OSHA's New Confined Space Training for Construction

Enforcement begins October 2, 2015

DATE: Monday, September 21, 2015
TIME: 3:00 p.m. – 5:00 p.m.
PLACE: AGC NYS, LLC Safety Training Center
1115 East Main Street, Door # 7, 3rd Floor, Rochester
FEE: \$20 per person for AGC NYS Members;
Price includes handouts and a light snack
LEAD
TRAINER: Gordon DeLeys, OSHA Buffalo office

LIMITED to 22 Attendees. 1 per firm unless space is available.

OSHA's Subpart AA, confined space standard for construction, has finally arrived and there are numerous requirements that contractors must be aware of. There seems to be many questions regarding this standard and how and when it applies. Please join us for an informative program covering this topic.

AGC is pleased to announce that Gordon DeLeys from OSHA's Buffalo area office will be on hand to discuss this standard and answer any questions the industry may have regarding what is required when working in confined spaces in construction. Gordon is a seasoned Compliance Assistance Specialist and has proven to be a valuable resource for contractors that seek information regarding the applicability of OSHA standards in the construction industry.

Peter DeLucia from AAC Contracting in Rochester will accompany Gordon during this program and will cover the proper use of air monitoring equipment, retrieval systems, and ventilation apparatus. Pete will share with the class the importance of having the right equipment to do the job, as well as limitations that exist when using such equipment for confined space entry.

Do not miss out on this opportunity. Make sure to register your employees for this program before the class is full.
