**TO: MAYOR & COUNCIL**

**3. Date Prepared:** June 25, 2013

**THROUGH: CITY MANAGER**

**4. Requesting Department:** Fire Department

**5. SUBJECT:** Contract Award to Deutsch Architecture Group for Fire Station No. 1 relocation design

**6. RECOMMENDATION:** Staff recommends City Council award an architectural design and construction administration services contract to Deutsch Architecture Group for Fire Station No. 1 Relocation, Project No. FI0902-202, in an amount not to exceed \$183,462.

**7. BACKGROUND/DISCUSSION:** This contract is for updating the architectural design and for construction administration services for a new Fire Station No. 1 to be located at 1475 E. Pecos Road. The Fire Station No. 1 relocation project was the result of recommendations from the Fire Department Standards of Response Coverage study. As part of the study the Department expanded the scope of planning to include National Fire Protection Association's Standard 1710. This standard has changed the response parameters for the Department, resulting in a change of fire station locations. This proposal relocates the current Fire Station No. 1 and eliminates one of the planned growth fire stations that were projected for the southeast portion of the City. The existing station will be renovated to accommodate shop, office, storage, and laboratory space for the Transportation & Development and Neighborhood Resources Departments.

The original design drawings for the new Fire Station No. 1 were done by Deutsch Architecture Group in 2009. This set of drawings progressed through the permit review stage of the City's approval process. The permit was never issued because the project was stopped when grant funding was denied. Now that this project is scheduled for FY 13/14 in the CIP, the plans are required to be updated to the 2012 building codes and current civil requirements.

The contract amount exceeds the direct select amount provided for in the City Administrative Regulations. The Administrative Regulations also provide for a waiver of that limitation if approved by the City Manager. Staff is certain that hiring the original designers will be more cost effective than having a new firm review the plans from scratch. The construction administration services portion of the work contained no increase in cost from the original 2009 proposal.

**8. EVALUATION:** Deutsch Architecture Group's familiarity with the design and the stakeholders is a key component in maintaining continuity in the design. Staff reviewed the scope of work, billing rates, and total fee for this project, compared them to historical costs, and determined they are reasonable.
