I. SUMMARY OF THE PROSPECTUSA. SUMMARY OF THE PROSPECTUS (IN THE ENGLISH LANGUAGE)

Summaries are made up of disclosure requirements known as "Elements". These elements are numbered in Sections A – E (A.1 – E.7).

This Summary contains all the Elements required to be included in a summary for this type of securities and Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of "not applicable".

Element	Section B – Issuer	
B.1	Legal and commercial name of the issuer.	The legal and commercial name of the Issuer is UBS AG ("Issuer", "UBS" or "Bank").
B.2	Domicile, legal form, legislation and country of incorporation of the issuer.	<p>UBS in its present form was created on 29 June 1998 by the merger of Union Bank of Switzerland (founded 1862) and Swiss Bank Corporation (founded 1872). UBS AG is entered in the Commercial Registers of Canton Zurich and Canton Basel-City. The registration number is CH-270.3.004.646-4.</p> <p>UBS AG is incorporated and domiciled in Switzerland and operates under the Swiss Code of Obligations and Swiss Federal Banking Law as an Aktiengesellschaft, a corporation that has issued shares of common stock to investors. The addresses of UBS AG's two registered offices and principal places of business are: Bahnhofstrasse 45, CH-8001 Zurich, Switzerland, and Aeschenvorstadt 1, CH-4051 Basel, Switzerland.</p>
B.4b	Trends.	<p><b>Trend Information</b></p> <p>As stated in the outlook statement presented in UBS AG's second quarter 2013 report, including unaudited consolidated financial statements and issued on 30 July 2013, at the end of the second quarter, the market reaction to the eventual end of quantitative easing in the US served as a reminder that looser monetary policy across the globe has not resolved the underlying challenges related to structural fiscal and economic issues. For the first half of 2013, UBS's revenue growth and business flows evidence the fact that UBS continued to manage its businesses effectively in challenging market conditions. However, for the third quarter of 2013, client confidence and activity levels could be impacted further by the continued absence of sustained and credible improvements to unresolved European sovereign debt and banking system issues and US fiscal issues, and by the mixed outlook for global growth. This would make improvements in prevailing market conditions unlikely and, together with the seasonal decline in activity levels traditionally associated with the summer holiday season, would consequently generate headwinds for revenue growth, net interest margins and net new money. Nevertheless, UBS remains confident that its wealth management businesses will continue to attract net new money, reflecting new and existing clients' steadfast trust in the firm, and that the actions it has taken will ensure the firm's long-term success and will deliver sustainable returns for its shareholders going forward.</p>
B.5	Organisational structure.	UBS AG is the parent company of the UBS Group. The objective of the UBS's group structure is to support the business activities of the parent company within an efficient legal, tax, regulatory and funding framework. None of the individual business divisions of UBS or the Corporate Center are legally independent entities; instead, they primarily perform their activities through the domestic and foreign offices of the parent bank. In cases where it is impossible or inefficient to operate via the parent bank, due to local legal, tax or regulatory provisions, or where additional legal entities join the Group through acquisition, the business is operated on location by legally independent group companies.
B.9	Profit forecast or estimate.	Not applicable; no profit forecast or estimate is made in the Prospectus.
B.10	Qualifications in the audit report.	Not applicable; the auditor's reports on the audited historical financial information are unqualified.

B.12	Selected historical key financial information.	<p>UBS AG derived the following selected consolidated financial data from (i) its annual report 2012 containing the audited consolidated financial statements and additional unaudited financial data as of or for the fiscal year ended 31 December 2012 (including comparative figures as of or for the fiscal years ended 31 December 2011 and 2010), (ii) its second quarter 2013 report containing the unaudited consolidated financial statements and additional unaudited financial data as of or for the first six months ended 30 June 2013 (from which comparative figures as of or for the first six months ended 30 June 2012 have been derived) and (iii) its first quarter 2013 report containing the unaudited consolidated financial statements and additional unaudited financial data as of or for the quarter ended 31 March 2013 (from which selected comparative figures as of or for the fiscal year ended 31 December 2012 have been derived). UBS AG's consolidated financial statements were prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and stated in Swiss francs ("CHF").</p> <table border="1" data-bbox="555 678 1369 853"> <thead> <tr> <th></th> <th colspan="2">As of or for the first six months ended</th> <th colspan="3">As of or for the year ended</th> </tr> </thead> <tbody> <tr> <td><i>CHF million, except where indicated</i></td> <td>30.06.13</td> <td>30.06.12<sup>1</sup></td> <td>31.12.12<sup>1</sup></td> <td>31.12.11</td> <td>31.12.10</td> </tr> <tr> <td></td> <td colspan="2"><i>unaudited</i></td> <td colspan="3"><i>audited, except where indicated</i></td> </tr> </tbody> </table> <p><b>Group results</b></p> <table border="1" data-bbox="555 891 1369 1196"> <tbody> <tr> <td>Operating income</td> <td>15,164</td> <td>12,925</td> <td>25,423*<sup>1</sup></td> <td>27,788</td> <td>31,994</td> </tr> <tr> <td>Operating expenses</td> <td>12,697</td> <td>10,356</td> <td>27,216</td> <td>22,482</td> <td>24,650</td> </tr> <tr> <td>Operating profit / (loss) before tax</td> <td>2,467</td> <td>2,569</td> <td>(1,794)*<sup>1</sup></td> <td>5,307</td> <td>7,345</td> </tr> <tr> <td>Net profit / (loss) attributable to UBS shareholders</td> <td>1,678</td> <td>1,558</td> <td>(2,480)*<sup>1</sup></td> <td>4,138</td> <td>7,452</td> </tr> <tr> <td>Diluted earnings per share (CHF)</td> <td>0.44</td> <td>0.41</td> <td>(0.66)*<sup>1</sup></td> <td>1.08</td> <td>1.94</td> </tr> </tbody> </table> <p><b>Key performance indicators, balance sheet and capital management, and additional information</b></p> <p><b>Performance</b></p> <table border="1" data-bbox="555 1285 1369 1568"> <tbody> <tr> <td>Return on equity (RoE) (%)<sup>2</sup></td> <td>7.2</td> <td>6.3</td> <td>(5.1)*</td> <td>9.1*</td> <td>18.0*</td> </tr> <tr> <td>Return on tangible equity (%)<sup>3</sup></td> <td>8.5</td> <td>8.1</td> <td>1.6*</td> <td>11.9*</td> <td>24.7*</td> </tr> <tr> <td>Return on risk-weighted assets, gross (%)<sup>4</sup></td> <td>11.8</td> <td>11.7</td> <td>12.0*</td> <td>13.7*</td> <td>15.5*</td> </tr> <tr> <td>Return on assets, gross (%)<sup>5</sup></td> <td>2.5</td> <td>1.9</td> <td>1.9*</td> <td>2.1*</td> <td>2.3*</td> </tr> </tbody> </table> <p><b>Growth</b></p> <table border="1" data-bbox="555 1606 1369 1697"> <tbody> <tr> <td>Net profit growth (%)<sup>6</sup></td> <td>7.7</td> <td>(44.5)</td> <td>N/A*</td> <td>(44.5)*</td> <td>N/A*</td> </tr> <tr> <td>Net new money growth (%)<sup>7</sup></td> <td>2.8</td> <td>1.2</td> <td>1.6*</td> <td>1.9*</td> <td>(0.8)*</td> </tr> </tbody> </table> <p><b>Efficiency</b></p> <table border="1" data-bbox="555 1736 1369 1783"> <tbody> <tr> <td>Cost / income ratio (%)<sup>8</sup></td> <td>83.6</td> <td>80.3</td> <td>106.6*</td> <td>80.7*</td> <td>76.9*</td> </tr> </tbody> </table> <p><b>Capital strength</b></p> <table border="1" data-bbox="555 1821 1369 2031"> <tbody> <tr> <td>BIS Basel III common equity tier 1 capital ratio (% phase-in)<sup>9, 10</sup></td> <td>16.2</td> <td></td> <td>15.3*</td> <td></td> <td></td> </tr> <tr> <td>BIS Basel III common equity tier 1 capital ratio (% fully applied)<sup>9, 10</sup></td> <td>11.2</td> <td></td> <td>9.8*</td> <td></td> <td></td> </tr> </tbody> </table>		As of or for the first six months ended		As of or for the year ended			<i>CHF million, except where indicated</i>	30.06.13	30.06.12 <sup>1</sup>	31.12.12 <sup>1</sup>	31.12.11	31.12.10		<i>unaudited</i>		<i>audited, except where indicated</i>			Operating income	15,164	12,925	25,423* <sup>1</sup>	27,788	31,994	Operating expenses	12,697	10,356	27,216	22,482	24,650	Operating profit / (loss) before tax	2,467	2,569	(1,794)* <sup>1</sup>	5,307	7,345	Net profit / (loss) attributable to UBS shareholders	1,678	1,558	(2,480)* <sup>1</sup>	4,138	7,452	Diluted earnings per share (CHF)	0.44	0.41	(0.66)* <sup>1</sup>	1.08	1.94	Return on equity (RoE) (%) <sup>2</sup>	7.2	6.3	(5.1)*	9.1*	18.0*	Return on tangible equity (%) <sup>3</sup>	8.5	8.1	1.6*	11.9*	24.7*	Return on risk-weighted assets, gross (%) <sup>4</sup>	11.8	11.7	12.0*	13.7*	15.5*	Return on assets, gross (%) <sup>5</sup>	2.5	1.9	1.9*	2.1*	2.3*	Net profit growth (%) <sup>6</sup>	7.7	(44.5)	N/A*	(44.5)*	N/A*	Net new money growth (%) <sup>7</sup>	2.8	1.2	1.6*	1.9*	(0.8)*	Cost / income ratio (%) <sup>8</sup>	83.6	80.3	106.6*	80.7*	76.9*	BIS Basel III common equity tier 1 capital ratio (% phase-in) <sup>9, 10</sup>	16.2		15.3*			BIS Basel III common equity tier 1 capital ratio (% fully applied) <sup>9, 10</sup>	11.2		9.8*

<sup>1</sup> On 1 January 2013, UBS adopted IASB October 2012 amendments to IFRS 10 <i>Consolidated Financial Statements</i> . The comparative 2012 periods included in UBS' first quarter 2013 report and second quarter 2013 report have been adjusted to reflect the effect of adopting IFRS 10. Under IFRS 10, periods prior to 2012 are not required to be restated in 2013 quarterly reports. As a result of this, the restated financial data as of or for the fiscal year ended 31 December 2012 included in this table were not available in the annual report 2012. As a further consequence, that financial data as of or for the fiscal year ended 31 December 2012 that would have been marked as audited, had they not been restated, are not audited and are marked in the table with this footnote 1.

<p><b>Element</b></p> <p>C.1</p>	<p>Type and the class of the securities, security identification number.</p>	<p><b>Type and Form of Securities</b></p> <p>The Securities are not capital protected certificates.</p> <p>The Securities are issued as uncertificated securities (<i>Wertrechte</i>; "<b>Uncertificated Securities</b>") pursuant to article 973c of the Swiss Code of Obligations ("<b>CO</b>"). Uncertificated Securities are registered in the main register of a Swiss depository (<i>Verwahrungsstelle</i>; "<b>FISA Depository</b>") according to the Swiss Federal Act on Intermediated Securities ("<b>FISA</b>"). Upon (a) entering the Uncertificated Securities into the main register of a FISA Depository and (b) booking the Securities into a securities account at a FISA Depository, the Uncertificated Securities will constitute intermediated securities within the meaning of the FISA (<i>Bucheffekten</i>; "<b>Intermediated Securities</b>"). The Issuer will normally choose SIS SIX AG, Baslerstrasse 100, CH-4600 Olten, Switzerland, ("<b>SIS</b>" or the "<b>Clearing System</b>") as FISA Depository, but reserves the right to choose any other FISA Depository, including UBS AG.</p> <p>Intermediated Securities are transferred and otherwise disposed of in accordance with the provisions of the FISA and the relevant agreements with the respective FISA Depository (in particular, neither the Intermediated Securities nor any rights pertaining to the Intermediated Securities may be transferred by way of assignment pursuant to articles 164 et seq. CO without the prior written consent of the Issuer).</p> <p>The holders of the Securities shall at no time have the right to demand (a)</p>

		<p>conversion of Uncertificated Securities into physical securities and/or (b) delivery of physical securities. The Issuer may convert Uncertificated Securities constituting Intermediated Securities into Intermediated Securities based on global notes (<i>Globalurkunden</i>; "<b>Swiss Global Notes</b>") pursuant to article 973b CO) and <i>vice versa</i> at any time and without consent of the holders of the respective Securities. For the avoidance of doubt and regardless of such conversion, both Swiss Global Securities and Uncertificated Securities will at any time constitute Intermediated Securities.</p> <p><b>Security identification number(s) of the Securities</b>  ISIN: CH0202050081  WKN: UBS3FX  Valor: 20205008</p>
C.2	Currency of the securities.	Euro (the " <b>Redemption Currency</b> ")
C.5	Restrictions on the free transferability of the securities.	Not applicable; no restrictions on the free transferability of the Securities apply.
C.8	Rights attached to the securities, including ranking and limitations to those rights.	<p><b>Governing law of the Securities</b>  The Securities are governed by Swiss law.</p> <p><b>Rights attached to the Securities</b>  The Securities provide, subject to the Terms and Conditions of the Securities, Securityholders, upon exercise, with a claim for payment of the Redemption Amount in the Redemption Currency. During their term, the Securities do not generate any regular income (e.g. dividends or interest).</p> <p><b>Limitation of the rights attached to the Securities</b>  Under the conditions set out in the Terms and Conditions, the Issuer is entitled to terminate the Securities and to make certain adjustments to the Terms and Conditions.</p> <p><b>Status of the Securities</b>  The Securities will constitute direct, unsecured and unsubordinated obligations of the Issuer, ranking <i>pari passu</i> among themselves and with all other present and future unsecured and unsubordinated obligations of the Issuer, other than obligations preferred by mandatory provisions of law.</p>
C.11	Admission to trading on a regulated market or other equivalent markets.	<p>The Issuer intends to apply for the listing of the Securities at Frankfurt Stock Exchange (Open Market) and the Stuttgart Stock Exchange (Third Section).</p> <p>Provided that the Securities have not been terminated by the Issuer prior to the Expiration Date, trading of the Securities shall cease two trading days prior to the Expiration Date (such day, the "<b>Last Exchange Trading Day</b>"). As of the Last Exchange Trading Day trading may only take place off exchange with the Manager.</p>
C.15	Influence of the underlying on the value of the securities.	<p>The value of the Securities during their term depends on the performance of the notional Reference Portfolio used as the Underlying. In case the level of the Underlying increases, also the value of the Securities (disregarding any special features of the Securities) is likely to increase.</p> <p>In particular, the Redemption Amount, if any, to be received by the Securityholder upon exercise of the Securities depends on the performance of the notional Reference Portfolio. In detail:</p> <p>The Securities allow investors to participate, considering the fees on the level of the notional Reference Portfolio, in the positive development of the notional Reference Portfolio. Conversely, investors in the Securities also</p>

		<p>participate in the negative development of the notional Reference Portfolio.</p> <p>Securityholders receive on the Maturity Date a Redemption Amount in the Redemption Currency equal to the Settlement Level of the Reference Portfolio multiplied by the Ratio. The Settlement Level of the Reference Portfolio means, subject to a Market Disruption, the Level of the Reference Portfolio as calculated by the Calculation Agent on the Valuation Date. <b>For the avoidance of doubt:</b> Whilst the Redemption Amount may be linked to the market value of the Reference Portfolio Components, the Issuer is not obliged to invest the proceeds of the issuance of the Securities in any Reference Portfolio Components at any time and the Securityholders do not have any interest in any Reference Portfolio Components at any time.</p> <p>During their term, the Securities do not generate any regular income (e.g. dividends or interest).</p>
C.16	Expiration or maturity date, the exercise date or final reference date.	<p>The Maturity Date means the fifth Business Day following the relevant Valuation Date and is, hence, expected to be 7 October 2016.</p> <p>The Valuation Date means (i) in case of a redemption of the Securities in accordance with § 1 of the Terms and Conditions of the Securities, the Expiration Date, (ii) in case of an automatic termination of the term of the Securities in accordance with § 2 (2) of the Terms and Conditions of the Securities, the relevant Automatic Termination Date, and (iii) in case of a termination by the Issuer in accordance with § 8 of the Terms and Conditions of the Securities, the relevant Termination Date. If this day is not an Exchange Business Day, the immediately succeeding Exchange Business Day shall be the Valuation Date.</p> <p>The Expiration Date of the Securities means, subject to an extension of the Term of the Securities in accordance with § 2 (3) of the Conditions of the Securities, 30 September 2016. If this day is not a Business Day, the immediately succeeding Business Day shall be the Expiration Date.</p>
C.17	Settlement procedure of the derivative securities.	<p>Payments shall, in all cases subject to any applicable fiscal or other laws and regulations in the place of payment or other laws and regulations to which the Issuer agree to be subject, be made in accordance with the relevant regulation and operating procedure applicable to and/or issued by the Clearing System (the "<b>CA Rules</b>") to the relevant Clearing System or the relevant intermediary or to its order for credit to the accounts of the relevant account holders of the Clearing System or the relevant intermediary.</p> <p>The Issuer shall be discharged from its redemption obligations or any other payment obligations under the Securities by delivery to the Clearing System in the manner described above.</p>
C.18	A description of how the return on derivative securities takes place.	<p>Securityholders will receive on the relevant Maturity Date payment of the Redemption Amount.</p>
C.19	Exercise price or final reference price of the underlying.	<p>The Settlement Level of the Reference Portfolio means, subject to a Market Disruption, the Level of the Reference Portfolio as calculated by the Calculation Agent on the Valuation Date.</p> <p>The Level of the Reference Portfolio means the sum of all Constituents taking into consideration their respective weightings, plus the Cash Position, whereby a Constituent is, subject to the Terms and Conditions of the Securities, valued at the closing level as determined by the Calculation Agent and converted into the Redemption Currency by the Calculation</p>

