

## **2016 Annual IASA Scholarship Giving Program**

As you are aware, the insurance industry faces a talent gap that is growing every year. IASA recognizes that the future of the insurance industry is particularly dependent on attracting young talent to the many rewarding careers in insurance today. To assist in the educational development of these students, in 2009 IASA established the IASA Scholarship Program with a focus on supporting students at a sophomore level or above who are enrolled in a college with an insurance program or who are preparing to pursue a career in insurance. Scholarship winners should also be invested in a course of study that works toward a degree in Accounting, Finance, Information Technology, Actuarial Science, or Risk Management.

Last year 21 scholarships were awarded for a new record - totaling \$21,000. This year we hope to award more scholarships to top talented young professionals.

**Every dollar raised will directly go to support the expansion of the scholarship program.**

### **Donation levels include:**

Bronze - \$500

Silver - \$1,000

Gold - \$2,500

Each donation will be recognized at our IASA Annual Conference within each donation category.
