

Northeast Ohio Construction Safety Incentive Program

The Northeast Ohio Construction Safety Incentive Program (SIP) is a jointly administered labor and management program to reduce job related accidents in construction. SIP rewards workers that have accident free track records by making them eligible for randomly drawn monthly, quarterly, and annual prizes. Over 700 prizes are awarded annually, ranging from T-shirts and baseball caps as monthly prizes, \$250 checks as quarterly prizes, to a pickup truck as the annual grand prize. SIP covers seven counties, 3,000 employers, and 25,000 workers.