		<p>Agent. The calculation also takes into account the effect of the Reference Portfolio fees.</p> <p>The initial Level of the Reference Portfolio as of 30 September 2013 was EUR 100,000.00.</p> <p>The Level of the Reference Portfolio is calculated for each Business Day by the Calculation Agent on the next Business Day.</p> <p>The Level of the Reference Portfolio will be published in the internet on <a href="http://www.ubs.com/keyinvest">www.ubs.com/keyinvest</a> or a substitute thereof.</p>
C.20	Type of the underlying and where the information on the underlying can be found.	<p><b>Type of Underlying:</b></p> <p>The Reference Portfolio means the <b>BHF-BANK Global FX/Income Opportunities Reference Portfolio</b> is a notional Euro ("EUR") denominated Reference Portfolio, actively managed, created and maintained by BHF-BANK AG (the "<b>Reference Portfolio Advisor</b>").</p> <p>The Reference Portfolio aims to replicate (i) the performance of a long only basket of Synthetic Discount Certificates linked to currencies and potentially exchange traded funds (each an "<b>ETF</b>" or a "<b>Fund</b>") linked to currency exposure (the "<b>Constituents</b>") and (ii) from time to time, a cash position accruing interest at the Euro OverNight Index Average (Eonia<sup>®</sup>) rate (the "<b>Cash Position</b>", which together with the Constituents shall be referred to as the "<b>Reference Portfolio Components</b>"), less fees and expenses.</p> <p>The Reference Portfolio Advisor manages the Reference Portfolio in accordance with the attached Reference Portfolio Guidelines.</p> <p>The Reference Portfolio has been initiated on 30 September 2013 by the Reference Portfolio Advisor.</p>

Element		Section D – Risks
		<p>The purchase of Securities is associated with certain risks. <b>The Issuer expressly points out that the description of the risks associated with an investment in the Securities describes only the key risks which were known to the Issuer at the date of the Prospectus.</b></p>
D.2	Key information on the key risks that are specific and individual to the issuer.	<p>The Securities entails an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the risk that UBS AG becomes temporarily or permanently unable to meet its obligations under the Securities.</p> <p><b>General insolvency risk</b></p> <p>Each investor bears the general risk that the financial situation of the Issuer could deteriorate. The debt or derivative securities of the Issuer will constitute immediate, unsecured and unsubordinated obligations of the Issuer, which, in particular in the case of insolvency of the Issuer, rank pari passu with each other and all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of those that have priority due to mandatory statutory provisions. The Issuer's obligations relating to the Securities are not protected by any statutory or voluntary deposit guarantee system or compensation scheme. <b>In the event of insolvency of the Issuer, investors may thus experience a total loss of their investment in the Securities.</b></p> <p>UBS as Issuer is subject to various risks within its business activities. Such risks comprise in particular the following types of risks, where all of these risks might have adverse effects on the value of the Securities:</p>

		<ul style="list-style-type: none"> <li>• Effect of downgrading of the Issuer's rating</li> <li>• Regulatory and legislative changes may adversely affect UBS's business and ability to execute its strategic plans</li> <li>• UBS's capital strength is important in supporting UBS's strategy, client franchise and competitive position</li> <li>• UBS may not be successful in executing its announced strategic plans</li> <li>• UBS's reputation is critical to the success of its business</li> <li>• Material legal and regulatory risks arise in the conduct of UBS's business</li> <li>• Performance in the financial services industry is affected by market conditions and the macroeconomic climate</li> <li>• UBS holds legacy and other risk positions that may be adversely affected by conditions in the financial markets; legacy risk positions may be difficult to liquidate</li> <li>• UBS's global presence subjects it to risk from currency fluctuations</li> <li>• UBS is dependent upon UBS's risk management and control processes to avoid or limit potential losses in UBS's trading and counterparty credit businesses</li> <li>• Valuations of certain positions rely on models; models have inherent limitations and may use inputs which have no observable source</li> <li>• UBS is exposed to possible outflows of client assets in its asset-gathering businesses and to changes affecting the profitability of its Wealth Management business division</li> <li>• Liquidity and funding management are critical to UBS's ongoing performance</li> <li>• Operational risks may affect UBS's business</li> <li>• UBS might be unable to identify or capture revenue or competitive opportunities, or retain and attract qualified employees</li> <li>• UBS's financial results may be negatively affected by changes to accounting standards</li> <li>• UBS's financial results may be negatively affected by changes to assumptions supporting the value of UBS's goodwill</li> <li>• The effects of taxes on UBS's financial results are significantly influenced by changes in UBS's deferred tax assets and final determinations on audits by tax authorities</li> <li>• Potential conflicts of interest</li> </ul>
D.6	Key information on the risks that are specific and individual to the securities.	Potential investors of the Securities should recognise that the Securities <b>constitute a risk investment</b> which can lead to a <b>total loss</b> of their investment in the Securities. Securityholders will incur a loss, if the amounts received in accordance with the Terms and Conditions of the Securities is below the purchase price of the Securities (including the transaction costs). Any investor

		<p>bears the risk of the Issuer's financial situation worsening and the potential subsequent inability of the Issuer to pay its obligations under the Securities. Potential investors must therefore be prepared and able to sustain a partial or even a <b>total loss</b> of the invested capital. Any investors interested in purchasing the Securities should assess their financial situation, to ensure that they are in a position to bear the <b>risks of loss</b> connected with the Securities.</p> <p><b>Security specific Risks</b></p> <p>1. <b><u>Special risks related to specific features of the Security structure</u></b>  Prior to investing in the Securities, potential investors should note that the following special features of the Securities may have a negative impact on the value of the Securities or, as the case may be, on any amount, if any, payable according to the Terms and Conditions of the Securities and that the Securities accordingly have special risk profiles:</p> <p><b>Extent of participation in the notional Reference Portfolio</b>  Potential investors should be aware that the application of the Ratio within the determination of the Security Right results in the Securities being in economic terms similar to a direct investment in the notional Reference Portfolio, but being nonetheless not fully comparable with such a direct investment, in particular because the Securityholders do not participate in the relevant performance of the notional Reference Portfolio by a 1:1 ratio, but by the proportion of the Ratio.</p> <p><b>Currency exchange rate risk</b>  The value of the Reference Portfolio Components comprised in the notional Reference Portfolio may be determined in currencies other than the Redemption Currency. Potential investors should, therefore, be aware that investments in these Securities could entail risks due to fluctuating exchange rates, and that the risk of loss does not depend solely on the performance of the Reference Portfolio Components comprised in the notional Reference Portfolio, but also on unfavourable developments in the value of the foreign currency, currency unit or calculation unit.</p> <p>Such developments can additionally increase the Securityholders' exposure to losses, because an unfavourable performance of the relevant currency exchange rate may correspondingly decrease the value of the purchased Securities during their term or, as the case may be, the level of the Redemption Amount or, as the case may be, the Termination Amount. Currency exchange rates are determined by factors of offer and demand on the international currency exchange markets, which are themselves exposed to economic factors, speculations and measures by governments and central banks (for example monetary controls or restrictions).</p> <p><b>Extension of the Term of the Securities at the option of the Issuer</b>  Potential investors in the Securities should also be aware that according to the Terms and Conditions of the Securities, the Issuer is entitled to extend, by giving notice to the Securityholder prior to the then existing Expiration Date (or any later expiration date resulting from any extension of the maturity of the Securities) the maturity of all then outstanding Securities for an additional period of three (3) years, in which case the "Expiration Date" shall be deemed to be the date falling three (3) years after the scheduled Expiration Date (the "<b>Issuer Extension Option</b>"). There is no limit to the number of times the Issuer may extend the maturity of the Securities. In case that the Issuer exercises the Issuer Extension</p>

		<p>Option and unless a Securityholder terminates the Securities held by it in accordance with the Terms and Conditions of the Securities by exercising the Securityholder Non-Extension Option, investors in the Securities will receive any final payments under the Securities later than scheduled at the Issue Date of the Securities.</p> <p>2. <b><u>Termination and Early Redemption at the option of the Issuer</u></b>  Potential investors in the Securities should furthermore be aware that the Issuer is under certain circumstances pursuant to the Terms and Conditions of the Securities, entitled to terminate and redeem the Securities in total prior to the Maturity Date. In case the Issuer terminates and redeems the Securities prior to the Maturity Date, the Securityholder is entitled to demand the payment of an amount in relation to this early redemption. However, the Securityholder is not entitled to request any further payments on the Securities after the Termination Date.</p> <p>The Securityholder, therefore, bears the risk of not participating in the performance of the notional Reference Portfolio and its respective Reference Portfolio Components to the expected extent and during the expected period and, therefore, receives less than its capital invested.</p> <p>In the case of a termination of the Securities by the Issuer, the Securityholder bears the risk of a reinvestment, <i>i.e.</i> the investor bears the risk that it will have to re-invest the Termination Amount, if any, paid by the Issuer in the case of termination at market conditions, which are less favourable than those existing prevailing at the time of the acquisition of the Securities.</p> <p>3. <b><u>Possible fluctuations in the Level of the Reference Portfolio after termination of the Securities</u></b>  In the event that the term of the Securities is terminated early by the Issuer pursuant to the Terms and Conditions of the Securities, potential investors of the Securities should note that any adverse fluctuations in the Level of the notional Reference Portfolio between the announcement of the termination by the Issuer and the determination of the level of the notional Reference Portfolio relevant for the calculation of the then payable Termination Amount are borne by the Securityholders.</p> <p>4. <b><u>Adverse impact of adjustments of the Security Right</u></b>  It cannot be excluded that certain events occur or certain measures are taken (by parties other than the Issuer) in relation to the notional Reference Portfolio, which potentially lead to changes to the notional Reference Portfolio or result in the underlying concept of the notional Reference Portfolio being changed, so-called potential adjustment events. In the case of the occurrence of a potential adjustment event, the Issuer shall be entitled to effect adjustments according to the Terms and Conditions of the Securities to account for these events or measures. The adjustments to the Constituents comprised in the notional Reference Portfolio might have a negative impact on the value of the Securities.</p> <p>5. <b><u>Determinations by the Calculation Agent</u></b>  The Calculation Agent has certain discretion under the Terms and Conditions of the Securities (i) to determine whether certain events have occurred (in particular, the occurrence of a potential adjustment event or a Market Disruption in accordance with the Terms and Conditions of the Securities), (ii) to determine any resulting adjustments and calculations, (iii) also to make adjustments to the Reference Portfolio and (iv) to postpone valuations or</p>
--	--	--

		<p>payments under the Securities. The Calculation Agent will make any such determination at its reasonable discretion and in a commercially reasonable manner. Potential investors should be aware that any determination made by the Calculation Agent may have an impact on the value and financial return of the Securities. Any such discretion exercised by, or any determination made by, the Calculation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer and the Securityholders.</p> <p><b>6. <u>Other factors affecting the value</u></b>  The value of a Security is determined not only by changes in the notional Reference Portfolio, but also by a number of other factors. Since several risk factors may have simultaneous effects on the Securities, the effect of a particular risk factor cannot be predicted. In addition, several risk factors may have a compounding effect which may not be predictable. No assurance can be given with regard to the effect that any combination of risk factors may have on the value of the Securities.</p> <p>Prospective investors of the Securities should be aware that an investment in the Securities involves a valuation risk with regard to the notional Reference Portfolio. They should have experience with transactions in securities with a value derived from the notional Reference Portfolio and its respective Reference Portfolio Components. The value of the notional Reference Portfolio may vary over time and may increase or decrease by reference to a variety of factors which may include macro economic factors and speculation. In addition, the historical performance of the notional Reference Portfolio and its respective Reference Portfolio Components is not an indication of its future performance. Changes in the prices in relation to the notional Reference Portfolio and its respective Reference Portfolio Components will affect the trading price of the Securities, and it is impossible to predict whether the prices in relation to the notional Reference Portfolio and its respective Reference Portfolio Components will rise or fall.</p> <p><b>7. <u>Effect of ancillary costs</u></b>  Commissions and other transaction costs incurred in connection with the purchase or sale of Securities may result in charges, particularly in combination with a low order value, <b>which can substantially reduce any Redemption Amount, if any, to be paid under the Securities.</b> Before acquiring a Security, potential investors should therefore inform themselves of all costs incurred through the purchase or sale of the Security, including any costs charged by their custodian banks upon purchase and maturity of the Securities.</p> <p><b>8. <u>Trading in the Securities / Illiquidity</u></b>  It is not possible to predict if and to what extent a secondary market may develop in the Securities or at what price the Securities will trade in the secondary market or whether such market will be liquid or illiquid.</p> <p>Application will be or have been made to the Security Exchange(s) specified for admission or listing of the Securities. If the Securities are admitted or listed, no assurance is given that any such admission or listing will be maintained. The fact that the Securities are admitted to trading or listed does not necessarily denote greater liquidity than if this were not the case. If the Securities are not listed or traded on any exchange, pricing information for the Securities may be more difficult to obtain and the liquidity of the Securities may be adversely affected. The liquidity of the Securities may also be affected by restrictions on the purchase and sale of the Securities in</p>
--	--	--

		<p>some jurisdictions. Additionally, the Issuer has the right (but no obligation) to purchase Securities at any time and at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold or surrendered for cancellation.</p> <p>In addition, it cannot be excluded that the number of Securities actually issued and purchased by investors is less than the intended Issue Size of the Securities. Consequently, there is the risk that due to the low volume of Securities actually issued the liquidity of the Securities is lower than if all Securities were issued and purchased by investors.</p> <p>The Manager intends, under normal market conditions, to provide bid and offer prices for the Securities of an issue on a regular basis. However, the Manager makes no firm commitment to the Issuer to provide liquidity by means of bid and offer prices for the Securities, and assumes no legal obligation to quote any such prices or with respect to the level or determination of such prices. <b>Potential investors therefore should not rely on the ability to sell Securities at a specific time or at a specific price.</b></p> <p><b>9. <u>Borrowed funds</u></b> If the purchase of Securities is financed by borrowed funds and investors' expectations are not met, they not only suffer the loss incurred under the Securities, but in addition also have to pay interest on and repay the loan. This produces a substantial increase in investors' risk of loss. Investors of Securities should never rely on being able to redeem and pay interest on the loan through gains from a Securities transaction. Rather, before financing the purchase of a Security with borrowed funds, the investors' financial situations should be assessed, as to their ability to pay interest on or redeem the loan immediately, even if they incur losses instead of the expected gains.</p> <p><b>10. <u>Taxation in relation to the Securities</u></b> Potential investors should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Securities are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for innovative financial instruments such as the Securities. Potential investors are advised not to rely upon the tax summary contained in this Prospectus but to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, sale and redemption of the Securities. Only these advisors are in a position to duly consider the specific situation of the potential investor.</p> <p><b>11. <u>Payments under the Securities may be subject to U.S. withholding under FATCA</u></b> The Issuer and other financial institutions through which payments on the Securities are made may be required to withhold at a rate of up to 30 per cent. on all, or a portion of, payments made after 31 December 2016 in respect of any Securities which are issued (or materially modified) after 1 January 2014 or that are treated as equity for U.S. federal tax purposes whenever issued, pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code (commonly referred to as "FATCA", the Foreign Account Tax Compliance Act).</p> <p>The Issuer is a foreign financial institution ("FFI") for the purposes of FATCA. If the Issuer becomes obliged to provide certain information on its account holders pursuant to a FATCA agreement with the</p>
--	--	--

		<p>U.S. Internal Revenue Service (“IRS”) (i.e. the Issuer is a “Participating FFI”) then withholding may be triggered if: (i) an investor does not provide information sufficient for the relevant Participating FFI to determine whether the investor is a U.S. person or should otherwise be treated as holding a “United States Account” of the Issuer, (ii) an investor does not consent, where necessary, to have its information disclosed to the IRS or (iii) any FFI that is an investor, or through which payment on the Securities is made, is not a Participating FFI. An investor that is an FFI that is withheld upon generally will be able to obtain a refund only to the extent an applicable income tax treaty with the United States entitles such institution to a reduced rate of tax on the payment that was subject to withholding under these rules, provided the required information is furnished in a timely manner to the IRS. <b>Holders of Securities should, consequently, be aware that payments under the Securities may under certain circumstances be subject to U.S. withholding under FATCA.</b></p> <p><b>12. <u>Changes in Taxation in relation to the Securities</u></b>  The considerations concerning the taxation of the Securities set forth in the Securities Note reflect the opinion of the Issuer on the basis of the legal situation identifiable as of the date of the Securities Note. However, a different tax treatment by the fiscal authorities and tax courts cannot be excluded. Each investor should seek the advice of his or her personal tax consultant before deciding whether to purchase the Securities.</p> <p>Neither the Issuer nor the Manager assumes any responsibility vis-à-vis the Securityholders for the tax consequences of an investment in the Securities.</p> <p><b>13. <u>Potential conflicts of interest</u></b>  The Issuer and affiliated companies may participate in transactions related to the Securities in some way, for their own account or for account of a client. Such transactions may not serve to benefit the Securityholders and may have a positive or negative effect on the value of the Reference Portfolio Components comprised in the notional Reference Portfolio, and consequently on the value of the Securities. Furthermore, companies affiliated with the Issuer may become counterparties in hedging transactions relating to obligations of the Issuer stemming from the Securities. As a result, conflicts of interest can arise between companies affiliated with the Issuer, as well as between these companies and investors, in relation to obligations regarding the calculation of the price of the Securities and other associated determinations. In addition, the Issuer and its affiliates may act in other capacities with regard to the Securities, such as calculation agent, paying agent and administrative agent.</p> <p>Furthermore, the Issuer and its affiliates may issue other derivative instruments relating to the notional Reference Portfolio; introduction of such competing products may affect the value of the Securities. The Issuer and its affiliated companies may receive non-public information relating to the notional Reference Portfolio, and neither the Issuer nor any of its affiliates undertakes to make this information available to Securityholders.</p> <p>Within the context of the offering and sale of the Securities, the Issuer or any of its affiliates may directly or indirectly pay fees in varying amounts to third parties, such as distributors or investment advisors, or receive payment of fees in varying amounts, including those levied in association with the distribution of the Securities, from third parties. Potential investors should be aware that the</p>
--	--	---

