SECTION 6: MARKET VALUE OF YOUR HEAVY EQUIPMENT INVENTORY

State the market value of your net heavy equipment inventory for the current tax year, as computed under Tax Code §23.1241. Market value on January 1 is total annual sales (less fleet transactions, dealer sales, and subsequent sales) for the previous 12-month period corresponding to the prior tax year divided by 12. If you were not in business for the entire 12-month period, report the number of months you were in business and the total number of sales for those months; the chief appraiser will estimate your inventory's market value.

Total annual sales includes the sales price for each sale of heavy equipment inventory in a 12-month period PLUS lease and rental payment(s) received for each lease or rental in that 12-month period. This will be the same amount as the net heavy equipment inventory transaction amount (see Section 5, the first box in Part II) and divide by 12 to yield your market value for this tax year. If you were not in business for the entire preceding year, the chief appraiser will estimate your inventory's market value.
