

"A convenient collection of review articles . . . useful to students as a springboard for historical research."

—Sharon Kingsland, The Johns Hopkins University
BULLETIN OF THE HISTORY OF MEDICINE

Genetic Perspectives in Biology and Medicine

Edited by Edward D. Garber

An excellent and important addition to textbook lists for courses in:

- genetics
- history of science
- biochemistry
- evolution
- philosophy of science
- molecular biology

Documenting the dramatic developments in genetics during the last 25 years, this volume presents first-hand perspectives from the initiators of modern research and discovery. This collection of essays, originally published in ***Perspectives in Biology and Medicine***, includes contributions from such distinguished scientists as **Francis Crick, Bruce Wallace, E. L. Tatum, and Curt Stern**. Topics addressed include the history of genetics, human genetics, the work of fellow researchers, and the future of genetic research. Insightful overviews by the editor place the articles—dating from 1957 to 1985—into their proper historical context, making the book a vital addition to your research library.

Order Form

Genetic Perspectives in Biology and Medicine

- Yes I want the book that covers the most important developments in biology since Darwin . . . Please send me ___ copies of ***Genetic Perspectives in Biology and Medicine*** (Paper ISBN: 0-226-28216-3) at \$12.00 each.*
- Yes, please send me an examination copy of ***Genetic Perspectives in Biology and Medicine*** (Paper ISBN: 0-226-28216-3). I understand that I will be billed at a 10% academic discount, but that the charges will be cancelled upon notification that my campus bookstore has placed an order for ten or more copies. If I do not adopt the book for my course, I may return the examination copy for a full refund or purchase it for my personal library.

*Add sales tax: Chicago 8%; elsewhere in IL 7%. Outside the Western Hemisphere prices will be slightly higher. **Add \$1.50 for postage and handling.**

INTERNATIONAL SYMPOSIUM ON HEMOSTATIC IMPAIRMENT ASSOCIATED WITH VIRAL HEMORRHAGIC FEVERS

TO BE HELD IN FREDERICK, MARYLAND ON MAY 26, 1987,
SPONSORED BY THE UNITED STATES ARMY MEDICAL RESEARCH
INSTITUTE OF INFECTIOUS DISEASES. THIS SYMPOSIUM WILL
EMPHASIZE THE PATHOGENESIS AND POSSIBLE TREATMENTS FOR
THE DEFECTS IN HEMOSTASIS ASSOCIATED WITH VIRAL
HEMORRHAGIC FEVER. SINCE ATTENDANCE WILL BE LIMITED, THOSE
INTERESTED SHOULD CONTACT AS SOON AS POSSIBLE:
HEMOSTASIS CONFERENCE, MEDICAL DIVISION, USAMRIID,
FT. DETRICK, FREDERICK, MARYLAND 21701, U.S.A. PROCEEDINGS
WILL BE PUBLISHED.

**THE
AUSTRALIAN JOURNAL
OF
EXPERIMENTAL BIOLOGY
AND
MEDICAL SCIENCE**

The Australian Journal of Experimental Biology and Medical Science was the first journal of its kind in the world. Now in its 62nd year, the Journal is published bi-monthly, producing over 700 pages per year.

The articles cover original research in the fields of Biochemistry, Biology, Genetics, Immunology, Microbiology, Pathology, Parasitology, Pharmacology, Physiology and Virology as well as occasional specially invited articles. Each December edition carries a full index for the complete volume indexed by author and subject.

The Australian Journal of Experimental Biology and Medical Science is distributed to 55 countries, the United States of America being the largest subscriber.

Published by the University of Adelaide

Editor: D. Rowley Deputy Editors: I. Kotlarski and D. B. Frewin

One year subscription: \$80A or its equivalent in overseas currency.

Address correspondence regarding subscriptions to:

The Bursar, University of Adelaide,
ADELAIDE, SOUTH AUSTRALIA 5000
AUSTRALIA.

CBE Works for You

The Council of Biology Editors, Inc. serves writers, editors, and publishers in the biological sciences through its outstanding membership services and publications, including:

- *CBE Views*, a quarterly publication, keeping you informed of the latest developments in scientific communication and publishing
- publications providing valuable assistance for editors and writers, including the *CBE Style Manual*, the standard reference in the biological sciences
- an annual meeting stressing continuing education and networking among participants

Find out more about the Council of Biology Editors today!