		<p>Issuer may retain fees in part or in full. The Issuer or, as the case may be, the Managers, upon request, will provide information on the amount of these fees.</p> <p><b>Reference Portfolio specific Risks</b></p> <p>The Reference Portfolio aims to replicate (i) the performance of a long only basket of Synthetic Discount Certificates linked to currencies and potentially exchange traded funds (each an "ETF" or a "Fund") linked to currency exposure (the "Constituents") and (ii) from time to time, a cash position accruing interest at the Euro OverNight Index Average (Eonia<sup>®</sup>) rate (the "Cash Position", which together with the Constituents shall be referred to as the "Reference Portfolio Components"), less fees and expenses, all as described in the sections "Key Terms and Definitions of the Securities" and "Information about the Reference Portfolio". Investing in the Securities, hence also involves certain risks that are related to the notional Reference Portfolio:</p> <p>1. <b><u>General risks related to the notional Reference Portfolio</u></b> Investors should be aware that some risks are related to the notional Reference Portfolio in general:</p> <p><b>Risk of fluctuations in value</b> The performance of the notional Reference Portfolio is subject to fluctuations. Therefore, Securityholders cannot foresee what consideration they can expect to receive for the Securities they hold on a certain day in the future. When the Securities are redeemed, exercised or otherwise disposed of on a certain day, they may be worth a lot less than if they were disposed of at a later or earlier point in time.</p> <p><b>Uncertainty about future performance</b> It is not possible to reliably predict the future performance of the notional Reference Portfolio and the Reference Portfolio Components respectively. Likewise, the historical data of the notional Reference Portfolio and the Reference Portfolio Components respectively, does also not allow for any conclusions to be drawn about the future performance of the notional Reference Portfolio and the Securities.</p> <p><b>Consequence of the linkage to a notional Reference Portfolio</b> The Securities have the special feature that the calculation of the level of the Settlement Amount depends on the performance of a notional Reference Portfolio comprising several Reference Portfolio Components. As a result, fluctuations in the value of one Reference Portfolio Component may be offset or intensified by fluctuations in the value of other Reference Portfolio Components comprised in the notional Reference Portfolio. Even in the case of a positive performance of one or more Reference Portfolio Components comprised in the notional Reference Portfolio, the performance of notional Reference Portfolio as a whole may be negative if the performance of the other Reference Portfolio Components comprised in the notional Reference Portfolio is negative to a greater extent.</p> <p>2. <b><u>Specific risks related to the notional Reference Portfolio</u></b> In addition, the following risks are specifically related to the notional Reference Portfolio:</p> <p><b>Notional Reference Portfolio</b> The notional Reference Portfolio is a synthetic portfolio which has been created and is managed and calculated solely for the purposes of being used as underlying of securities issued by UBS. There is no</p>

		<p>obligation on the Issuer to purchase or hold any Reference Portfolio Components and Securityholders have no rights in, or to require delivery of, any of such Reference Portfolio Components at any time. References to any balancing, rebalancing, disposal, acquisition or financing of a Reference Portfolio Component have to be understood as reference to a notional transaction and should not be construed as imposing any obligation on the Issuer or any of its affiliates or subsidiaries, the Manager, the Calculation Agent or any person actually directly or indirectly, physically or synthetically to acquire, dispose of or effect or take delivery of, or effect transactions in, any securities, investments or other property, but are references to the change in the value of, or in notional amounts to be determined for the purposes of calculating the value of, and relate solely to the calculation of the value of any amounts payable in respect of the Securities.</p> <p><b>Numerous Constituents of the notional Reference Portfolio</b> The notional Reference Portfolio is composed of numerous Constituents. Despite the fact that Constituents' diversification is designed to help to control declines in the value of the notional Reference Portfolio, it cannot be guaranteed that the use of numerous different Constituents will be successful for these purposes and will not result in overall losses.</p> <p><b>Limited historic data of the Reference Portfolio</b> The notional Reference Portfolio has been created on 30 September 2013. Accordingly, as at the date of the Prospectus only limited historic data is available on the basis of which investors might evaluate the likely performance of the notional Reference Portfolio. The past performance of the Reference Portfolio Components notionally comprised in the notional Reference Portfolio (which generally do not reflect the same fee levels as the fees incurred in relation to the Reference Portfolio), is not necessarily indicative of the future performance for the notional Reference Portfolio.</p> <p><b>No payment of interest or dividends</b> None of the Securities vests a right to payment of interest or dividends and, as such, they <b>generate no regular income</b>. Therefore, potential reductions in the value of the Security cannot be offset by any other income from the Security.</p> <p><b>Fees and expenses in relation to the Reference Portfolio</b> A quarterly Reference Portfolio Advisory Fee, an adjustment fee (levied for each adjustment) and a quarterly UBS management fee will be deducted from the level of the Reference Portfolio and, hence, result in a reduction in the level of the Reference Portfolio.</p> <p><b>No limitation on the universe of Reference Portfolio Components</b> There are no material restrictions on the instruments within the predefined universe of Reference Portfolio Components into which the Reference Portfolio Advisor may notionally invest.</p> <p><b>Composition of the Reference Portfolio</b> The Reference Portfolio Advisor agreed with the Calculation Agent to adhere to specific guidelines (the "<b>Reference Portfolio Guidelines</b>") when selecting and adjusting the notional Reference Portfolio Components.</p> <p>The selection of the initial Reference Portfolio Components, their weightings and any of the rebalancings is made in the reasonable discretion of the Reference Portfolio Advisor. Rebalancings will be effected by the Reference Portfolio Advisor having consulted the</p>

		<p>Calculation Agent. The Calculation Agent has under certain circumstances in accordance with the Reference Portfolio Guidelines the right to reject constituents that form part of a Rebalancing.</p> <p>The Reference Portfolio Advisor will select the Reference Portfolio Components with due diligence. No assurance can be made, however, that the selection of Reference Portfolio Components will be successful, and neither the Reference Portfolio Advisor nor the Calculation Agent are responsible for the market performance of the Reference Portfolio Components.</p> <p>Notwithstanding the above, the Reference Portfolio Advisor is restricted by the Reference Portfolio Guidelines in its selection of Reference Portfolio Components; it may therefore lack the necessary flexibility to benefit from any market developments not covered by the Reference Portfolio Guidelines.</p> <p>3. <b><u>Specific risks related to the notional Reference Portfolio Components</u></b></p> <p>Investors should be aware that some risks are related to the Synthetic Discount Certificates and ETFs, which will be comprised in the notional Reference Portfolio. Consequently, any investment in the Securities is, to a certain extent, subject to market risks similar to a direct investment in Synthetic Discount Certificates and ETFs.</p> <p><b>Synthetic Discount Certificates used as Reference Portfolio Components</b></p> <p>The notional Reference Portfolio will mirror the performance of various Synthetic Discount Certificates. The market development of the Securities linked to the notional Reference Portfolio also depends on the development of the Synthetic Discount Certificates comprised in the notional Reference Portfolio as Reference Portfolio Components. <b>Investors should be aware that the Synthetic Discount Certificates comprised in the notional Reference Portfolio for calculation purposes are notionally issued by UBS.</b> As result, any worsening of the financial situation of the Issuer will automatically lead to a decrease in value of the Synthetic Discount Certificates. Any such decrease in value of the Synthetic Discount Certificates will have a negative impact on the Level of the Reference Portfolio and the value of the Securities respectively.</p> <p><b>ETFs used as Reference Portfolio Components</b></p> <p>The notional Reference Portfolio may mirror various exchange traded funds linked to currency exposure. Consequently, any investment in the Securities is, to a certain extent, subject to market risks similar to direct investment in the ETFs. These risks include risks related to pricing, use of estimates, replication of the performance of a benchmark, tracking error, concentration risks, currency risks, conflicts of interest, fees on different levels and limited supervision. Potential investors should seek respective advice and familiarise themselves with the specific risk profile of ETFs and seek the advice of a professional, if necessary.</p> <p><b>Currency Exchange Rates mirrored in the Reference Portfolio Components</b></p> <p>The notional Reference Portfolio will, in addition, (via the Synthetic Discount Certificates and the ETFs) also mirror the performance of various currency exchange rates. Potential investors should hence consider the risks specifically related to currency exchange rates. Securities linked to currency exchange rates may bear similar market risks to a direct investment in the relevant underlying currency(ies). In particular, this will apply if the relevant underlying currency is the</p>
--	--	--

		<p>currency of an emerging market jurisdiction. Therefore, potential investors should be familiar with foreign exchange rates as an asset class. Furthermore, legal restrictions on the free exchangeability may adversely affect the value of the Securities.</p> <p>The Securities are also linked emerging market currencies. There is an increased risk of significant adverse fluctuations in the performances of the emerging markets currencies as they are currencies of less developed and less stable economies without a stabilizing component that could be provided by one of the major currencies. With respect to any emerging or developing nation, there is the possibility of nationalisation, expropriation or confiscation, political changes, government regulation and social instability. Currencies of emerging economies are often subject to more frequent and larger central bank interventions than the currencies of developed countries and are also more likely to be affected by drastic changes in monetary or exchange rate policies of the relevant countries, with adverse consequences on the tradability/convertibility of the currencies, which may negatively affect the value the Securities.</p> <p><b>4. <u>Specific risks related to the Reference Portfolio Advisor</u></b> Additional risks are related to the Reference Portfolio Advisor.</p> <p><b>Dependence on the Reference Portfolio Advisor</b> The success of the Reference Portfolio depends upon the Reference Portfolio Advisor selecting successful Reference Portfolio Components. There can be no assurance that the Reference Portfolio Advisor will be able to do so. In particular, subjective (as opposed to systematic) decisions made by the Reference Portfolio Advisor may cause the Reference Portfolio to decline (or not to increase) in a manner which less subjective decision making might have avoided.</p> <p><b>Reliance on Key Individuals</b> The loss of one or more key individuals could have a material adverse effect on the Reference Portfolio Advisor's ability to perform its responsibilities in relation to the Reference Portfolio.</p> <p><b>Automatic Termination of the Securities</b> According to the Terms and Conditions, the Securities will be automatically terminated and redeemed, in case that the BHF-BANK AG ceases in accordance with the relevant Reference Portfolio Advisor agreement to act as Reference Portfolio Advisor. This could have a considerable impact on the value of the Securities.</p>
	Risk warning to the effect that investors may lose the value of their entire investment or part of it.	Each investor in the Securities bears the risk of the Issuer's financial situation worsening. Potential investors must therefore be prepared and able to sustain a partial or even a <b>total loss</b> of their entire investment.

The "<b>Adjustment Fee</b>" is levied for each adjustment made in the Reference Portfolio, and represents a percentage of the notional volume of each of the purchase and/or sale of a Constituent. The Adjustment Fee equals 0.10%. If the number of Rebalancings exceed the number of 30 within a year, then the Adjustment Fee equals 0.20% for these additional Rebalancings above 30. If the number of Rebalancings exceed the number of 50 within a year, then the Adjustment Fee equals 0.40% for these additional Rebalancings above 50. The Reference Portfolio Advisor is only entitled to proceed a Rebalancing above the number of 50 within a year, if the notional volume of the rebalancing equals or exceeds 10% of the total notional volume of the Reference Portfolio. The total number of rebalancings is capped to 80 per year.</p>

Punkt		Abschnitt B – Emittentin
<b>B.1</b>	Juristische und kommerzielle Bezeichnung der Emittentin.	Die juristische und kommerzielle Bezeichnung der Emittentin ist UBS AG (" <b>Emittentin</b> ", " <b>UBS</b> " oder " <b>Bank</b> ").
<b>B.2</b>	Sitz, Rechtsform, geltendes Recht und Land der Gründung der Emittentin.	UBS in ihrer heutigen Form entstand am 29. Juni 1998 durch die Fusion der 1862 gegründeten Schweizerischen Bankgesellschaft und des 1872 gegründeten Schweizerischen Bankvereins. UBS AG ist in den Handelsregistern des Kantons Zürich und des Kantons Basel-Stadt eingetragen. Die Handelsregisternummer lautet CH-270.3.004.646-4.  UBS AG hat ihren Sitz in der Schweiz, wo sie als Aktiengesellschaft nach schweizerischem Aktienrecht und den schweizerischen bankengesetzlichen Bestimmungen eingetragen ist. Die Adressen und Telefonnummern der beiden Satzungs- und Verwaltungssitze der UBS AG lauten: Bahnhofstrasse 45, CH-8001 Zürich, Schweiz, Telefon +41 44 234 1111, und Aeschenvorstadt 1, CH-4051 Basel, Schweiz, Telefon +41 61 288 5050.
<b>B.4b</b>	Trends.	<b>Trendinformation</b>  Wie im am 30. Juli 2013 publizierten zweiten Quartalsbericht 2013 von UBS (einschließlich ungeprüften konsolidierten Finanzangaben) dargestellt, erinnerte die Marktreaktion auf das mögliche Ende der quantitativen Lockerung in den USA am Ende des zweiten Quartals daran, dass die zugrunde liegenden Herausforderungen im Zusammenhang mit den strukturellen fiskalpolitischen und wirtschaftlichen Problemen trotz expansiver Geldpolitik rund um den Globus nicht gelöst sind. Das Ertragswachstum und das Geschäftsvolumen der UBS für das erste Halbjahr 2013 bestätigen, dass die UBS ihre Geschäftsbereiche auch unter schwierigen Bedingungen effektiv führt. Im dritten Quartal 2013 könnten das Kundenvertrauen und die Kundenaktivitäten unter den nach wie vor fehlenden nachhaltigen und glaubwürdigen Fortschritten bei der ungelösten Staatsschuldenkrise in Europa, den Problemen im Bankensystem und den US-Haushaltsproblemen sowie dem durchwachsenen Ausblick für das Weltwirtschaftswachstum leiden. Aufgrund dessen dürften Ergebnisverbesserungen unter den herrschenden Marktbedingungen unwahrscheinlich sein. Zusammen mit dem saisonalen Rückgang der Aktivitäten infolge der Urlaubszeit dürfte dies Druck auf das Ertragswachstum, die Nettozinsmargen und den Nettoneugeldzufluss ausüben. Dennoch ist die UBS zuversichtlich, dass ihr Vermögensverwaltungsgeschäft dank des unerschütterlichen Vertrauens, das neue und bestehende Kunden in UBS setzen, weiterhin Nettoneugelder anziehen wird und dass die ergriffenen Massnahmen den langfristigen Erfolg des Unternehmens gewährleisten und in Zukunft nachhaltige Renditen für ihre Aktionäre generieren werden.
<b>B.5</b>	Organisationsstruktur.	Die UBS AG ist das Stammhaus der UBS Gruppe. Ziel dieser Struktur ist es, die Geschäftstätigkeiten durch effiziente rechtliche, steuerliche, regulatorische und finanzielle Rahmenbedingungen zu unterstützen. Weder die einzelnen Unternehmensbereiche noch das Corporate Center sind rechtlich unabhängige Einheiten. Sie sind hauptsächlich als Teile des Stammhauses über die weltweiten Niederlassungen operativ tätig. Wo es nicht möglich oder nicht effizient ist, die Geschäfte durch das Stammhaus

		zu tätigen, werden Geschäfte durch rechtlich selbstständige Tochtergesellschaften vor Ort geführt. Dies ist beispielsweise aufgrund rechtlicher, steuerlicher oder regulatorischer Vorschriften oder bei der Akquisition rechtlicher Einheiten durch den Konzern der Fall.

