- VIII. Other Topics for Discussion**
- IX. Next Meeting – November 14, 9 a.m., Lake County Central Permit Facility**
- X. Adjourn**

**\*\*\*PDHs are self-reporting. If you want to apply MAC meetings towards your professional license keep the agenda and minutes w/sign in sheets.**

**Meeting Minutes**  
**Municipal Advisory Committee Meeting**  
**Wednesday, July 11, 2012**  
**Lake County Division of Transportation, Libertyville, IL**

**I. Introductions**

Chairman Drabicki called the meeting to order at 9 a.m.

**II. Approval of Minutes – May 9, 2012. Minutes approved by consensus.**

**III. Additions to the Agenda – None.**

**IV. Interjurisdictional Programs, Projects and Grants Forum**

Rich Knodel, Lake Co. GIS, presented on the County's new 1' contour map layer and on the many uses for it. The layer will be available to the public in August on the County's GIS website. He also featured other geospatial data that is available on-line, including LiDAR data, and additional products and information that are available through the County's GIS website.

**V. NPDES Phase II**

Mike Novotney, SMC, mentioned that SMC's NPDES resources and webpage are being updated by an intern to provide more useful information and links for Lake County MS4s and that the updates will be presented at the September MAC meeting. Mike also mentioned that the Stormwater Management Program Plan (SMPP) template is being updated to provide additional guidance on several items contained in IEPA's latest ILR40 NPDES permit. Mike further mentioned that the development of concepts for a cooperative countywide IDDE program continues and that several ideas will be presented for discussion at the September meeting as well.

Susan Greenfield, Executive Director, Root-Pike Watershed Initiative Network (Root-Pike WIN), spoke about her organization, a multi-jurisdictional network established in the late 1990s in the Root-Pike River Watershed in Wisconsin to address water quality issues and facilitate dialogue and project implementation to improve the watershed. In practice, the Root-Pike Watershed does not include Illinois although the Root-Pike hydrologic unit code (HUC) extends down to include portions of the Lake Michigan Watershed in Illinois (including the Kellogg Creek, Dead River, and Waukegan River Watersheds). Root-Pike WIN is participating in the development of watershed plans for the watershed and has several active programs, including a greener yards/cleaner yards program and, on behalf of 17 SW Wisconsin MS4 communities, an advertising campaign aimed at changing public stormwater behavior. Funding for the advertisement campaign is being contributed by WI DNR and each community, who are contributing to the program based on their population.

July meeting presentations available

**VI. Ordinance Administrative Issues**

Kurt Woolford, SMC, announced the County Board's approval of 94 WDO amendments effective July 10<sup>th</sup> and talked about the next steps in the local adoption process. The amended WDO document will be distributed in a few weeks. Registration is underway for September enforcement officer workshops, and the August 1 DECI and August 7 native landscaping for stormwater workshops. Kurt thanked everyone for their comments and participation in the amendment process.

**VII. SMC/Community Working Relationship**

Patty Werner, SMC, announced the next North Branch Planning Committee meeting on Aug. 8<sup>th</sup> in Glenview, which is the group's annual meeting. The annual meeting and lunch will feature presentations on green infrastructure. She also announced the Bull Creek-Bull's Brook downspout disconnect pilot project recently launched in Libertyville with homeowners near Butler Lake. The countywide 319 grant application is close to being submitted to IEPA and includes 9

projects and two watershed planning efforts. Patty encouraged communities to seek out CMAP's Local Technical Assistance Program (LTAP) with applications due August 1<sup>st</sup>. LTAP provides assistance to communities across the Chicago metropolitan region to undertake planning projects that advance the principles of CMAP's regional GO TO 2040 plan.

Jeff Weiss, founder of the newly formed Buffalo Creek Clean Water Partnership, presented an overview of the bi-county group including how it was formed, its current and potential future funding sources, its partner agencies and volunteers, and its current and future projects. The group is now beginning to address outreach and funding challenges as it continues to grow. The group now boasts over 200 on its bi-county contact list since its inception 6 months ago. **VIII. Other Topics for Discussion – None.**

**IX.** Next meeting is September 12, 2012, 9 a.m., Lake County Central Permit Facility.

**X.** Meeting adjourned at 10:45 a.m.

# Kellogg Creek Stream Clean Up <sup>2nd Annual</sup>

Volunteers are Needed!

**Saturday, September 15, 2012**  
**9 a.m. - 12 noon**

## Where to meet:

Beulah Park playground at Kedron and Ezekiel. Park anywhere along Kedron.

**RSVP:** Darcy Hertel, 847-377-7707  
[dhertel@lakecountyil.gov](mailto:dhertel@lakecountyil.gov)

**For more information:**  
Andrea Cline, 847-377-7710

**Community service hours  
available for students!**

**Many thanks to our  
sponsors!**

We invite all local service groups, youth groups, and residents to participate and help clean up Kellogg Creek in Zion.

The clean up project is funded through a \$500 Illinois Environmental Protection Agency Streambank Cleanup and Lakeshore Enhancement grant.

The clean up area is approximately a mile long stretch from Ezra Avenue to Garnett Avenue. Volunteers will help to remove garbage and debris and remove dead trees and branches that are impeding flow, returning the area to a clean, natural habitat.

***Refreshments will be provided for volunteers!***
