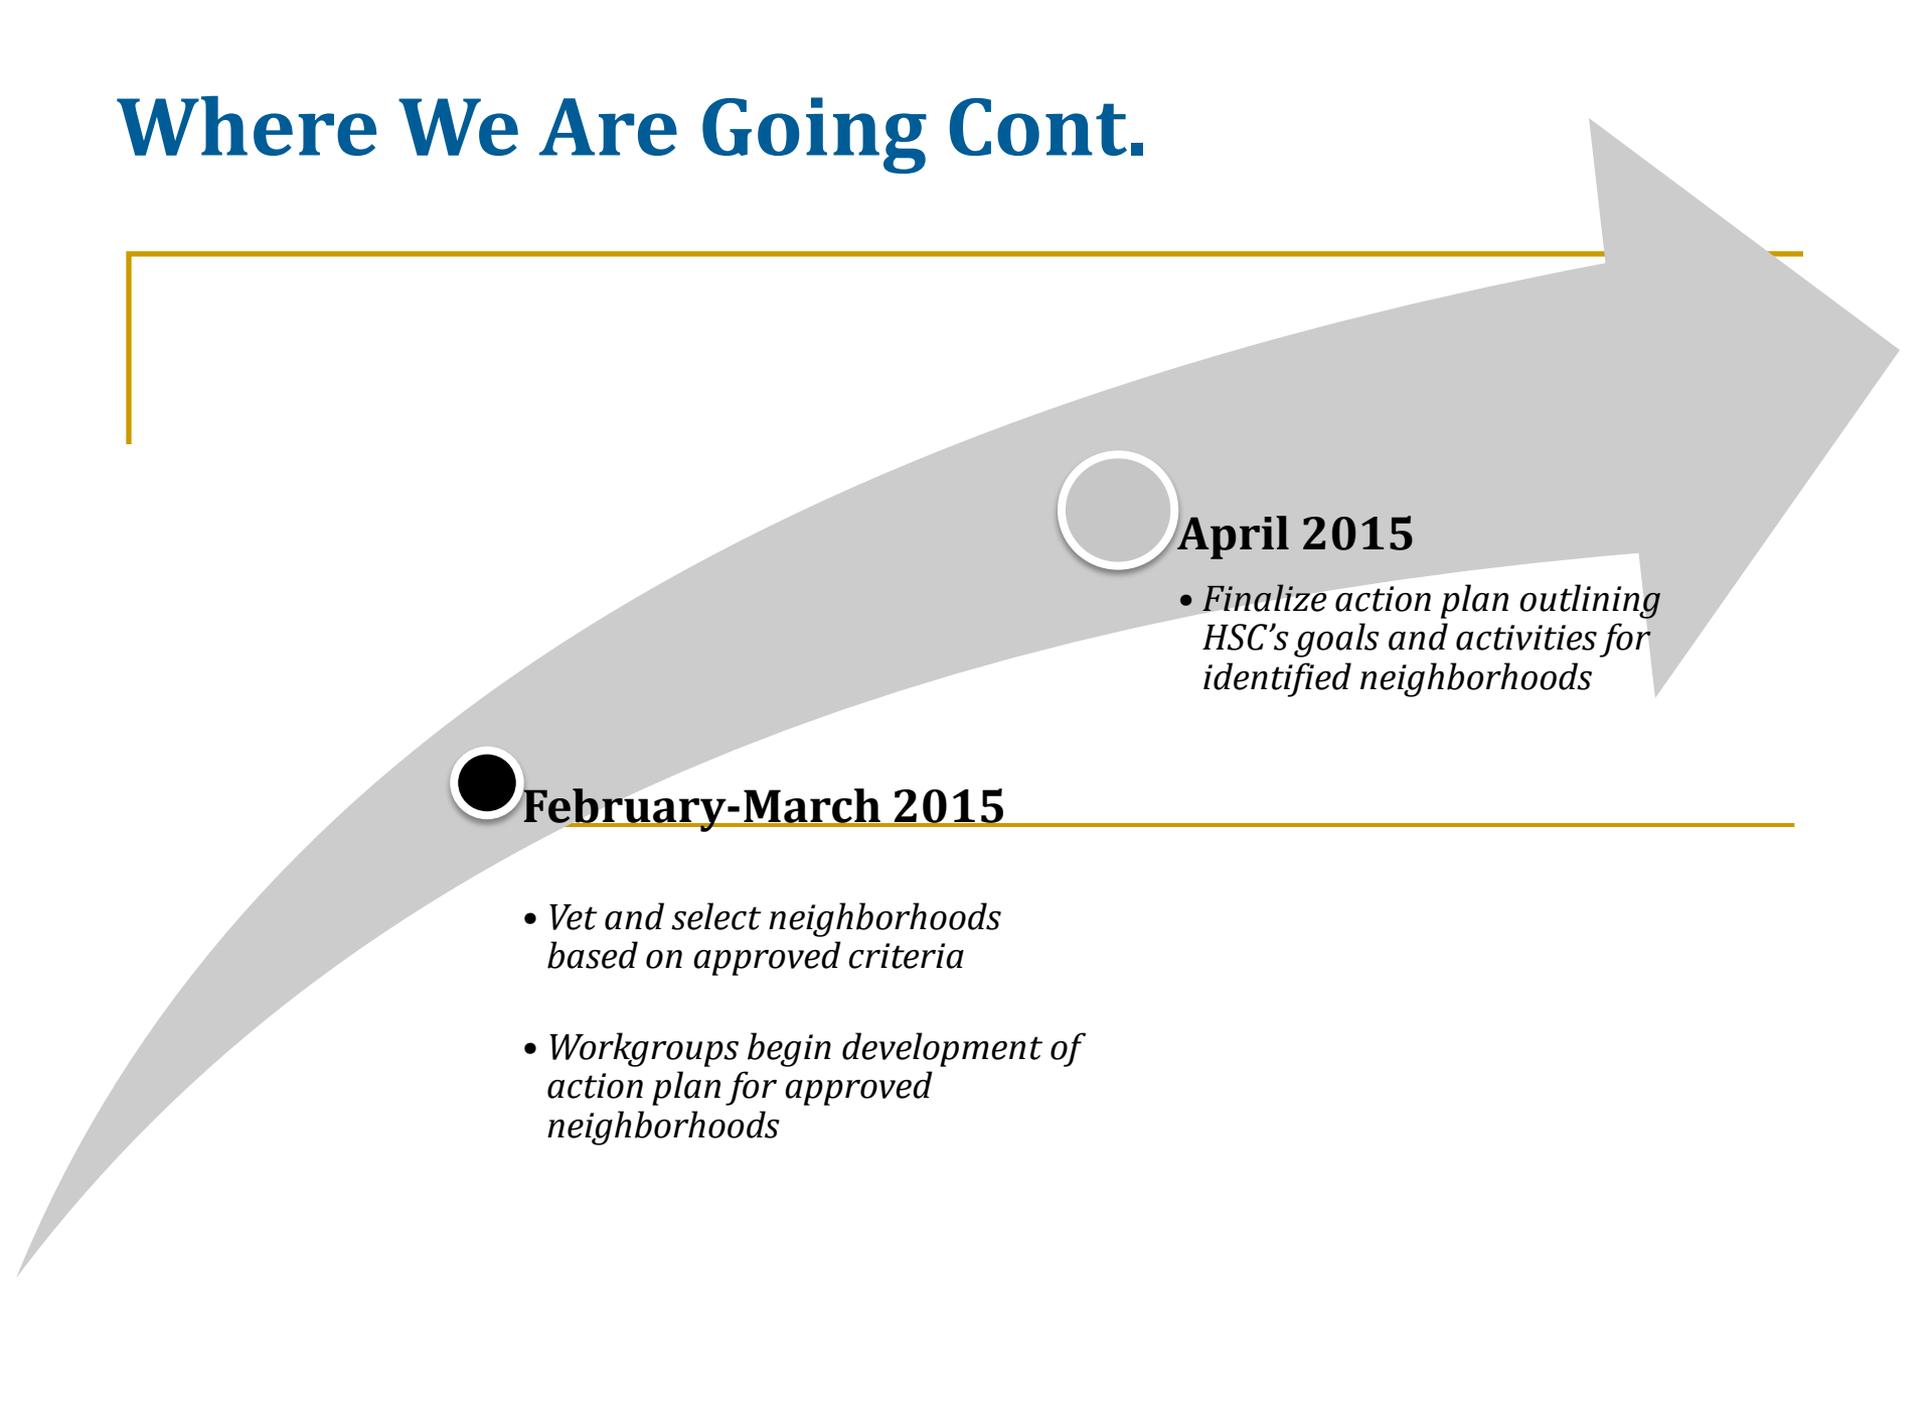

December 2014

- *Steering Committee will meet to refine criteria based on HSC member input*
- *No General HSC meeting*

January 2015

- *Neighborhood selection criteria presented to HSC members*
- *Revisit Workgroup structure as appropriate*

Where We Are Going Cont.

February-March 2015

- *Vet and select neighborhoods based on approved criteria*
- *Workgroups begin development of action plan for approved neighborhoods*

April 2015

- *Finalize action plan outlining HSC's goals and activities for identified neighborhoods*