<p><sup>1</sup> Per 1. Januar 2013 wendete UBS die vom IASB im Oktober 2012 veröffentlichten Änderungen zu IFRS 10 <i>Konzernabschlüsse</i> an. Die im Finanzbericht für das erste Quartal 2013 und im Finanzbericht für das zweite Quartale 2013 enthaltenen Vergleichsperioden für 2012 wurden angepasst, um den Effekt der Anwendung von IFRS 10 widerzuspiegeln. Unter IFRS 10 müssen die Perioden vor 2012 in den Quartalsberichten für 2013 nicht angepasst werden. Daraus folgt, dass die in dieser Tabelle enthaltenen angepassten Finanzdaten für das Geschäftsjahr endend am oder per 31. Dezember 2012 nicht im Geschäftsbericht 2012 verfügbar waren. Als weitere Konsequenz folgt daraus, dass Finanzdaten für das Geschäftsjahr endend am oder per 31. Punkt	Abschnitt C – Wertpapiere	
C.1	Art und Gattung der Wertpapiere, einschließlich jeder Wertpapierkennung.	<p><b>Art und Gattung der Wertpapiere</b> Die Wertpapiere sind nicht kapitalgeschützte Zertifikate.</p> <p>Die Wertpapiere werden als Wertrechte („<b>Wertrechte</b>“) im Sinne von Art. 973c des Schweizerischen Obligationenrechts („<b>OR</b>“) ausgegeben. Die Wertrechte werden in dem Hauptregister einer Schweizer Verwahrungsstelle („<b>Verwahrungsstelle</b>“) im Sinne des Bundesgesetzes über die Bucheffekten („<b>BEG</b>“) registriert.</p> <p>Durch (a) die Eintragung der Wertrechte in das Hauptregister der Verwahrungsstelle und (b) die Einbuchung der Wertpapiere in das Effektenkonto einer Verwahrungsstelle begründen die Wertrechte Bucheffekten im Sinn des BEG („<b>Bucheffekten</b>“). Die Emittentin wird üblicherweise SIS SIX AG, Baslerstrasse 100, CH-4600 Olten, Schweiz, („<b>SIS</b>“ oder das „<b>Clearingsystem</b>“) als Verwahrungsstelle einsetzen, behält sich aber das Recht vor, andere Verwahrungsstelle einschließlich der UBS AG einzusetzen.</p> <p>Bucheffekte werden gemäß den Bestimmungen der Verwahrungsstelle und den maßgeblichen Verträgen mit der Verwahrungsstelle übertragen (dabei dürfen insbesondere weder die Bucheffekten noch Rechte an den</p>

		<p>Bucheffekten ohne vorherige schriftliche Zustimmung der Emittentin durch Zession gemäß den Artikeln 164 ff. OR übertragen werden).</p> <p>Die Wertpapiergläubiger haben zu keinem Zeitpunkt das Recht, (a) die Umwandlung von Wertrechten in physische Wertpapiere und/oder (b) die Lieferung von physischen Wertpapieren zu verlangen. Die Emittentin kann jederzeit und ohne Zustimmung der Wertpapiergläubiger der betreffenden Wertpapiere die den Bucheffekten zu Grunde liegenden Wertrechte in Dauer-Inhaber-Sammelurkunden („<b>Schweizer Globalurkunden</b>“) im Sinne von Art. 973b des OR bzw. umgekehrt umwandeln. Zur Klarstellung und ungeachtet der Umwandlung begründen sowohl Schweizer Globalurkunden als auch Wertrechte stets Bucheffekten.</p> <p><b>Wertpapier-Kennnummer(n) der Wertpapiere</b>          ISIN: CH0202050081          WKN: UBS3FX          Valor: 20205008</p>
C.2	Währung der Wertpapieremission.	Euro (die " <b>Auszahlungswährung</b> ")
C.5	Beschränkungen der freien Übertragbarkeit der Wertpapiere.	Entfällt; die freie Übertragbarkeit der Wertpapiere ist nicht beschränkt.
C.8	Mit den Wertpapieren verbundene Rechte, einschließlich der Rangordnung und Beschränkungen dieser Rechte.	<p><b>Maßgebliches Recht der Wertpapiere</b>          Die Wertpapiere unterliegen Schweizer Recht.</p> <p><b>Mit den Wertpapieren verbundene Rechte</b>          Die Wertpapiere berechtigen die Wertpapiergläubiger vorbehaltlich der Bedingungen der Wertpapiere bei Ausübung, zu einem Anspruch auf Zahlung des Auszahlungsbetrags. Während der Laufzeit der Wertpapiere erhält der Anleger keine laufenden Erträge (z. B. Dividenden oder Zinsen).</p> <p><b>Beschränkungen der mit den Wertpapieren verbundenen Rechten.</b>          Die Emittentin ist unter den in den Bedingungen festgelegten Voraussetzungen zur Kündigung der Wertpapiere und zu Anpassungen der Bedingungen berechtigt.</p> <p><b>Status der Wertpapiere</b>          Die Wertpapiere begründen unmittelbare, unbesicherte und nicht nachrangige Verbindlichkeiten der Emittentin, die untereinander und mit allen sonstigen gegenwärtigen und künftigen unbesicherten und nicht nachrangigen Verbindlichkeiten der Emittentin gleichrangig sind, ausgenommen solche Verbindlichkeiten, denen aufgrund zwingender gesetzlicher Vorschriften Vorrang zukommt.</p>
C.11	Antrag auf Zulassung zum Handel an einem geregelten Markt oder anderen gleichwertigen Märkten.	<p>Die Emittentin beabsichtigt, die Einbeziehung der Wertpapiere in den Freiverkehr der Frankfurter Wertpapierbörse (Open Market) und der Stuttgarter Wertpapierbörse (Freiverkehr) zu beantragen.</p> <p>Vorausgesetzt, dass die Wertpapiere nicht vor dem Verfalltag von der Emittentin gekündigt wurden, wird der Handel der Wertpapiere zwei Handelstage vor Verfalltag (dieser Tag der "<b>Letzte Börsenhandelstag</b>") eingestellt. Ab dem Letzten Börsenhandelstag kann der Handel nur noch außerbörslich mit dem Manager stattfinden.</p>
C.15	Einfluss des Basiswerts auf den Wert der Wertpapiere.	Der Wert der Wertpapiere während ihrer Laufzeit hängt von der Entwicklung des virtuellen Referenz-Portfolios als Basiswert ab. Im Fall, dass der Kurs des Basiswerts steigt, wird auch der Wert der Wertpapiere (ohne Berücksichtigung der besonderen Merkmale der Wertpapiere) wahrscheinlich steigen.

		<p>Insbesondere hängt der gegebenenfalls an die Wertpapiergläubiger zu zahlende Auszahlungsbetrag von Entwicklung des Basiswerts ab. Im Detail:</p> <p>Mit den Wertpapieren können Anleger, unter Berücksichtigung der Gebühr auf Ebene des virtuellen Referenz-Portfolios, an der positiven Kursentwicklung des virtuellen Referenz-Portfolios als partizipieren. Im Gegenzug nehmen Anleger mit den Wertpapieren aber auch an der negativen Kursentwicklung des virtuellen Referenz-Portfolios teil. Wertpapiergläubiger erhalten am Fälligkeitstag einen Auszahlungsbetrag in der Auszahlungswährung, dessen Höhe dem Abrechnungslevel des Referenz-Portfolios multipliziert mit dem Bezugsverhältnis entspricht. Der Abrechnungslevel des Referenz-Portfolios bezeichnet, vorbehaltlich einer Marktstörung, den Level des Referenz-Portfolios, wie er am Bewertungstag von der Berechnungsstelle berechnet wird. <b>Zur Klarstellung:</b> Obwohl der Auszahlungsbetrag unter Bezugnahme auf den Marktwert der Referenz-Portfolio Bestandteile berechnet wird, ist die Emittentin nicht verpflichtet, den Erlös der Ausgabe der Wertpapiere zu irgendeinem Zeitpunkt in die Referenz-Portfolio Bestandteile zu investieren. Die Wertpapiergläubiger haben keine Eigentumsrechte oder Anteile an den Referenz-Portfolio Bestandteilen.</p> <p>Während der Laufzeit der Wertpapiere erhält der Anleger keine laufenden Erträge (z. B. Dividenden oder Zinsen).</p>
C.16	Verfalltag oder Fälligkeitstermin — Ausübungstermin oder letzter Referenztermin.	<p>Der Fälligkeitstag entspricht dem fünften Geschäftstag nach dem maßgeblichen Bewertungstag und damit voraussichtlich dem 7. Oktober 2016.</p> <p>Der Bewertungstag entspricht (i) im Fall einer Tilgung der Wertpapiere nach § 1 der Bedingungen der Wertpapiere, dem Verfalltag, (ii) im Fall einer automatischen Beendigung der Laufzeit der Wertpapiere nach § 2 (2) der Bedingungen der Wertpapiere, dem maßgeblichen Automatischen Beendigungstag, bzw. (iii) im Fall einer Kündigung durch die Emittentin nach § 8a der Bedingungen der Wertpapiere, dem maßgeblichen Kündigungstag. Falls dieser Tag kein Börsengeschäftstag ist, dann gilt der unmittelbar darauf folgende Börsengeschäftstag als der Bewertungstag.</p> <p>Der Verfalltag der Wertpapiere entspricht, vorbehaltlich einer Verlängerung der Laufzeit der Wertpapiere gemäß § 2 (3) der Bedingungen der Wertpapiere, dem 30. September 2016. Falls dieser Tag kein Geschäftstag ist, dann gilt der unmittelbar darauf folgende Geschäftstag als der Verfalltag.</p>
C.17	Abrechnungsverfahren für die derivativen Wertpapiere.	<p>Zahlungen werden in jedem Fall vorbehaltlich sämtlicher anwendbarer steuerlicher oder sonstiger Gesetze und Vorschriften im Zusammenhang mit der Zahlung oder sonstiger Gesetze und Vorschriften, denen sich die Emittentin unterwirft, in Übereinstimmung mit den Vorschriften und Verfahren, die auf das Clearingsystem Anwendung finden und/oder von diesem herausgegeben werden (die "<b>CS-Regeln</b>") dem maßgeblichen Clearingsystem bzw. der maßgeblichen Verwahrungsstelle oder an dessen/deren Order zur Gutschrift auf den Konten der betreffenden Kontoinhaber bei dem Clearingsystem oder der maßgeblichen Verwahrungsstelle bereitgestellt</p> <p>Die Emittentin wird mit der vorstehend beschriebenen Leistung an das Clearingsystem von den ihr unter diesen Bedingungen der Wertpapiere obliegenden Tilgungsverpflichtungen bzw. sonstigen Zahlungsverpflichtungen befreit.</p> <p>Die Emittentin wird mit der vorstehend beschriebenen Leistung an das Clearingsystem von den ihr unter diesen Bedingungen der Wertpapiere obliegenden Tilgungsverpflichtungen bzw. sonstigen Zahlungs- oder</p>

		Lieferverpflichtungen befreit.
C.18	Tilgung der derivativen Wertpapiere.	Die Wertpapiergläubiger erhalten an dem maßgeblichen Fälligkeitstag die Zahlung des Auszahlungsbetrags.
C.19	Ausübungspreis oder endgültiger Referenzpreis des Basiswerts.	<p>Der Abrechnungskurs des Basiswerts entspricht dem Kurs des Basiswerts an dem Bewertungstag zur Bewertungszeit.</p> <p>Der Abrechnungslevel des Referenz-Portfolios bezeichnet, vorbehaltlich einer Marktstörung, den Level des Referenz-Portfolios, wie er am Bewertungstag von der Berechnungsstelle berechnet wird.</p> <p>Der Level des Referenz-Portfolios entspricht unter Berücksichtigung der jeweiligen Gewichtung der Summe sämtlicher Komponenten zuzüglich der Barmittel-Position. Die Komponenten werden dabei, vorbehaltlich der Bedingungen der Wertpapiere, mit dem von der Berechnungsstelle bestimmten Schlusskurs bewertet und in die Auszahlungswährung umgerechnet. Die Berechnung berücksichtigt die Auswirkungen sämtlicher mit dem virtuellen Referenz-Portfolio verbundenen Gebühren und Kosten.</p> <p>Der anfängliche Level des Referenz-Portfolios zum 30. September 2013 entsprach EUR 100.000,00.</p> <p>Der Level des Referenz-Portfolios zu einem Geschäftstag wird von der Berechnungsstelle an dem folgenden Geschäftstag berechnet.</p> <p>Der Level des Referenz-Portfolios wird im Internet unter <a href="http://www.ubs.com/keyinvest">www.ubs.com/keyinvest</a> oder einer diese ersetzenden Seite veröffentlicht.</p>
C.20	Art des Basiswerts und Angabe des Ortes, an dem Informationen über den Basiswert erhältlich sind.	<p><b>Art des Basiswerts:</b></p> <p>Das Referenz-Portfolio steht für das BHF-BANK Global FX/Income Opportunities Reference Portfolio, ein virtuelles Euro ("EUR") denominatedes aktiv verwaltetes Referenz-Portfolio, das von der BHF-BANK AG ("Referenz-Portfolio Advisor") erstellt und verwaltet wird.</p> <p>Das Referenz-Portfolio zielt darauf ab, (i) die Entwicklung eines Korbs von sog. long Positionen in Synthetic Discount Zertifikaten, die an die Währungen und gegebenenfalls an sog. Exchange Traded Funds (<i>börsennotierte Fonds</i> – jeweils ein "ETF" oder "Fonds") mit Währungsexposure gebunden sind, (die "Komponenten") und (ii) eine gelegentliche Barmittel-Position, die mit dem Euro OverNight Index Average (Eonia<sup>®</sup>) Zinssatz verzinst wird (die "Barmittel-Position", die zusammen mit den Komponenten als „Referenz-Portfolio Bestandteile“ bezeichnet wird) abzüglich bestimmter Gebühren und Kosten abzubilden.</p> <p>Der Referenz-Portfolio Advisor verwaltet das Referenz-Portfolio in Übereinstimmung mit den Referenz-Portfolio Vorgaben.</p> <p>Das Referenz-Portfolio wurde am 30. September 2013 von dem Referenz-Portfolio Advisor geschaffen.</p>

Punkt	Abschnitt D – Risiken	
		Der Erwerb von Wertpapieren ist mit bestimmten Risiken verbunden. <b>Die Emittentin weist ausdrücklich darauf hin, dass die Beschreibung der mit einer Anlage in die Wertpapiere verbundenen Risiken nur die wesentlichen Risiken beschreibt, die der Emittentin zum Datum des Prospekts bekannt waren.</b>

D.2	Zentrale Angaben zu den zentralen Risiken, die der Emittentin eigen sind.	<p>Die Wertpapiere beinhalten ein sog. Emittentenrisiko, das auch als Schuldnerisiko oder Kreditrisiko der Investoren bezeichnet wird. Das Emittentenrisiko ist das Risiko, dass die UBS AG zeitweise oder andauernd nicht in der Lage ist, ihren Verpflichtungen unter den Wertpapieren nachzukommen.</p> <p><b>Allgemeines Insolvenzrisiko</b>  Jeder Investor trägt allgemein das Risiko, dass sich die finanzielle Situation der Emittentin verschlechtern könnte. Die Wertpapiere begründen unmittelbare, unbesicherte und nicht nachrangige Verbindlichkeiten der Emittentin, die - auch im Fall der Insolvenz der Emittentin - untereinander und mit allen sonstigen gegenwärtigen und künftigen unbesicherten und nicht nachrangigen Verbindlichkeiten der Emittentin gleichrangig sind, ausgenommen solche Verbindlichkeiten, denen aufgrund zwingender gesetzlicher Vorschriften Vorrang zukommt. Die durch die Wertpapiere begründeten Verbindlichkeiten der Emittentin sind nicht durch ein System von Einlagensicherungen oder eine Entschädigungseinrichtung geschützt.  <b>Im Falle der Insolvenz der Emittentin könnte es folglich sein, dass Anleger einen Totalverlust ihrer Investition in die Wertpapiere erleiden.</b></p> <p>UBS als Emittentin unterliegt in ihrer Geschäftsaktivitäten verschiedenen Risiken. Diese Risiken umfassen insbesondere Risiken der folgenden Arten, wobei sämtliche dieser Risiken nachteilige Auswirkungen auf den Wert der Wertpapiere haben können:</p> <ul style="list-style-type: none"> <li>• Auswirkung einer Herabstufung des Ratings der Emittentin</li> <li>• Aufsichtsrechtliche und gesetzliche Veränderungen können die Geschäfte von UBS sowie die Fähigkeit von UBS, die strategischen Pläne umzusetzen, nachteilig beeinflussen</li> <li>• Die Kapitalstärke der UBS ist wichtig für die Umsetzung ihrer Strategie und den Erhalt ihrer Kundenbasis und Wettbewerbsfähigkeit</li> <li>• UBS kann ihre angekündigten strategischen Pläne möglicherweise nicht erfolgreich umsetzen</li> <li>• Der gute Ruf der UBS ist für den Erfolg der Geschäfte der UBS von zentraler Bedeutung</li> <li>• Aus der Geschäftstätigkeit der UBS können wesentliche rechtliche und regulatorische Risiken erwachsen</li> <li>• Die Ergebnisse der Finanzdienstleistungsbranche hängen von den Marktbedingungen und vom makroökonomischen Umfeld ab</li> <li>• UBS hält Legacy- und andere Risikopositionen, die von den Bedingungen an den Finanzmärkten beeinträchtigt werden könnten; Legacy-Risikopositionen könnten schwierig zu liquidieren sein</li> <li>• Aufgrund ihrer globalen Präsenz unterliegt UBS Risiken, die sich aus Währungsschwankungen ergeben</li> <li>• UBS ist auf ihre Risikomanagement- und -kontrollprozesse angewiesen, um mögliche Verluste bei Handelsgeschäften der UBS sowie Kreditgeschäften mit Gegenparteien zu verhindern oder zu begrenzen</li> <li>• Bewertungen bestimmter Positionen hängen von Modellen ab, die naturgemäß ihre Grenzen haben und die unter Umständen Daten aus nicht beobachtbaren Quellen anwenden</li> </ul>
-----	---	--

