

Date: \_\_\_\_\_

Dear Dr. \_\_\_\_\_,

I am applying to become a fellow of the Society for Cardiovascular Computed Tomography (FSCCT). One of the requirements for fellowship is to submit two (2) references on my behalf. One of these references must be from a current FSCCT physician or an FSCCT eligible physician.

The definition of FSCCT eligible for this purpose is as follows: 1) A member in good standing of the SCCT. 2) At least three (3) years experience in CCTA and removed from formal training for three (3) years or more. 3) Case experience in CCTA equaling that of level III clinical competence (i.e  $\geq 300$  CCTA cases performed and interpreted). 3) Have presented at least five (5) lectures at CME-accredited conferences outside of the home institution and/or authored or co-authored at least one (1) peer-reviewed research article or have demonstrated significant service contributions to SCCT.

If you feel that you meet the criteria for FSCCT eligible or if you are an FSCCT physician yourself, I would be most appreciative if you would consider writing a reference letter on my behalf. If you are FSCCT eligible but not yet an FSCCT physician yourself, a CV must accompany your reference letter.

Thank you kindly for your consideration and for your time.
