Regina  
Session

### Who should attend?

- **All Wastewater Treatment and/or Wastewater Collection Operators not currently certified**

### The Course Offers

- **Preparation to write Saskatchewan Class 1 – Certification Exams for Wastewater Treatment & Collection**
- **Examination sessions provided on the 5<sup>th</sup> day**
- **Introduction – Legislation & Pollution Control**
- **Safety – Plant & Collection Works**
- **Basic Technical Skills**
- **Support Systems**
- **Administration**
- **Wastewater Treatment (Principles/Equipment)**
- **Wastewater Collection (Principles/Equipment)**

### Prerequisites:

Basic understanding of wastewater treatment and wastewater collection system principals, practices and terminology as well as basic mathematic skills.

### Course Leaders:

**Josh Buniak, Operation and Maintenance Technician**, Josh has 15 years of combined operational experience in the public works and mechanical technology fields. He provides multiple technical field services such as reservoir cleaning and inspection, uni-directional flushing, swabbing, maintenance repairs and condition assessments for ATAP's clients.

**Andrew Hickey, Water & Wastewater Technician**, is a skilled Technician and Certified Operator who is experienced in advanced level Water & Wastewater Treatment, Wastewater Collection and Water Distribution. He provides a variety of ATAP field services such as reservoir cleaning and inspection, jar testing, filter optimization, water main flushing, swabbing, maintenance repairs and condition assessments.

**Bertrand Gaudet, A.Sc.T. Process Specialist**, has over 30 years experience in industrial analytical laboratories, and is an experienced chemical engineering technologist. His main experiences in industry are the optimization of plant process and the assistance to operators in troubleshooting their operations.