		<ul style="list-style-type: none"> <li>• UBS ist möglichen Abflüssen von Kundenvermögen in ihrem Vermögensverwaltungsgeschäft und Veränderungen ausgesetzt, welche die Profitabilität des Unternehmensbereichs Wealth Management der UBS beeinträchtigen können</li> <li>• Liquiditätsbewirtschaftung und Finanzierung sind für die laufende Performance der UBS von größter Bedeutung</li> <li>• Operationelle Risiken können das Geschäft der UBS beeinträchtigen</li> <li>• UBS könnte außerstande sein, Ertrags- oder Wettbewerbschancen zu identifizieren und zu nutzen, oder bei der Gewinnung und Bindung qualifizierter Mitarbeiter scheitern</li> <li>• Die Finanzergebnisse der UBS könnten durch geänderte Rechnungslegungsstandards beeinträchtigt werden</li> <li>• Die Finanzergebnisse der UBS könnten durch geänderte Annahmen bezüglich des Werts des Goodwills der UBS beeinträchtigt werden</li> <li>• Die Steuerauswirkungen auf das Finanzergebnis der UBS werden erheblich durch Änderungen in den latenten Steueransprüchen der UBS und die endgültige Festsetzung in Steuerprüfungen beeinflusst</li> <li>• Potenzielle Interessenkonflikte</li> </ul>
D.6	Zentrale Angaben zu den zentralen Risiken, die den Wertpapieren eigen sind.	<p>Potenzielle Erwerber sollten sich darüber im Klaren sein, dass es sich bei Wertpapieren um eine <b>Risikoanlage</b> handelt, die mit der Möglichkeit von <b>Totalverlusten</b> hinsichtlich des eingesetzten Kapitals verbunden ist. Wertpapiergläubiger erleiden einen Verlust, wenn die gemäß den Bedingungen der Wertpapieren erhaltenen Beträge unter dem Kaufpreis der Wertpapiere (einschließlich etwaiger Transaktionskosten) liegt. Investoren tragen das Risiko der Verschlechterung der finanziellen Leistungsfähigkeit der Emittentin und der daraus folgenden möglichen Unfähigkeit der Emittentin ihren Verpflichtungen unter den Wertpapieren nachzukommen. Potenzielle Erwerber müssen deshalb bereit und in der Lage sein, Verluste des eingesetzten Kapitals bis hin zum <b>Totalverlust</b> hinzunehmen. In jedem Falle sollten Erwerber der Wertpapiere ihre jeweiligen wirtschaftlichen Verhältnisse daraufhin überprüfen, ob sie in der Lage sind, die mit dem Wertpapier verbundenen <b>Verlustrisiken</b> zu tragen.</p> <p><b>Wertpapierspezifische Risikohinweise</b></p> <p>1. <b><u>Spezielle Risiken im Zusammenhang mit besonderen Merkmalen der Wertpapierstruktur</u></b> Potenzielle Erwerber der Wertpapiere müssen vor einer Investition in die Wertpapiere beachten, dass die folgenden Besonderheiten der Wertpapiere nachteilige Auswirkungen auf den Wert der Wertpapiere bzw. die Höhe des nach den Wertpapierbedingungen gegebenenfalls zu zahlenden Geldbetrags haben können und dementsprechend besondere Risikoprofile aufweisen:</p> <p><b>Umfang der Teilnahme an dem virtuellen Referenz-Portfolio</b> Potenzielle Erwerber der Wertpapier sollten sich bewusst sein, dass die Verwendung des Bezugsverhältnisses innerhalb der Bestimmung des Wertpapierrechts dazu führt, dass die Wertpapiere zwar wirtschaftlich einer Direktinvestition in das virtuelle Referenz-Portfolio ähnlich sind, mit einer solchen jedoch</p>

		<p>insbesondere deshalb nicht vollständig vergleichbar sind, weil die Wertpapiergläubiger an der entsprechenden Wertentwicklung nicht im Verhältnis 1:1 partizipieren, sondern in dem Verhältnis des Bezugsverhältnisses teilnehmen.</p> <p><b>Währungswechselkursrisiko</b>  Der Wert der Referenz-Portfolio Bestandteile kann in einer von der Auszahlungswährung abweichenden Währung bestimmt werden, weshalb sich potenzielle Erwerber der Wertpapiere darüber im Klaren sein sollten, dass mit der Anlage in die Wertpapiere Risiken aufgrund von schwankenden Währungswechselkursen verbunden sein können und dass das Verlustrisiko nicht allein von der Entwicklung des Werts des virtuellen Referenz-Portfolios, sondern auch von ungünstigen Entwicklungen des Werts der fremden Währung, abhängt.</p> <p>Derartige Entwicklungen können das Verlustrisiko der Wertpapiergläubiger zusätzlich dadurch erhöhen, dass sich durch eine ungünstige Entwicklung des betreffenden Währungswechselkurses der Wert der erworbenen Wertpapiere während ihrer Laufzeit entsprechend vermindert oder sich die Höhe des möglicherweise unter den Wertpapieren zu zahlenden Auszahlungsbetrags bzw. Kündigungsbetrag entsprechend vermindert. Währungswechselkurse werden von Angebots- und Nachfragefaktoren auf den internationalen Devisenmärkten bestimmt, die volkswirtschaftlichen Faktoren, Spekulationen und Maßnahmen von Regierungen und Zentralbanken ausgesetzt sind (zum Beispiel währungspolitische Kontrollen oder Einschränkungen).</p> <p><b>Verlängerung der Laufzeit der Wertpapiere durch die Emittentin</b>  Potenziellen Erwerbern der Wertpapiere sollte bewusst sein, dass die Emittentin gemäß den Bedingungen der Wertpapiere berechtigt ist, die Laufzeit aller ausstehenden Wertpapiere durch Bekanntmachung an die Wertpapiergläubiger vor dem zu diesem Zeitpunkt geltenden Verfalltag (oder einem aus der Verlängerung der Laufzeit der Wertpapiere resultierenden späteren Verfalltag) um einen zusätzlichen Zeitraum von drei (3) Kalenderjahren zu verlängern; in einem solchen Fall ist der „Verfalltag“ der Tag, der drei (3) Kalenderjahre auf den vorher festgelegten Verfalltag folgt. Die Emittentin kann die Laufzeit der Wertpapiere beliebig oft verlängern (die „<b>Verlängerungsoption der Emittentin</b>“). Falls die Emittentin ihre Verlängerungsoption der Emittentin ausübt und ein Wertpapiergläubiger nicht gemäß den Bedingungen der Wertpapiere die von ihm gehaltenen Wertpapiere durch Ausübung der Wertpapiergläubiger Nicht-Verlängerungsoption kündigt, erhalten Anleger in die Wertpapiere die abschließende Zahlungen unter den Wertpapieren später, als beim Ausgabetag der Wertpapiere vorgesehen.</p> <p>2. <b><u>Kündigung und vorzeitige Tilgung der Wertpapiere durch die Emittentin</u></b>  Potenziellen Erwerbern der Wertpapiere sollte bewusst sein, dass die Emittentin gemäß den Bedingungen der Wertpapiere die Möglichkeit hat, die Wertpapiere insgesamt vor dem Fälligkeitstag zu kündigen und vorzeitig zu tilgen. Wenn die Emittentin die Wertpapiere vor dem Fälligkeitstag kündigt und vorzeitig tilgt, hat der Wertpapiergläubiger das Recht, die Zahlung eines Geldbetrags in Bezug auf die vorzeitige Tilgung zu verlangen. Der Wertpapiergläubiger hat jedoch keinen Anspruch auf irgendwelche weiteren Zahlungen auf die Wertpapiere nach dem maßgeblichen Kündigungstag.</p>
--	--	--

		<p>Der Wertpapiergläubiger trägt damit das Risiko, dass er an der Wertentwicklung des virtuellen Referenz-Portfolios und den Referenz-Portfolio Bestandteilen nicht in dem erwarteten Umfang und über den erwarteten Zeitraum partizipieren und damit auch weniger als sein eingesetztes Kapital zurückerhalten kann.</p> <p>Im Falle einer Kündigung der Wertpapiere durch die Emittentin trägt der Wertpapiergläubiger zudem das Wiederanlagerisiko. Dies bedeutet, dass er den durch die Emittentin im Falle einer Kündigung gegebenenfalls ausgezahlten Geldbetrag möglicherweise nur zu ungünstigeren Marktkonditionen als denen, die beim Erwerb der Wertpapiere vorlagen, wiederanlegen kann.</p> <p>3. <b><u>Mögliche Kursschwankungen des Levels des virtuellen Referenz-Portfolios nach Beendigung der Laufzeit der Wertpapiere</u></b> Soweit die Laufzeit der Wertpapiere durch die Emittentin vorzeitig durch Kündigung gemäß den Bedingungen der Wertpapiere beendet wird, müssen potenzielle Erwerber der Wertpapiere beachten, dass ungünstige Schwankungen des <u>Levels</u> des virtuellen Referenz-Portfolios nach dem Zeitpunkt der Kündigungserklärung bis zur Ermittlung des für die Berechnung des dann zahlbaren Geldbetrags verwendeten <u>Levels</u> des virtuellen Referenz-Portfolios zu Lasten der Wertpapiergläubiger gehen.</p> <p>4. <b><u>Nachteilige Auswirkungen von Anpassungen des Wertpapierrechts</u></b> Es kann nicht ausgeschlossen werden, dass gewisse Ereignisse eintreten oder (von Dritten, mit Ausnahme der Emittentin) in Bezug auf das virtuelle Referenz-Portfolio Maßnahmen ergriffen werden, die möglicherweise zu Änderungen an dem virtuellen Referenz-Portfolio führen oder darin resultieren, dass das dem virtuellen Referenz-Portfolio zu Grunde liegende Konzept geändert wird, so genannte potenzielle Anpassungsereignisse. Die Emittentin ist gemäß den Bedingungen der Wertpapiere bei Vorliegen eines potenziellen Anpassungsereignisses berechtigt, Anpassungen der Bedingungen der Wertpapiere vorzunehmen, um diese Ereignisse oder Maßnahmen zu berücksichtigen. Diese Anpassungen der Komponenten, die in dem virtuellen Referenz-Portfolio enthalten sind, können sich negativ auf den Wert der Wertpapiere auswirken.</p> <p>5. <b><u>Festlegungen durch die Berechnungsstelle</u></b> Die Berechnungsstelle hat nach Maßgabe der Bedingungen der Wertpapiere bestimmte Ermessensfreiheiten (i) bei der Feststellung, ob bestimmte Ereignisse (insbesondere in Übereinstimmung mit den Bedingungen der Wertpapiere ein Anpassungsereignis oder eine Marktstörung) eingetreten sind, (ii) bei der Feststellung der sich daraus ergebenden Anpassungen und Berechnungen, (iii) hinsichtlich der Anpassungen des Basiswert bzw. der Korbbestandteile hinsichtlich des (iv) Verschiebens von Bewertungen oder Zahlungen in Bezug auf die Wertpapiere. Die Berechnungsstelle nimmt solche Feststellungen nach ihrem billigen Ermessen. Potenziellen Anlegern sollte bewusst sein, dass eine von der Berechnungsstelle vorgenommene Feststellung sich auf den Wert der Wertpapiere und die Erträge daraus auswirken kann. Die Ausübung eines solchen Ermessens oder die Vornahme einer Berechnung durch die Berechnungsstelle ist, außer in Fällen offensichtlichen Irrtums, für die Emittentin und die Wertpapiergläubiger endgültig,</p>
--	--	--

		<p>abschließend und bindend.</p> <p><b>6. <u>Weitere Wert bestimmende Faktoren</u></b>  Der Wert eines Wertpapiers wird nicht nur von den Veränderungen des virtuellen Referenz-Portfolios bestimmt, sondern zusätzlich von einer Reihe weiterer Faktoren. Mehrere Risikofaktoren können den Wert der Wertpapiere gleichzeitig beeinflussen; daher lässt sich die Auswirkung eines einzelnen Risikofaktors nicht voraussagen. Zudem können mehrere Risikofaktoren auf bestimmte Art und Weise zusammenwirken, so dass sich deren gemeinsame Auswirkung auf die Wertpapiere ebenfalls nicht voraussagen lässt. Über die Auswirkungen einer Kombination von Risikofaktoren auf den Wert der Wertpapiere lassen sich keine verbindlichen Aussagen treffen.</p> <p>Potenzielle Erwerber der Wertpapiere sollten sich bewusst sein, dass eine Anlage in die Wertpapiere mit einem Bewertungsrisiko im Hinblick auf das virtuelle Referenz-Portfolios verbunden ist. Sie sollten Erfahrung mit Geschäften mit Wertpapieren haben, deren Wert von dem virtuellen Referenz-Portfolio bzw. den Referenz-Portfolio Bestandteilen abgeleitet wird. Der Level des virtuellen Referenz-Portfolios kann Schwankungen unterworfen sein; diese Wertschwankungen sind von einer Vielzahl von Faktoren abhängig, wie zum Beispiel volkswirtschaftlichen Faktoren und Spekulationen. Zudem ist die historische Wertentwicklung des virtuellen Referenz-Portfolios bzw. der Referenz-Portfolio Bestandteile kein Indikator für eine zukünftige Wertentwicklung. Veränderungen in dem Wert des virtuellen Referenz-Portfolios bzw. der Referenz-Portfolio Bestandteile beeinflussen den Handelspreis des Wertpapiers und es ist nicht möglich im Voraus zu bestimmen, ob der Wert des virtuellen Referenz-Portfolios bzw. der Referenz-Portfolio Bestandteile steigen oder fallen wird.</p> <p><b>7. <u>Einfluss von Nebenkosten</u></b>  Provisionen und andere Transaktionskosten, die beim Kauf oder Verkauf von Wertpapieren anfallen, können - insbesondere in Kombination mit einem niedrigen Auftragswert - zu Kostenbelastungen führen, <b>die den unter den Wertpapieren gegebenenfalls zu zahlenden Auszahlungsbetrag der Höhe nach erheblich vermindern können</b>. Potenzielle Erwerber sollten sich deshalb vor Erwerb eines Wertpapiers über alle beim Kauf oder Verkauf des Wertpapiers anfallenden Kosten einschließlich etwaiger Kosten ihrer Depotbank bei Erwerb und bei Fälligkeit der Wertpapiere informieren.</p> <p><b>8. <u>Handel in den Wertpapieren / Mangelnde Liquidität</u></b>  Es lässt sich nicht voraussagen, ob und inwieweit sich ein Sekundärmarkt für die Wertpapiere entwickelt, zu welchem Preis die Wertpapiere in diesem Sekundärmarkt gehandelt werden und ob dieser Sekundärmarkt liquide sein wird oder nicht.</p> <p>Anträge auf Notierungsaufnahme an den angegebenen Wertpapier-Börsen werden bzw. wurden gestellt. Sind die Wertpapiere an einer Börse für den Handel zugelassen oder notiert, kann nicht zugesichert werden, dass diese Zulassung oder Notierung beibehalten werden wird. Aus der Tatsache, dass die Wertpapiere in der genannten Art zum Handel zugelassen oder notiert sind, folgt nicht zwangsläufig, dass höhere Liquidität vorliegt, als wenn dies nicht der Fall wäre. Werden die Wertpapiere an keiner Wertpapier-Börse notiert oder an keiner Wertpapier-Börse gehandelt, können Informationen über die Preise schwieriger bezogen werden, und die unter Umständen</p>

		<p>bestehende Liquidität der Wertpapiere kann nachteilig beeinflusst werden. Die gegebenenfalls bestehende Liquidität der Wertpapiere kann ebenfalls durch Beschränkung des Kaufs und Verkaufs der Wertpapiere in bestimmten Ländern beeinflusst werden. Die Emittentin ist zudem berechtigt, jedoch nicht verpflichtet, jederzeit Wertpapiere zu einem beliebigen Kurs im offenen Markt oder im Bietungsverfahren oder durch Privatvereinbarung zu erwerben. Alle derart erworbenen Wertpapiere können gehalten, wiederverkauft oder zur Entwertung eingereicht werden.</p> <p>Darüber hinaus kann nicht ausgeschlossen werden, dass die Anzahl der tatsächlich emittierten und von Anlegern erworbenen Wertpapieren geringer ist als das geplante Ausgabevolumen der Wertpapiere. Es besteht deshalb das Risiko, dass aufgrund einer geringen Anzahl tatsächlich emittierter Wertpapiere die Liquidität der Wertpapiere geringer ist, als sie bei einer Ausgabe und des Erwerbs sämtlicher Wertpapiere durch Anleger wäre.</p> <p>Der Manager beabsichtigt, unter gewöhnlichen Marktbedingungen regelmäßig Ankaufs- und Verkaufskurse für die Wertpapiere einer Emission zu stellen. Der Manager hat sich jedoch nicht aufgrund einer festen Zusage gegenüber der Emittentin zur Stellung von Liquidität mittels Geld- und Briefkursen hinsichtlich der Wertpapiere verpflichtet und übernimmt bzw. übernehmen keinerlei Rechtspflicht zur Stellung derartiger Kurse oder hinsichtlich der Höhe oder des Zustandekommens derartiger Kurse. <b>Potenzielle Erwerber sollten deshalb nicht darauf vertrauen, das jeweilige Wertpapier zu einer bestimmten Zeit oder einem bestimmten Kurs veräußern zu können.</b></p> <p><b>9. <u>Inanspruchnahme von Krediten</u></b>  Wenn Anleger den Erwerb der Wertpapiere mit einem Kredit finanzieren, müssen sie beim Nichteintritt ihrer Erwartungen, zusätzlich zu der Rückzahlung und Verzinsung des Kredits, auch den unter den Wertpapieren eingetretenen Verlust hinnehmen. Dadurch erhöht sich das Verlustrisiko des Anlegers erheblich. Erwerber von Wertpapieren sollten nie darauf vertrauen, den Kredit aus Gewinnen eines Wertpapiergeschäfts verzinsen und zurückzahlen zu können. Vielmehr sollten vor dem kreditfinanzierten Erwerb eines Wertpapiers die maßgeblichen wirtschaftlichen Verhältnisse daraufhin überprüft werden, ob der Anleger in die Wertpapiere zur Verzinsung und gegebenenfalls zur kurzfristigen Tilgung des Kredits auch dann in der Lage ist, wenn statt der von ihm erwarteten Gewinne Verluste eintreten.</p> <p><b>10. <u>Besteuerung der Wertpapiere</u></b>  Potentielle Investoren sollten sich vergegenwärtigen, dass sie gegebenenfalls verpflichtet sind, Steuern oder andere Gebühren oder Abgaben nach Maßgabe der Rechtsordnung und Praktiken desjenigen Landes zu zahlen, in das die Wertpapiere übertragen werden oder möglicherweise auch nach Maßgabe anderer Rechtsordnungen. In einigen Rechtsordnungen kann es zudem an offiziellen Stellungnahmen der Finanzbehörden oder Gerichtsentscheidungen in Bezug auf innovative Finanzinstrumente wie den hiermit angebotenen Wertpapieren fehlen. Potentiellen Investoren wird daher geraten, sich nicht auf die in dem Basisprospekt enthaltene summarische Darstellung der Steuersituation zu verlassen, sondern sich in Bezug auf ihre individuelle Steuersituation hinsichtlich des Kaufs, des Verkaufs und der Rückzahlung der Wertpapiere von ihrem eigenen</p>

