

**Cutting Instructions:**

1. **Cut along lines as needed.** [safety goggles not included]
2. **Slip paper behind the Lexan** window on an input of your choosing
3. **Align until it looks swell.**
4. The AUX list may require a slightly smaller trim depending on the paper weight used.
5. An Exacto blade or box knife may help with trim and placement. [Avoid such blades in airplane carry-on baggage.]
