Questions:	

## Signs of Pest:

I Ded by we leave an all devices a the metters are an invalled and here a sure	الممصم بالمربمم الم
Bed bugs leave small dark spots on the mattresses or walls, and have a swe	at musty smell
j bod bugo louvo omali dant opoto on the matteodoo or wallo, and have a owo	schladty onnon.

Roaches are active at night; if you see them during daytime, that's a problem.

Ants & mice are attracted to crumbs.

Droppings, scratching noises, gnaw marks and holes in walls are signs of mice. Also, if you notice steel wool or traps around the apartment, that's a sign they have been spotted.

Safety

Fire Escape or Two Exits
Smoke Alarms
Fire Extinguisher
Carbon Monoxide Detectors
Sprinklers
Mold (Notice if there is a custy smell)
Lead Paint*

\*According to the Massachusetts State Lead Law, if you have children under 6 years old, it is illegal to live in apartments with lead paint. You cna expect to sign a Lead Law form as a part of your lease which will give you details on whether there is lead paint in your unit

If the apartment is a ground floor or lower level unit, are there secure bars/gates on the windows?

Yes / No

Are there locks on all doors?

Yes / No