		<p>Steuerberater beraten zu lassen. Nur diese Berater sind in der Lage, die individuelle Situation des potentiellen Investors angemessen einzuschätzen.</p> <p><b>11. Zahlungen unter den Wertpapieren können gemäß FATCA Einbehalten nach US-Recht unterliegen</b>  Die Emittentin und andere Finanzinstitute, über die Zahlungen auf die Wertpapiere erfolgen, haben gegebenenfalls gemäß Sections 1471 bis 1474 des U.S. Internal Revenue Code bis zu 30% der gesamten Zahlung oder eines Teils von Zahlungen einzubehalten, die nach dem 31. Dezember 2016 auf die Wertpapiere entrichtet werden, welche nach dem 1. Januar 2014 begeben (oder wesentlich geändert) werden, oder die unabhängig vom Zeitpunkt ihrer Begebung als Eigenkapital (<i>equity</i>) im Sinne der Einkommenssteuer auf U.S.-Bundesebene behandelt werden (üblicherweise als "FATCA", <i>Foreign Account Tax Compliance Act</i>, bezeichnet).</p> <p>Die Emittentin stellt für die Zwecke von FATCA ein ausländisches Finanzinstitut (<i>Foreign Financial Institution</i>, "FFI") dar. Sofern die Emittentin verpflichtet ist, gemäß einer FATCA-Vereinbarung mit dem U.S. Internal Revenue Service ("IRS") bestimmte Informationen über ihre Kontoinhaber beizubringen, (d.h., sofern die Emittentin ein teilnehmendes ausländisches Finanzinstitut (<i>Participating FFI</i>, "Teilnehmendes Ausländisches Finanzinstitut") ist), kann eine Verpflichtung zur Vornahme eines Einbehalts dadurch entstehen, dass (i) ein Anleger keine ausreichenden Informationen beibringt, um dem jeweiligen teilnehmenden Ausländischen Finanzinstitut die Feststellung zu ermöglichen, ob es sich bei dem Anleger um eine U.S.-Person handelt oder ob er aus anderen Gründen als Inhaber eines US-Kontos („United States Account“) der Emittentin behandelt werden sollte, (ii) ein Anleger einer Offenlegung ihn betreffender Informationen gegenüber dem IRS in einem erforderlichen Fall nicht zustimmt, oder (iii) ein ausländisches Finanzinstitut, welches Anleger ist oder Zahlungen auf die Wertpapiere ausführt, selbst kein Teilnehmendes Ausländisches Finanzinstitut ist. Für einen Anleger, gegenüber dem ein Einbehalt erfolgt und der ein Teilnehmendes Ausländisches Finanzinstitut ist, ist eine Rückerstattung im Allgemeinen nur zu erreichen, soweit er für die Zahlung, auf die der Einbehalt nach diesen Regeln erfolgte, nach einem anwendbaren Doppelbesteuerungsabkommen (<i>income tax treaty</i>) mit den Vereinigten Staaten einen reduzierten Steuersatz geltend machen kann, und sofern die erforderlichen Informationen rechtzeitig an die IRS weitergeleitet werden. <b>Wertpapiergläubiger sollten sich deshalb bewusst sein, dass Zahlungen unter den Wertpapieren gegebenenfalls gemäß FATCA Einbehalten nach US-Recht unterliegen können.</b></p> <p><b>12. <u>Änderung der Grundlage der Besteuerung der Wertpapiere</u></b>  Die in der Wertpapierbeschreibung ausgeführten Überlegungen hinsichtlich der Besteuerung der Wertpapiere geben die Ansicht der Emittentin auf Basis der zum Datum der Wertpapierbeschreibung geltenden Gesetzgebung wieder. Folglich sollten Anleger vor der Entscheidung über einen Kauf der Wertpapiere ihre persönlichen Steuerberater konsultieren.</p> <p>Weder die Emittentin noch der Manager übernehmen gegenüber den Wertpapiergläubigern die Verantwortung für die steuerlichen Konsequenzen einer Anlage in die Wertpapiere.</p> <p><b>13. <u>Potenzielle Interessenkonflikte</u></b></p>
--	--	--

		<p>Die Emittentin und mit ihr verbundene Unternehmen können sich von Zeit zu Zeit für eigene Rechnung oder für Rechnung eines Kunden an Transaktionen beteiligen, die mit den Wertpapieren in Verbindung stehen. Diese Transaktionen sind möglicherweise nicht zum Nutzen der Wertpapiergläubiger und können positive oder negative Auswirkungen auf den Wert in dem virtuellen Referenz-Portfolio enthaltenen Referenz-Portfolio Bestandteile und damit auf den Wert der Wertpapiere haben. Mit der Emittentin verbundene Unternehmen können außerdem Gegenparteien bei Deckungsgeschäften bezüglich der Verpflichtungen der Emittentin aus den Wertpapieren werden. Daher können hinsichtlich der Pflichten bei der Ermittlung der Kurse der Wertpapiere und anderen damit verbundenen Feststellungen sowohl unter den mit der Emittentin verbundenen Unternehmen als auch zwischen diesen Unternehmen und den Anlegern Interessenkonflikte auftreten. Zudem können die Emittentin und mit ihr verbundene Unternehmen gegebenenfalls in Bezug auf die Wertpapiere zusätzlich eine andere Funktion ausüben, zum Beispiel als Berechnungsstelle, Zahl- und Verwaltungsstelle und/oder als Index Sponsor.</p> <p>Die Emittentin und mit ihr verbundene Unternehmen können darüber hinaus weitere derivative Instrumente in Verbindung mit dem virtuellen Referenz-Portfolio ausgeben; die Einführung solcher miteinander im Wettbewerb stehenden Produkte kann sich auf den Wert der Wertpapiere auswirken. Die Emittentin und mit ihr verbundene Unternehmen können nicht-öffentliche Informationen in Bezug auf das virtuelle Referenz-Portfolio erhalten, und weder die Emittentin noch eines der mit ihr verbundenen Unternehmen verpflichtet sich, solche Informationen an einen Wertpapiergläubiger zu veröffentlichen.</p> <p>Im Zusammenhang mit dem Angebot und Verkauf der Wertpapiere kann die Emittentin oder ein mit ihr verbundenes Unternehmen, direkt oder indirekt, Gebühren in unterschiedlicher Höhe an Dritte, zum Beispiel Vertriebspartner oder Anlageberater, zahlen oder Gebühren in unterschiedlichen Höhen einschließlich solcher im Zusammenhang mit dem Vertrieb der Wertpapiere von Dritten erhalten. Potenzielle Erwerber sollten sich bewusst sein, dass die Emittentin die Gebühren teilweise oder vollständig einbehalten kann. Über die Höhe dieser Gebühren erteilt bzw. erteilen die Emittentin bzw. der oder die Manager auf Anfrage Auskunft.</p> <p><b>Referenz-Portfolio-spezifische Risikohinweise</b></p> <p>Das Referenz-Portfolio zielt darauf ab, (i) die Entwicklung eines Korbs von sog. long Positionen in Synthetic Discount Zertifikaten, die an die Währungen und gegebenenfalls an sog. Exchange Traded Funds (<i>börsennotierte Fonds</i> – jeweils ein "ETF" oder "Fonds") mit Währungsexposure gebunden sind, (die "Komponenten") und (ii) eine gelegentliche Barmittel-Position, die mit dem Euro OverNight Index Average (Eonia<sup>®</sup>) Zinssatz verzinst wird (die "Barmittel-Position", die zusammen mit den Komponenten als „Referenz-Portfolio Bestandteile“ bezeichnet wird) abzüglich bestimmter Gebühren und Kosten abzubilden. Eine Investition in die Wertpapiere ist daher mit Risiken verbunden, die mit dem virtuellen Referenz-Portfolio zusammenhängen:</p> <ol style="list-style-type: none"> <li>1. <b><u>Allgemeine Risiken im Zusammenhang mit dem virtuellen Referenz-Portfolio</u></b> Anleger sollten sich bewusst machen, dass mit dem virtuellen Referenz-Portfolio allgemeine Risiken verbunden sind:</li> </ol>
--	--	---

		<p><b>Risiko von Wertschwankungen</b> Die Wertentwicklung des virtuellen Referenz-Portfolios ist Schwankungen unterworfen. Daher können die Wertpapiergläubiger nicht vorhersehen, welche Gegenleistung sie zu einem bestimmten in der Zukunft liegenden Tag für die Wertpapiere erwarten können. Es können bei Tilgung, Ausübung oder sonstiger Veräußerung an einem bestimmten Tag erhebliche Wertverluste gegenüber der Veräußerung zu einem späteren oder früheren Zeitpunkt eintreten.</p> <p><b>Unsicherheit über die zukünftige Wertentwicklung</b> Es ist nicht möglich, zuverlässige Aussagen über die künftige Wertentwicklung des virtuellen Referenz-Portfolios und der Referenz-Portfolio Bestandteile zu treffen. Auch auf Grund historischer Daten des virtuellen Referenz-Portfolios und der Referenz-Portfolio Bestandteile können keine Rückschlüsse auf die zukünftige Wertentwicklung des virtuellen Referenz-Portfolios und der Wertpapiere gezogen werden.</p> <p><b>Auswirkung des Abstellens auf ein virtuelles Referenz-Portfolio</b> Bei den Wertpapieren besteht die Besonderheit, dass sich die Höhe des Zahlungsbetrags nach der Wertentwicklung eines virtuellen Referenz-Portfolios bestehend aus Referenz-Portfolio Bestandteilen. Dementsprechend können Schwankungen im Wert eines Referenz-Portfolio Bestandteils durch Schwankungen im Wert der anderen in dem virtuellen Referenz-Portfolio enthaltenen Referenz-Portfolio Bestandteile ausgeglichen oder verstärkt werden. Trotz der positiven Wertentwicklung eines oder mehrerer in dem virtuellen Referenz-Portfolio enthaltenen Referenz-Portfolio Bestandteile kann die Wertentwicklung des virtuellen Referenz-Portfolios in seiner Gesamtheit negativ ausfallen, wenn sich der Wert der übrigen in dem virtuellen Referenz-Portfolio enthaltenen Referenz-Portfolio Bestandteile in stärkerem Maße negativ entwickelt.</p> <p>2. <b><u>Spezifische Risiken im Zusammenhang mit dem virtuellen Referenz-Portfolio</u></b> Darüber hinaus sind die folgenden Risiken spezifisch mit dem virtuellen Referenz-Portfolio verbunden:</p> <p><b>Virtuelles Referenz-Portfolio</b> Das Referenz-Portfolio ist ein virtuelles Portfolio, das ausschließlich für den Zweck geschaffen worden ist, als Basiswert für von der UBS emittierte Wertpapiere verwendet zu werden, und dafür verwaltet und berechnet wird. Die Emittentin ist nicht verpflichtet, irgendeinen Referenz-Portfolio Bestandteil zu erwerben oder zu halten, und den Wertpapiergläubigern stehen weder Rechte an solchen Referenz-Portfolio Bestandteilen, noch Rechte auf Lieferung von solchen Referenz-Portfolio Bestandteilen zu. Bezugnahmen auf Gewichtungen, Umschichtungen, Veräußerung, Erwerb oder Finanzierung solcher Referenz-Portfolio Bestandteile sind nicht so auszulegen, als würden sie die Emittentin, ihre verbundenen Unternehmen oder Tochterunternehmen, die Anbieterin, die Berechnungsstelle oder eine sonstige natürliche oder juristische Person in irgendeiner Weise verpflichten, Wertpapiere, Kapitalanlagen oder sonstige Vermögenswerte tatsächlich zu erwerben, zu veräußern, zu bewirken, zu übernehmen oder Geschäfte mit diesen zu bewirken; diese Bezugnahmen verweisen statt dessen auf Wertänderungen hinsichtlich der Wertpapiere zu leistenden Zahlungen oder Änderungen fiktiver Beträge, welche für die Berechnung der Höhe dieser Zahlungen zu ermittelnden Beträge</p>

		<p>festgelegt werden und sich lediglich auf die Berechnung solcher Zahlungen beziehen.</p> <p><b>Zahlreiche Komponenten des Referenz-Portfolios</b> Das virtuelle Referenz-Portfolio besteht aus einer Vielzahl von Referenz-Portfolio Bestandteilen. Obwohl die Diversifizierung der Referenz-Portfolio Bestandteile dazu dient, ein Absinken des Werts des virtuellen Referenz-Portfolios zu verhindern, ist nicht gewährleistet, dass der Einsatz einer Vielzahl unterschiedlicher Komponenten nicht insgesamt zu Verlusten führen wird. Es ist nicht gewährleistet, dass die Auswahl mehrerer Komponenten erfolgreich sein wird und nicht zu überwiegenden Verlusten führt.</p> <p><b>Eingeschränkte historische Daten zum Referenz-Portfolio</b> Das virtuelle Referenz-Portfolio wurde am 30. September 2013 geschaffen. Dementsprechend sind an dem Tag, auf den der Prospekt datiert, nur eingeschränkte historische Daten verfügbar, auf deren Grundlage Anleger eine Beurteilung der wahrscheinlichen Wertentwicklung des virtuellen Referenz-Portfolios vornehmen könnten. Die vergangenen Wertentwicklungen der fiktiv als Referenz-Portfolio Bestandteile im Referenz-Portfolio enthaltenen (die generell nicht dasselbe Gebührenniveau wie das Referenz-Portfolio wiedergeben) zeigen nicht notwendigerweise die künftigen Entwicklungen des Referenz-Portfolios an.</p> <p><b>Keine Zins- oder Dividendenzahlungen</b> Die Wertpapiere verbriefen weder einen Anspruch auf Zins- noch auf Dividendenzahlungen und werfen <b>daher keine laufenden Erträge</b> ab. Mögliche Wertverluste der Wertpapiere können daher nicht durch andere Erträge kompensiert werden.</p> <p><b>Gebühren und Kosten für das Referenz-Portfolio</b> Eine quartalsweise Referenz-Portfolio Beratungsgebühr, eine Anpassungsgebühr (erhoben für jede Anpassung) und eine quartalsweise UBS Verwaltungsgebühr werden auf Ebene des Levels des Referenz-Portfolios abgezogen und führen zu einer Verminderung des Levels des Referenz-Portfolios.</p> <p><b>Keine Beschränkung der Anlagemöglichkeiten innerhalb des Anlageuniversums</b> Es gibt keine wesentlichen Beschränkungen, in welche Werte aus dem Anlageuniversum der Referenz-Portfolio Advisor investieren darf.</p> <p><b>Zusammensetzung des Referenz-Portfolios</b> Der Referenz-Portfolio Advisor hat mit der Berechnungsstelle vereinbart, bestimmte Richtlinien (die „<b>Referenz-Portfolio Richtlinien</b>“) bei der Auswahl und der Anpassung der virtuellen Referenz-Portfolio Bestandteile einzuhalten.</p> <p>Die Auswahl der anfänglichen Referenz-Portfolio Bestandteile, die Festlegung ihre Gewichtung und sämtliche Anpassungen der nach billigem Ermessen des Referenz-Portfolio Advisors vorgenommen. Anpassungen werden durch den Referenz-Portfolio Advisors nach Konsultation mit der Berechnungsstelle vorgenommen. Die Berechnungsstelle ist unter gewissen Umständen gemäß den Referenz-Portfolio Richtlinien berechtigt, Bestandteile, die Gegenstand einer Anpassung sind, zurückzuweisen.</p> <p>Der Referenz-Portfolio Advisor wird die Referenz-Portfolio Bestandteile mit angemessener Sorgfalt auswählen. Es kann</p>
--	--	---

