

Event Profile

Since 2010, a number of finance professionals with a wide and varied involvement in Film Finance have come together as a non partisan group to develop the UK film industry's interest in using the Island as a jurisdiction of choice for their Film Finance needs and requirements.

During this time Guernsey Finance has been working alongside Guernsey Film to help promote its growth. This event is a short seminar to introduce the Group to the wider finance community on the Island with the aim of broadening the knowledge base of Guernsey Film's activities and its network.

If you are interested in understanding how Guernsey Film may present an opportunity within your specialist field then this event is for you.
