

## Science Fair Partner Permission Slip

The Science Fair project is a mandatory assignment for all Milkovich Middle School students. It is a huge part of their 3<sup>rd</sup> quarter grade. For this reason, parents need to give permission for their children to work with a partner on the project.

Parents will need to give project partners time outside of school, at a home or at a mutual location, to work together. They should be able to work on the project together at least once every week or two, depending on how much gets accomplished at each work session.

Project partners must to have the same Science teacher.

Parents of project partners are encouraged to communicate with one another about the project and to work out time/location details. Students will have to provide contact information with one another. The teacher is not permitted to give out that information.

The more communication there is between the parents about the student's progress, the more successful each work session and the project can be.

By **Jan. 30<sup>th</sup>**, please return the permission slip, drop me an email, or a voice mail, if you are allowing your child to work with a partner on this Science Fair.

Thank you,  
Mr. Weigand

-----

I give permission for \_\_\_\_\_  
to partner with \_\_\_\_\_ on the Science Fair  
project. I understand this will require the students to work  
outside of school on the project at my home, their home, or  
a mutual location on a regular basis.