		<p>jedoch nicht gewährleistet werden, dass die Auswahl der Referenz-Portfolio Bestandteile erfolgreich sein wird und weder der Referenz-Portfolio Advisor noch die Berechnungsstelle sind für die Marktentwicklung der Referenz-Portfolio Bestandteile verantwortlich.</p> <p>Unabhängig von dem Vorstehenden ist der Referenz-Portfolio Advisor in der Auswahl der Referenz-Portfolio Bestandteile durch die Referenz-Portfolio Richtlinien eingeschränkt; ihm kann daher die Flexibilität fehlen, von jeglicher Marktentwicklung profitieren zu können, die nicht von den Referenz-Portfolio Richtlinien abgedeckt sind.</p> <p><b>3. <u>Spezifische Risiken im Zusammenhang mit den Referenz-Portfolio Bestandteile</u></b></p> <p>Anleger sollten beachten, dass mit den Synthetic Discount Zertifikaten und ETFs, die in dem virtuellen Referenz-Portfolio enthalten sein werden, Risiken verbunden sind. Daher unterliegt eine Investition in die Wertpapiere in gewissem Umfang Marktrisiken, die mit einer Direktanlage in Synthetic Discount Zertifikate und ETFs.</p> <p><b><i>Synthetic Discount Zertifikate als Referenz-Portfolio Bestandteile</i></b></p> <p>Das virtuelle Referenz-Portfolio bildet die Entwicklung von verschiedenen Synthetic Discount Zertifikaten ab. Die Marktpreisentwicklung der an das virtuelle Referenz-Portfolio gebundenen Wertpapiere hängt insbesondere von den als Referenz-Portfolio Bestandteile in das virtuelle Referenz-Portfolio aufgenommenen Synthetic Discount Zertifikaten ab. <b>Anleger müssen beachten dass die für die Zwecke der Berechnung in das virtuelle Referenz-Portfolio aufgenommenen Synthetic Discount Zertifikate virtuell von der UBS emittiert werden.</b> Dementsprechend führt jede Verschlechterung der finanziellen Situation der Emittentin automatisch zu einem Verlust im Wert der Synthetic Discount Zertifikate. Dieser Wertverlust der Synthetic Discount Zertifikate hat nachteilige Auswirkungen auf das Level des Referenz-Portfolios und den Wert der Wertpapiere.</p> <p><b><i>ETFs als Referenz-Portfolio Bestandteile</i></b></p> <p>Das virtuelle Referenz-Portfolio kann verschiedene sog. Exchange Traded Funds mit Währungsexposure abbilden. Daher unterliegt eine Investition in die Wertpapiere in gewissem Umfang Marktrisiken, die mit einer Direktanlage in ETFs verbunden sind. Diese Risiken beinhalten Risiken in Verbindung mit wertbildende Faktoren, der Verwendung von Schätzwerten, der Nachbildung der Wertentwicklung der Benchmark, Tracking Error, Konzentrationsrisiken, Währungsrisiken, Interessenkonflikten, Gebühren auf verschiedenen Ebenen und einer eingeschränkte Aufsicht. Potenzielle Anleger sollten sich entsprechend beraten lassen und mit der jeweiligen Fondsart und der Kategorie der zugrunde liegenden Vermögenswerte, in die der Fonds investiert, als Anlageklasse vertraut sein.</p> <p><b><i>Währungswechselkurse, die mit den Referenz-Portfolio Bestandteilen abgebildet werden</i></b></p> <p>Das virtuelle Referenz-Portfolio wird zudem (über die Synthetic Discount Zertifikate und die ETFs) die Entwicklung von verschiedenen Währungswechselkurse abbilden. Potentielle Erwerber sollten die Risiken, die speziell mit Währungswechselkursen verbunden sind, beachten. Wertpapiere, die sich auf Währungswechselkurse beziehen, können ähnlichen Marktrisiken wie eine Direktanlage in die entsprechende(n)</p>

		<p>zugrunde liegende(n) Wahrung(en) unterliegen. Dies gilt insbesondere dann, wenn es sich um eine Wahrung eines Schwellenlandes handelt. Potenzielle Anleger sollten daher mit Devisen als Anlageklasse vertraut sein. Weitere gesetzliche Einschrankungen des freien Umtauschs konnen sich nachteilig auf den Wert der Wertpapiere auswirken.</p> <p>Die Wertpapiere sind auch an Wahrungen von Schwellenlandern geknupft. Es besteht ein erhohotes Risiko von bedeutenden Schwankungen in der Entwicklung der Wahrungen von Schwellenlandern, da es sich dabei um Wahrungen von weniger entwickelten und weniger stabilen Wirtschaftsraumen handelt, denen ein stabilisierender Faktor, wie von einer der Leitwahrungen geboten werden kann, fehlt. In Bezug auf Schwellen- oder Entwicklungslander besteht die Moglichkeit von Verstaatlichungen, Enteignungen oder Beschlagnahmen, anderungen in den politischen Verhaltnissen, staatlichen Aufsichtsmanahmen und gesellschaftlicher Instabilitat. Wahrungen von Schwellenlandern sind Gegenstand von haufigeren und groeren Eingriffen durch die Zentralbanken als Wahrungen von entwickelten Landern und unterliegen auch mit groerer Wahrscheinlichkeit drastischen anderungen in der Wahrungs- oder Wechselkurspolitik, die negative Einflusse auf die Handelbarkeit/die Konvertierbarkeit von Wahrungen haben kann; dies kann den Wert der Wertpapiere negativ beeinflussen.</p> <p><b>4. <u>Spezifische Risiken im Zusammenhang mit dem Referenz-Portfolio Advisor</u></b>          Daruber hinaus sind die folgenden Risiken spezifisch mit dem Referenz-Portfolio Advisor verbunden:</p> <p><b>Abhangigkeit vom Referenz-Portfolio Advisor</b>          Der Erfolg des Referenz-Portfolios hangt von der Auswahl erfolgreicher Referenz-Portfolio Bestandteile durch den Referenz-Portfolio Advisor ab und es kann keine Gewahr dafur ubernommen werden, dass der Referenz-Portfolio Advisor hierzu tatsachlich in der Lage ist. Insbesondere konnen subjektive (anstelle von systematischen) Entscheidungen des Referenz-Portfolio Advisors einen Ruckgang des Wertes des virtuellen Referenz-Portfolios bewirken (oder einen Anstieg verhindern), was durch weniger subjektive Entscheidungen hatte vermieden werden konnen.</p> <p><b>Abhangigkeit von Mitarbeitern in Schlusselpositionen</b>          Sollte der Referenz-Portfolio Advisor die Dienste bestimmter Schlusselpersonen verlieren, konnte dies die Fahigkeit des Referenz-Portfolio Advisors beeinflussen, seine Aufgaben zu erfullen.</p> <p><b>Automatische Beendigung der Wertpapiere</b>          Gema den Bedingungen werden die Wertpapiere automatisch gekundigt und getilgt, wenn die BHF-BANK AG in ubereinstimmung mit dem mageblichen Referenz-Portfolio Vertrag nicht mehr als Referenz-Portfolio Advisor fungiert. Dies kann einen erheblichen Einfluss auf den Wert der Wertpapiere haben.</p>
	<p>Risikohinweis darauf, dass der Anleger seinen Kapitaleinsatz ganz oder teilweise verlieren konnte.</p>	<p>Investoren tragen das Risiko der Verschlechterung der finanziellen Leistungsfahigkeit der Emittentin und der daraus folgenden moglichen Unfahigkeit der Emittentin ihren Verpflichtungen unter den Wertpapieren nachzukommen. Potenzielle Erwerber mussen deshalb bereit und in der Lage sein, Verluste des eingesetzten Kapitals bis hin zum Totalverlust</p>

		<p>hinzunehmen. In jedem Falle sollten Erwerber der Wertpapiere ihre jeweiligen wirtschaftlichen Verhältnisse daraufhin überprüfen, ob sie in der Lage sind, die mit dem Wertpapier verbundenen <b>Verlustrisiken</b> zu tragen.</p>

E.4	Für die Emission/das Angebot wesentliche Interessen, einschließlich Interessenkonflikten.	Der Emittentin sind, mit Ausnahme des Managers und des Referenz-Portfolio Advisor im Hinblick auf ihre Gebühren, keine an der Emission der Wertpapiere beteiligten Personen bekannt, die ein wesentliches Interesse an dem Angebot haben.

Diese Gebühr fällt auf täglicher Basis an und wird von der Berechnungsstelle von dem Level des Referenz-Portfolio abgezogen (die "<b>Referenz-Portfolio Beratungsgebühr</b>").</p>

		<p>Die Emittentin erhält eine quartalsweise Gebühr in Höhe von 0,125% (0,50% pro Jahr) des Levels des Referenz-Portfolios, täglich anfallend, zuzügl. der Anpassungsgebühr; diese Gebühren werden von der Berechnungsstelle von dem Level des Referenz-Portfolio abgezogen (die "UBS Verwaltungsgebühr"). Die "Anpassungsgebühr" fällt für jede Anpassung innerhalb des Referenz-Portfolios an und stellt einen prozentualen Anteil an dem virtuellen Volumen einer Ver- oder Ankaufs einer Komponente dar. Die Anpassungsgebühr beträgt 0,10%. Falls die Anzahl von Anpassungen innerhalb eines Jahres 30 übersteigt, dann beträgt die Anpassungsgebühr für diesen zusätzlichen, die Anzahl von 30 übersteigenden Anpassungen 0,20%. Falls die Anzahl von Anpassungen innerhalb eines Jahres 50 übersteigt, dann beträgt die Anpassungsgebühr für diesen zusätzlichen, die Anzahl von 50 übersteigenden Anpassungen 0,40%.</p> <p>Der Referenz-Portfolio Advisor ist nur dann berechtigt, innerhalb eines Jahres über 50 Anpassungen vorzunehmen, wenn das virtuelle Volumen der Anpassung 10% des virtuellen Gesamtwerts des Referenz-Portfolios beträgt oder übersteigt. Die Gesamtanzahl von Anpassungen ist auf 80 pro Jahr beschränkt.</p>

## II. SECURITIES NOTE

### A. RISK FACTORS

The different risk factors associated with an investment in the Securities are outlined below. Investments in the Securities should not be made until all the factors relevant to the Securities have been acknowledged and carefully considered. When making decisions relating to investments in the Securities, potential investors should consider all information contained in the Prospectus and, **if necessary, consult their legal, tax, financial or other advisor.**

#### **I. Issuer specific Risks**

The Securities entails an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the risk that UBS AG becomes temporarily or permanently unable to meet its obligations under the Securities.

**In order to assess the risks related to the Issuer of the Securities, potential investors should consider the risk factors described in the section "Risk Factors" in the Registration Document of UBS AG, as supplemented by Supplement No. 1 dated 29 August 2013 and from time to time.**

#### **II. Security specific Risks**

Investing in the Securities involves certain risks. Among others, these risks may take the form of equity market, commodity market, bond market, foreign exchange, interest rate, market volatility and economic and political risks and any combination of these and other risks. The material risks are presented below. Prospective investors should be experienced with regard to transactions in instruments such as the Securities and in the notional Reference Portfolio and its respective Reference Portfolio Components. **Prospective investors should understand the risks associated with an investment in the Securities and shall only reach an investment decision, after careful considerations with their legal, tax, financial and other advisors of (i) the suitability of an investment in the Securities in the light of their own particular financial, fiscal and other circumstances; (ii) the information set out in this document and (iii) the notional Reference Portfolio and its respective Reference Portfolio Components.**

An investment in the Securities should only be made after assessing the direction, timing and magnitude of potential future changes in the value of the notional Reference Portfolio, as the value of the Securities and, hence, any amount, if any, payable according to the Terms and Conditions of the Securities will be dependent, *inter alia*, upon such changes. More than one risk factor may have simultaneous effects with regard to the Securities, so that the effect of a particular risk factor is not predictable. In addition, more than one risk factor may have a compounding effect which may not be predictable. No assurance can be given with regard to the effect that any combination of risk factors may have on the value of the Securities.

Potential investors of the Securities should recognise that the Securities **constitute a risk investment** which can lead to a **total loss** of their investment in the Securities. Securityholders will incur a loss, if the amounts received in accordance with the Terms and Conditions of the Securities are below the purchase price of the Securities (including the transaction costs). Each investor bears the risk of the Issuer's financial situation worsening and the potential subsequent inability of the Issuer to pay its obligations under the Securities. Potential investors must therefore be prepared and able to sustain a partial or even a **total loss** of the invested capital. Any investors interested in purchasing the Securities should assess their financial situation, to ensure that they are in a position to bear the **risks of loss** connected with the Securities.

None of the Securities vests a right to payment of fixed or variable interest or dividends and, as such, they **generate no regular income**. Therefore, potential reductions in the value of the Securities cannot be offset by any other income from the Securities.

**It is expressly recommended that potential investors familiarise themselves with the specific risk profile of the product type described in this Prospectus and seek the advice of a professional, if necessary.**

1. **Special risks related to specific features of the Security structure**

Prior to investing in the Securities, potential investors should note that the following special features of the Securities may have a negative impact on the value of the Securities or, as the case may be, on any amount, if any, payable according to the Terms and Conditions of the Securities and that the Securities accordingly have special risk profiles:

**Extent of participation in the notional Reference Portfolio**

Potential investors should be aware that the application of the Ratio within the determination of the Security Right results in the Securities being in economic terms similar to a direct investment in the notional Reference Portfolio, but being nonetheless not fully comparable with such a direct investment, in particular because the Securityholders do not participate in the relevant performance of the notional Reference Portfolio by a 1:1 ratio, but by the proportion of the Ratio.

**Currency exchange rate risk**

The value of the Reference Portfolio Components comprised in the notional Reference Portfolio may be determined in currencies other than the Redemption Currency. Potential investors should, therefore, be aware that investments in these Securities could entail risks due to fluctuating exchange rates, and that the risk of loss does not depend solely on the performance of the Reference Portfolio Components comprised in the notional Reference Portfolio, but also on unfavourable developments in the value of the foreign currency, currency unit or calculation unit.

Such developments can additionally increase the Securityholders' exposure to losses, because an unfavourable performance of the relevant currency exchange rate may correspondingly decrease the value of the purchased Securities during their term or, as the case may be, the level of the Redemption Amount or, as the case may be, the Termination Amount. Currency exchange rates are determined by factors of offer and demand on the international currency exchange markets, which are themselves exposed to economic factors, speculations and measures by governments and central banks (for example monetary controls or restrictions).

**Extension of the Term of the Securities at the option of the Issuer**

Potential investors in the Securities should also be aware that according to the Terms and Conditions of the Securities, the Issuer is entitled to extend, by giving notice to the Securityholder prior to the then existing Expiration Date (or any later expiration date resulting from any extension of the maturity of the Securities) the maturity of all then outstanding Securities for an additional period of three (3) years, in which case the "Expiration Date" shall be deemed to be the date falling three (3) years after the scheduled Expiration Date (the "Issuer Extension Option"). There is no limit to the number of times the Issuer may extend the maturity of the Securities. **In case that the Issuer exercises the Issuer Extension Option and unless a Securityholder terminates the Securities held by it in accordance with the Terms and Conditions of the Securities by exercising the Securityholder Non-Extension Option, investors in the Securities will receive any final payments under the Securities later than scheduled at the Issue Date of the Securities.**

2. **No statutory or voluntary deposit guarantee scheme**

The Issuer's obligations relating to the Securities are not protected by any statutory or voluntary deposit guarantee system or compensation scheme. **In the event of insolvency of the Issuer, investors may thus experience a total loss of their investment in the Securities.**

3. **Termination and Early Redemption at the option of the Issuer**

Potential investors in the Securities should furthermore be aware that the Issuer is under certain circumstances pursuant to the Terms and Conditions of the Securities, entitled to terminate and redeem the Securities in total prior to the Maturity Date. In case the Issuer terminates and redeems the Securities prior to the Maturity Date, the Securityholder is entitled to demand the payment of an amount in relation to this early redemption. However, the Securityholder is not entitled to request any further payments on the Securities after the Termination Date.

The Securityholder, therefore, bears the risk of not participating in the performance of the notional Reference Portfolio and its respective Reference Portfolio Components to the expected extent and during the expected period and, therefore, receives less than its capital invested.

In the case of a termination of the Securities by the Issuer, the Securityholder bears the risk of a reinvestment, *i.e.* the investor bears the risk that it will have to re-invest the Termination Amount, if

any, paid by the Issuer in the case of termination at market conditions, which are less favourable than those existing prevailing at the time of the acquisition of the Securities.

4. **Possible fluctuations in the Level of the Reference Portfolio after termination of the Securities**

In the event that the term of the Securities is terminated early by the Issuer pursuant to the Terms and Conditions of the Securities, potential investors of the Securities should note that any adverse fluctuations in the Level of the notional Reference Portfolio between the announcement of the termination by the Issuer and the determination of the level of the notional Reference Portfolio relevant for the calculation of the then payable Termination Amount are borne by the Securityholders.

5. **Adverse impact of adjustments of the Security Right**

It cannot be excluded that certain events occur or certain measures are taken (by parties other than the Issuer) in relation to the notional Reference Portfolio, which potentially lead to changes to the notional Reference Portfolio or result in the underlying concept of the notional Reference Portfolio being changed, so-called potential adjustment events. In the case of the occurrence of a potential adjustment event, the Issuer shall be entitled to effect adjustments according to the Terms and Conditions of the Securities to account for these events or measures. The adjustments to the Constituents comprised in the notional Reference Portfolio might have a negative impact on the value of the Securities.

6. **Determinations by the Calculation Agent**

The Calculation Agent has certain discretion under the Terms and Conditions of the Securities (i) to determine whether certain events have occurred (in particular, the occurrence of a potential adjustment event or a Market Disruption in accordance with the Terms and Conditions of the Securities), (ii) to determine any resulting adjustments and calculations, (iii) also to make adjustments to the Reference Portfolio and (iv) to postpone valuations or payments under the Securities. The Calculation Agent will make any such determination at its reasonable discretion and in a commercially reasonable manner. Potential investors should be aware that any determination made by the Calculation Agent may have an impact on the value and financial return of the Securities. Any such discretion exercised by, or any determination made by, the Calculation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer and the Securityholders.

7. **Other factors affecting the value**

The value of a Security is determined not only by changes in the notional Reference Portfolio, but also by a number of other factors. Since several risk factors may have simultaneous effects on the Securities, the effect of a particular risk factor cannot be predicted. In addition, several risk factors may have a compounding effect which may not be predictable. No assurance can be given with regard to the effect that any combination of risk factors may have on the value of the Securities.

These factors include the term of the Securities, the frequency and intensity of price fluctuations (volatility), as well as the prevailing interest rate and dividend levels. A decline in the value of the Security may therefore occur even if the Level of the notional Reference Portfolio remains constant.

