VS&T MEMORANDUM 40 99

Memo Title:	Medical Supplies to be held by Unit
Memo Number:	40 99
Version Number:	Revision 3
Date First Issued:	May 2015
Drafted/Reviewed By:	Hugh Barry
Approved By:	Gerard O'Flynn
Date Issued:	February 2015
Related documents:	IRCG Form 7a First Aid Supplies

Unit First Aid Equipment and procurement

Table 1 list the contents of the Station First Aid Kit. Tables 2 and 3 lists the items of First Aid equipment to be carried in bum bags and Back packs for all teams and functions. Table 3 lists the items that should be retained on Station. In addition, there is an Advanced Pack which is only to be accessed by the appropriately qualified personnel i.e. EMTs and above. Any Unit which does not have members with the appropriate qualification will not receive one of these packs.

Units will be allocated four bum bags for use by search teams, there will be an additional one for Cliff and for each boat. The equivalent of a bum bag will be supplied with all vehicles. Units should locally source small A7/6 notepads and pens if considered necessary. The backpack is the Unit's principal First Aid source and should be kept in a clean and dry environment. Each Unit should have a designated person to look after the Unit's First Aid supplies and be responsible for maintaining the allocated stock level. Requisitions for top-ups of equipment should be made using IRCG Form 7a.
