# COMMUNICATIONS CLASS PROJECT BENEFITS LOCAL ELEMENTARY

They call themselves the “Fantastic Four” and they are superheroes for the children at Lookingglass Elementary School in Winston.

The group of four first-year UCC students met in Paula Usrey’s communications class last spring. The class was asked to break into small groups and complete a community service project. Kelsey Warren, Jamie Glen, Danny Medak, and Theresa Barry formed a group and set out to accomplish what they expected to be a modest project, one that would fulfill the class requirements.

“We decided we wanted to buy new roller skates for the kids at Lookingglass school,” explained Glen. “The school has skating in the gym once a month and there weren’t enough skates for all the kids who wanted to participate. We thought if we raised \$500 we could get enough skates for all the kids.”

With that goal in mind, the Fantastic Four planned a fundraising raffle and event at Loggers Tap House in Roseburg. Loggers agreed to donate half of their food proceeds from the night to the Fantastic Four’s cause and several people donated items for the raffle. In addition, the Josh Bidwell Foundation heard about the fundraiser and offered to pay for anything the group needed to replace all the skates at Lookingglass school.

In total, the group raised \$2,130 in cash and the Josh Bidwell Foundation pledged to fill in any gaps the group needed to buy 165 pairs of brand new skates. The group was overwhelmed by the response.

*The “Fantastic Four” communications students.*

“We learned how giving this community can be and how to work collaboratively as a group,” said Warren.

Added Barry, “We also made friends and now we all hang out together.”

At least one group member, Jamie Glen, is reconsidering her future because of the success of their fundraising project.

“I think I figured out what I want to do,” she said. “I think I want to be a fundraising coordinator for a non-profit.”

# HEALTH, NURSING, and SCIENCE CENTER

For nearly 50 years, Umpqua Community College has produced some of the best nurses in the state. They are well-prepared, compassionate, motivated professionals that shine in their field. UCC's nursing facilities were built in 1971. The spaces were never meant to accommodate the demands of training modern nurses. While we still produce the best in the state, we need to provide them a training center worthy of their accomplishments.

*We are seeking to raise \$8.5 million for a state-of-the-art, dedicated space for our health and science programs.*

This money will be combined with \$8.5 million already pledged by the state to create a 36,000-square-foot Health, Nursing, and Science Center that would provide the ideal training grounds for registered nurses, practical nurses, dental assistants, emergency medical technicians, and scientists.

## *The Health, Nursing, and Science Center will include:*

- Nursing Skills Lab
- Dental Lab
- Chemistry and Biology Labs
- Geology and Physics Labs
- Anatomy and Physiology Lab
- Classrooms
- Faculty Offices
- Conference and Work Rooms

## *It will be home to the following programs:*

- Registering Nursing
- Practical Nursing
- Emergency Medical Technician (EMT)
- Dental Assisting
- Sciences
  - Biology
  - Chemistry
  - Geology
  - Physics

*"Technology has changed and nursing has changed. We have an obligation to provide the best possible training we can to ensure quality of life for the citizens of Douglas County."*

*Joe Olson, UCC President*

According to the Oregon Employment Department's 2013 Job Vacancy Survey, the health care and social assistance industry accounts for one out of every four job vacancies in Southwest Oregon. Overall, more than 1300 new and replacement jobs in the health care arena will be needed in Douglas County by 2020.

*Training the health care and science professionals of tomorrow begins today.*

*Make your donation to Umpqua Community College's campaign.*

# UCC HONORS LONG-TIME SUPPORTERS WITH BUILDING RENAMING

*Umpqua Community College hosted three renaming ceremonies in June to honor the contributions of longtime college supporters.*

On Wednesday, June 4, the college renamed the Campus Center Building in honor of LaVerne Murphy, who helped organize the college in 1964 and served on the budget committee until 2011. Murphy was the recipient of a number of service awards throughout his life, including his designation as the King of Sutherlin at the city's 150th anniversary celebration. Murphy passed away in 2011 at the age of 96. The LaVerne D. Murphy Center for Student Development is home to such campus services as financial aid, student life, counseling, and human resources.

On June 9, the college renamed the fitness center in honor of Tom Keel, a lifelong fitness enthusiast who served on the UCC board from 1975-2011. Keel is the longest-serving community college trustee in Oregon history. Keel is a regular visitor to the campus fitness center, which will now be known as the Tom Keel Center for Physical Fitness.

On June 10, the college renamed the Administration Building in honor of Del Blanchard, who served 32 years on UCC's board. Blanchard served 20 years in the US Navy and Ready Reserves, and founded Oregon Metalcraft in Myrtle Creek. The Del Blanchard Welcome Center serves as the starting point for all new students and includes such functions as admissions and registration.

*Upper left: the family of LaVerne Murphy. Middle: Tom Keel (center), with son and daughter to his right. Lower left: Board member Betty Tamm, Del and Evelyn Blanchard, and Roxanne Kelly, Vice President of Instruction.*

## EXAM NOTE

Day classes that begin at times other than those listed, or when the first weekly class session is on Wednesday, Thursday or Friday — the instructor will arrange for a final exam time that is open for all of the students in the class. Exams will be held in regular classrooms.

All examinations are to be given as scheduled. Only in emergency situations will student requests be granted for times

This class is your roadmap to creating documents. Write a letter, report, or list. Focus is on the basics: open a new document, fix spelling errors, change spacing and page margins, copy, cut and paste, save your work and find it later! What are all those tabs and buttons on the menu bar? Hands-on and casually paced. Students should have already completed "Introduction to Computers for Absolute Beginners". Early registration is encouraged for this popular class. Instructor: Janice Parker. No class 11/11. \$69

All part-time and full-time students also receive a yearly parking permit. Designated parking spots for students are marked by yellow lines, curbs and signs. All white marked lines and curbs are regarded as open parking. These spots are available to everyone. There are 14 parking spots clearly designated for the college Motor Pool and are off limits to general parking. Red zones are usually fire related areas and are considered restricted lanes; no parking is allowed at any time.

**Visitor Parking —**  
Visitor parking is clearly divided into two separate areas. One area is 30-minute visitor only and the other is Visitor Day parking only. All areas are designated by purple curbs, lines, and signs. The 30-minute only is for non-student activities and is strictly enforced. The Visitor Day parking is for specific day use only. Permits are available at the front desk of the Administrative Building or in advance through the UCC Security Department.

**Disabled Person Parking —**  
Special stickers are required for parking in clearly marked Disabled Parking spaces. These stickers are issued at the Oregon Division of Motor Vehicles.

# HEALTH, NURSING, and SCIENCE CENTER

*We are seeking to raise \$8.5 million for a state-of-the-art, dedicated space for our health and science programs.*

This money will be combined with \$8.5 million already pledged by the state to create a 36,000-square-foot Health, Nursing, and Science Center. The center will provide the ideal training grounds for the following programs:

- Registering Nursing
- Practical Nursing
- Emergency Medical Technician (EMT)
- Dental Assisting
- Sciences
  - Biology
  - Chemistry
  - Geology

*The Health, Nursing, and Science Center will include:*

- Nursing Skills Lab
- Dental Lab
- Chemistry and Biology Labs
- Geology and Physics Labs
- Anatomy and Physiology Lab
- Classrooms
- Faculty Offices
- Conference and Work Rooms

This is our final opportunity to utilize the state's matching funds. If we are unsuccessful in this fund drive, the matching funds will be reallocated to another part of the state. If we are successful, the jobs associated with the building construction would bring a needed boost to our local economy.
