*In 2010, the Virginia Star Quality Initiative began piloting a quality rating and improvement system specifically designed for Family Child Care Home providers. While these ratings aren't currently being published, parents can be confident that these family child care home providers are continuously working to improve their quality of care.

In Summer 2015, Virginia's Quality Rating and Improvement System stopped awarding star ratings. We are transitioning to a new continuous quality improvement level system. Previously awarded star ratings will continue to be valid until their expiration date.

This list of rated program is valid as of September 1, 2015. For the latest updates, please email vsqi@dss.virginia.gov.