**Medicine and the
Management of Living**
Taming the Last Great Beast
**William Ray Arney and
Bernard J. Bergen**

Arney and Bergen examine the structure and history of medical power, pondering the increasing role in medical discourse of the patient's own subjective experience of illness.

"Arney and Bergen have written a book which is far more imaginative and sweeping than anything I have read recently in the history or sociology of medicine. They take the critical study of medicine a major step further by venturing to probe medicine's most basic assumptions about the body, about death, and about the meaning of medical intervention." — Barbara Ehrenreich

Cloth \$19.95 214 pages Illus.

**Power and the
Profession of Obstetrics**

William Ray Arney

In this controversial work, Arney draws on the work of Michel Foucault as he analyzes the development of obstetrical power in the twentieth century. Arney suggests that philosophical changes are bringing the interests of women and obstetricians closer together, and he argues that both want, and are getting, a flexible system in which a woman's experience of pregnancy and childbirth can gain prominence against a backdrop of obstetrical expertise.

Paper \$10.95 (est.) 302 pages

The Discovery of Insulin
Michael Bliss

"Bliss's excellent account of the insulin story is a rare dissection of the anatomy of scientific discovery, and serves as a model of how rigorous historical method can correct the myths and legends sometimes perpetrated in the scientific literature." — Nicholas Wade, *The New Republic*

**Paper \$9.95 304 pages
36 b&w illustrations**

The Scientist's Role in Society
A Comparative Study
With a new Introduction
Joseph Ben-David

In this concise yet wide-ranging study, Ben-David explains the institutional character of science today through a discussion of the conditions which have shaped the emergence and development of the social role of the scientist.

Paper \$8.95 224 pages

5801 South Ellis Avenue, Chicago, IL 60637

Whether you're in practice or research, staying ahead can be as easy as 1, 2, 3

1. *The Journal of Infectious Diseases**

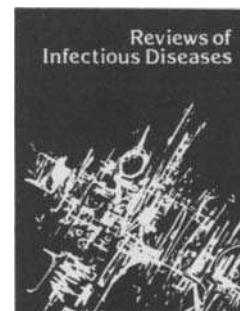

- *JID* brings you up-to-date coverage on the wide range of research that influences medical microbiology and your work, covering clinical investigations, experimental medicine, controlled trials, and research from microbiology, immunology, epidemiology, and related disciplines.
- *JID* gives you access to research as soon as it's available—with lead times of only 6-8 months on most articles, and 2-3 months on communications of unusual interest.
- *JID* provides exposure to the field beyond your usual focus. In addition to original research, *JID* presents concise laboratory and clinical communications, correspondence on items of unusual teaching, clinical, or scientific value, and summaries of workshops.

**JID* and *RID* are sponsored by the Infectious Diseases Society of America

2. *Reviews of Infectious Diseases**

- *RID* saves you the time of tracking information from several sources. *RID*'s coverage of the most recent literature in medical microbiology includes works on infectious organisms, the immune system and its diseases, and anti-microbial agents; on therapeutic advances; and on results of clinical investigations.
- *RID* makes your exposure to the field complete with review articles, ongoing examinations of work on urgent or timely problems, thematic studies, historical articles, articles on history, and case reports.

3. **Subscribe now.**

The Journal of Infectious Diseases is published monthly. Editor: Martha D. Yow

Reviews of Infectious Diseases is published bimonthly. Editor: Edward H. Kass

JID and *RID* are published by The University of Chicago Press.

Individual Rates

Combination *JID/RID* subscription: individuals \$105.00; institutions \$225.00; ASM & IAMS individual members \$90.00; students, interns, residents, and fellows (attach copy of ID) \$50.00. Outside USA add \$22.00.

Subscription rates for either *JID* or *RID* (be sure to indicate which journal you are ordering): individuals \$57.00; institutions \$125.00; ASM & IAMS individual members \$50.00; students, interns, residents, and fellows (attach copy of ID) \$30.00. Outside USA add \$12.00 for *JID* subscription; \$10.00 for *RID* subscription.

Visa or MasterCard accepted. Send charge card information, purchase order, or payment to The University of Chicago Press, Journals Division, P.O. Box 37005, Dept. SS7SA, Chicago, IL 60637.