Prospective investors of the Securities should be aware that an investment in the Securities involves a valuation risk with regard to the notional Reference Portfolio. They should have experience with transactions in securities with a value derived from the notional Reference Portfolio and its respective Reference Portfolio Components. The value of the notional Reference Portfolio may vary over time and may increase or decrease by reference to a variety of factors which may include macro economic factors and speculation. In addition, the historical performance of the notional Reference Portfolio and its respective Reference Portfolio Components is not an indication of its future performance. Changes in the prices in relation to the notional Reference Portfolio and its respective Reference Portfolio Components will affect the trading price of the Securities, and it is impossible to predict whether the prices in relation to the notional Reference Portfolio and its respective Reference Portfolio Components will rise or fall.

8. **Effect of ancillary costs**

Commissions and other transaction costs incurred in connection with the purchase or sale of Securities may result in charges, particularly in combination with a low order value, **which can substantially reduce any Redemption Amount, if any, to be paid under the Securities.** Before acquiring a Security, potential investors should therefore inform themselves of all costs incurred through the purchase or sale of the Security, including any costs charged by their custodian banks upon purchase and maturity of the Securities.

9. **Transactions to offset or limit risk**

Potential investors of the Securities should not rely on the ability to conclude transactions at any time during the term of the Securities that will allow them to offset or limit relevant risks. This depends on the market situation and the prevailing conditions. Transactions designed to offset or limit risks might only be possible at an unfavourable market price that will entail a loss for investors.

10. **Trading in the Securities / Illiquidity**

It is not possible to predict if and to what extent a secondary market may develop in the Securities or at what price the Securities will trade in the secondary market or whether such market will be liquid or illiquid.

If so specified in this Prospectus, applications will be or have been made to the Security Exchange(s) specified for admission or listing of the Securities. If the Securities are admitted or listed, no assurance is given that any such admission or listing will be maintained. The fact that the Securities are admitted to trading or listed does not necessarily denote greater liquidity than if this were not the case. If the Securities are not listed or traded on any exchange, pricing information for the Securities may be more difficult to obtain and the liquidity of the Securities may be adversely affected. The liquidity of the Securities may also be affected by restrictions on the purchase and sale of the Securities in some jurisdictions. Additionally, the Issuer has the right (but no obligation) to purchase Securities at any time and at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold or surrendered for cancellation.

In addition, it cannot be excluded that the number of Securities actually issued and purchased by investors is less than the intended Issue Size of the Securities. Consequently, there is the risk that due to the low volume of Securities actually issued the liquidity of the Securities is lower than if all Securities were issued and purchased by investors.

UBS Limited, 1 Finsbury Avenue, London EC2M 2PP, United Kingdom (the "**Manager**") intends, under normal market conditions, to provide bid and offer prices for the Securities of an issue on a regular basis. However, the Manager makes no firm commitment to the Issuer to provide liquidity by means of bid and offer prices for the Securities, and assumes no legal obligation to quote any such prices or with respect to the level or determination of such prices. **Potential investors therefore should not rely on the ability to sell Securities at a specific time or at a specific price.**

11. **Representation and Custody of the Securities**

The Securities are issued as uncertificated securities (*Wertrechte*; "**Uncertificated Securities**") pursuant to article 973c of the Swiss Code of Obligations ("**CO**"). Uncertificated Securities are registered in the main register of a Swiss depository (*Verwahrungsstelle*; "**FISA Depository**") according to the Swiss Federal Act on Intermediated Securities ("**FISA**"). Upon (a) entering the Uncertificated Securities into the main register of a FISA Depository and (b) booking the Securities into a securities account at a FISA Depository, the Uncertificated Securities will constitute intermediated securities within the meaning of the FISA (*Bucheffekten*; "**Intermediated Securities**"). The Issuer will normally choose SIS SIX AG, Baslerstrasse 100, CH-4600 Olten, Switzerland, ("**SIS**") as FISA Depository, but reserves the right to choose any other FISA Depository, including UBS AG.

Intermediated Securities are transferred and otherwise disposed of in accordance with the provisions of the FISA and the relevant agreements with the respective FISA Depository (in particular, neither the Intermediated Securities nor any rights pertaining to the Intermediated Securities may be transferred by way of assignment pursuant to articles 164 et seq. CO without the prior written consent of the Issuer).

The holders of the Securities shall at no time have the right to demand (a) conversion of Uncertificated Securities into physical securities and/or (b) delivery of physical securities. The Issuer may convert Uncertificated Securities constituting Intermediated Securities into Intermediated Securities based on global notes (*Globalurkunden*; "**Swiss Global Notes**") pursuant to article 973b CO) and *vice versa* at any time and without consent of the holders of the respective Securities. For the avoidance of doubt and regardless of such conversion, both Swiss Global Securities and Uncertificated Securities will at any time constitute Intermediated Securities.

**The Issuer shall not be held liable under any circumstances for any acts and omissions of any FISA Depository or any other relevant clearing system as well as for any losses which might occur to a**

Securityholder out of such acts and omissions and for the records relating to, or payments made in respect of, beneficial interests in the Intermediated Securities in particular.

12. **Pricing of Securities**

Unlike most other securities the pricing of these Securities is regularly not based on the principle of offer and demand in relation to Securities, since the secondary market traders might quote independent bid and offer prices. This price calculation is based on price calculation models prevailing in the market, whereas the theoretical value of the Securities is, in principle, determined on the basis of the value of the Reference Portfolio Components comprised in the notional Reference Portfolio and the value of other features attached to the Securities, each of which features may, in economic terms, be represented by another derivative financial instrument.

The potentially quoted prices do not necessarily correspond to the Securities' intrinsic value as determined by a trader.

13. **Expansion of the spread between bid and offer prices**

In special market situations, where the Issuer is completely unable to conclude hedging transactions, or where such transactions are very difficult to conclude, the spread between the bid and offer prices may be temporarily expanded, in order to limit the economic risks to the Issuer. Therefore, Securityholders who wish to sell their Securities via a stock exchange or in the over-the-counter trading might sell at a price considerably lower than the actual price of the Securities at the time of their sale.

14. **Borrowed funds**

If the purchase of Securities is financed by borrowed funds and investors' expectations are not met, they not only suffer the loss incurred under the Securities, but in addition also have to pay interest on and repay the loan. This produces a substantial increase in investors' risk of loss. Investors of Securities should never rely on being able to redeem and pay interest on the loan through gains from a Securities transaction. Rather, before financing the purchase of a Security with borrowed funds, the investors' financial situations should be assessed, as to their ability to pay interest on or redeem the loan immediately, even if they incur losses instead of the expected gains.

15. **Effect of hedging transactions by the Issuer on the Securities**

The Issuer may use all or some of the proceeds received from the sale of the Securities to enter into hedging transactions relating to the risks incurred in issuing the Securities. In such a case, the Issuer or one of its affiliated companies may conclude transactions that correspond to the Issuer's obligations arising from the Securities. Generally speaking, this type of transaction will be concluded before or on the Issue Date of the Securities, although these transactions can also be concluded after the Securities have been issued. The Issuer or one of its affiliated companies may take the necessary steps for the closing out of any hedging transactions, on or prior to the Valuation Date. It cannot be excluded that the price of the Reference Portfolio Components comprised in the notional Reference Portfolio might, in certain cases, be affected by these transactions. In the case of Securities whose value depends on the occurrence of a specific event in relation to the notional Reference Portfolio, entering into or closing out such hedging transactions may affect the likelihood of this event occurring or not occurring.

16. **Taxation in relation to the Securities**

Potential investors should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Securities are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for innovative financial instruments such as the Securities. Potential investors are advised not to rely upon the tax summary contained in this Prospectus but to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, sale and redemption of the Securities. Only these advisors are in a position to duly consider the specific situation of the potential investor.

17. **Payments under the Securities may be subject to U.S. withholding under FATCA**

The Issuer and other financial institutions through which payments on the Securities are made may be required to withhold at a rate of up to 30 per cent. on all, or a portion of, payments made after 31 December 2016 in respect of any Securities which are issued (or materially modified) after 1 January 2014 or that are treated as equity for U.S. federal tax purposes whenever issued, pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code (commonly referred to as "FATCA", the Foreign Account Tax Compliance Act).

The Issuer is a foreign financial institution (“FFI”) for the purposes of FATCA. If the Issuer becomes obliged to provide certain information on its account holders pursuant to a FATCA agreement with the U.S. Internal Revenue Service (“IRS”) (i.e. the Issuer is a “Participating FFI”) then withholding may be triggered if: (i) an investor does not provide information sufficient for the relevant Participating FFI to determine whether the investor is a U.S. person or should otherwise be treated as holding a “United States Account” of the Issuer, (ii) an investor does not consent, where necessary, to have its information disclosed to the IRS or (iii) any FFI that is an investor, or through which payment on the Securities is made, is not a Participating FFI. An investor that is an FFI that is withheld upon generally will be able to obtain a refund only to the extent an applicable income tax treaty with the United States entitles such institution to a reduced rate of tax on the payment that was subject to withholding under these rules, provided the required information is furnished in a timely manner to the IRS.

The United States and Switzerland have entered into an intergovernmental agreement to implement FATCA (the “Swiss IGA”); however, under the Swiss IGA, FFIs that are treated as resident in Switzerland will still be required to enter into an agreement with the IRS to avoid the imposition of FATCA withholding.

The application of FATCA to interest, principal or other amounts paid with respect to the Securities is not clear. If an amount in respect of FATCA were to be deducted or withheld from interest, principal or other payments on the Securities, the Issuer will have no obligation to pay additional amounts or otherwise indemnify a holder for any such withholding or deduction by the Issuer, a Paying Agent or any other party, to any person where such person (other than where such person is acting as an agent of the Issuer) is not entitled to receive payments free of such withholding. As a result, investors may, if FATCA withholding applies, receive less interest or principal than expected. If the Issuer becomes a Participating FFI, the determination of whether FATCA withholding may be imposed will depend on the status of each recipient of payments between the Issuer and investors. The Issuer does not expect in practice that payments made either by it or by its Paying Agents in relation to the Securities held in clearing systems will be subject to FATCA withholding as it is expected that the Paying Agents and the relevant clearing systems will be Participating FFIs to the extent necessary to avoid being subject to FATCA withholding. However, it is possible that other parties may be required to withhold on payments on account of FATCA as set out above.

In addition, U.S. withholding tax at a rate of 30% (or lower treaty rate) may be imposed on payments, accruals, or adjustments that are determined by reference to dividends from sources within the United States. In case of an Reference Portfolio Component, providing for dividends from sources within the United States, it is possible that these rules could apply to the Securities. If an amount in respect of such U.S. withholding tax were to be deducted or withheld from payments on the Securities, none of the Issuer, any paying agent or any other person would, pursuant to the Terms and Conditions of the Securities, be required to pay additional amounts as a result of the deduction or withholding of such tax.

The IRS has not yet issued regulations that govern how FATCA will apply to payments by persons like the Issuer or on instruments like the Securities. The United States is in the process of negotiating intergovernmental agreements to implement FATCA with a number of other jurisdictions. Different rules than those described above may apply if a Holder of Securities is resident in a jurisdiction that has entered into an intergovernmental agreement to implement FATCA.  **Holders of Securities should, consequently, be aware that payments under the Securities may under certain circumstances be subject to U.S. withholding under FATCA.**

#### 18. Changes in Taxation in relation to the Securities

The considerations concerning the taxation of the Securities set forth in this Securities Note reflect the opinion of the Issuer on the basis of the legal situation identifiable as of the date hereof. However, a different tax treatment by the fiscal authorities and tax courts cannot be excluded. In addition, the tax considerations set forth in this Securities Note cannot be the sole basis for the assessment of an investment in the Securities from a tax point of view, as the individual circumstances of each investor also have to be taken into account. Therefore, the tax considerations set forth in this Securities Note are not to be deemed any form of definitive information or tax advice or any form of assurance or guarantee with respect to the occurrence of certain tax consequences. Each investor should seek the advice of his or her personal tax consultant before deciding whether to purchase the Securities.

Neither the Issuer nor the Managers assumes any responsibility vis-à-vis the Securityholders for the tax consequences of an investment in the Securities.

### 19. Potential conflicts of interest

The Issuer and affiliated companies may participate in transactions related to the Securities in some way, for their own account or for account of a client. Such transactions may not serve to benefit the Securityholders and may have a positive or negative effect on the value of the Reference Portfolio Components comprised in the notional Reference Portfolio, and consequently on the value of the Securities. Furthermore, companies affiliated with the Issuer may become counterparties in hedging transactions relating to obligations of the Issuer stemming from the Securities. As a result, conflicts of interest can arise between companies affiliated with the Issuer, as well as between these companies and investors, in relation to obligations regarding the calculation of the price of the Securities and other associated determinations. In addition, the Issuer and its affiliates may act in other capacities with regard to the Securities, such as calculation agent, paying agent and administrative agent.

Furthermore, the Issuer and its affiliates may issue other derivative instruments relating to the notional Reference Portfolio; introduction of such competing products may affect the value of the Securities. The Issuer and its affiliated companies may receive non-public information relating to the notional Reference Portfolio, and neither the Issuer nor any of its affiliates undertakes to make this information available to Securityholders.

Within the context of the offering and sale of the Securities, the Issuer or any of its affiliates may directly or indirectly pay fees in varying amounts to third parties, such as distributors or investment advisors, or receive payment of fees in varying amounts, including those levied in association with the distribution of the Securities, from third parties. Potential investors should be aware that the Issuer may retain fees in part or in full. The Issuer or, as the case may be, the Managers, upon request, will provide information on the amount of these fees.

## III. Reference Portfolio specific Risks

The Reference Portfolio aims to replicate (i) the performance of a long only basket of Synthetic Discount Certificates linked to currencies and potentially exchange traded funds (each an "ETF" or a "Fund") linked to currency exposure (the "Constituents") and (ii) from time to time, a cash position accruing interest at the Euro OverNight Index Average (Eonia<sup>®</sup>) rate (the "Cash Position", which together with the Constituents shall be referred to as the "Reference Portfolio Components"), less fees and expenses, all as described in the sections "Key Terms and Definitions of the Securities" and "Information about the Reference Portfolio". Investing in the Securities, hence also involves certain risks that are related to the notional Reference Portfolio:

### 1. General risks related to the notional Reference Portfolio

Investors should be aware that some risks are related to the notional Reference Portfolio in general:

#### Risk of fluctuations in value

The performance of the notional Reference Portfolio is subject to fluctuations. Therefore, Securityholders cannot foresee what consideration they can expect to receive for the Securities they hold on a certain day in the future. When the Securities are redeemed, exercised or otherwise disposed of on a certain day, they may be worth a lot less than if they were disposed of at a later or earlier point in time.

#### Uncertainty about future performance

It is not possible to reliably predict the future performance of the notional Reference Portfolio and the Reference Portfolio Components respectively. Likewise, the historical data of the notional Reference Portfolio and the Reference Portfolio Components respectively, does also not allow for any conclusions to be drawn about the future performance of the notional Reference Portfolio and the Securities.

#### Consequence of the linkage to a notional Reference Portfolio

The Securities have the special feature that the calculation of the level of the Settlement Amount depends on the performance of a notional Reference Portfolio comprising several Reference Portfolio Components. As a result, fluctuations in the value of one Reference Portfolio Component may be offset or intensified by fluctuations in the value of other Reference Portfolio Components comprised in the notional Reference Portfolio. Even in the case of a positive performance of one or more Reference Portfolio Components comprised in the notional Reference Portfolio, the performance of notional

Reference Portfolio as a whole may be negative if the performance of the other Reference Portfolio Components comprised in the notional Reference Portfolio is negative to a greater extent.

## 2. Specific risks related to the notional Reference Portfolio

In addition, the following risks are specifically related to the notional Reference Portfolio:

### Notional Reference Portfolio

The notional Reference Portfolio is a synthetic portfolio which has been created and is managed and calculated solely for the purposes of being used as underlying of securities issued by UBS. There is no obligation on the Issuer to purchase or hold any Reference Portfolio Components and Securityholders have no rights in, or to require delivery of, any of such Reference Portfolio Components at any time. References to any balancing, rebalancing, disposal, acquisition or financing of a Reference Portfolio Component have to be understood as reference to a notional transaction and should not be construed as imposing any obligation on the Issuer or any of its affiliates or subsidiaries, the Manager, the Calculation Agent or any person actually directly or indirectly, physically or synthetically to acquire, dispose of or effect or take delivery of, or effect transactions in, any securities, investments or other property, but are references to the change in the value of, or in notional amounts to be determined for the purposes of calculating the value of, and relate solely to the calculation of the value of any amounts payable in respect of the Securities.

### Numerous Constituents

The notional Reference Portfolio is composed of numerous Constituents. Despite the fact that Constituents' diversification is designed to help to control declines in the value of the notional Reference Portfolio, it cannot be guaranteed that the use of numerous different Constituents will be successful for these purposes and will not result in overall losses.

### Limited historic data of the Reference Portfolio

The notional Reference Portfolio has been created on 30 September 2013. Accordingly, as at the date of the Prospectus only limited historic data is available on the basis of which investors might evaluate the likely performance of the notional Reference Portfolio. The past performance of the Reference Portfolio Components notionally comprised in the notional Reference Portfolio (which generally do not reflect the same fee levels as the fees incurred in relation to the Reference Portfolio), is not necessarily indicative of the future performance for the notional Reference Portfolio.

### No payment of interest or dividends

None of the Securities vests a right to payment of interest or dividends and, as such, they **generate no regular income**. Therefore, potential reductions in the value of the Security cannot be offset by any other income from the Security.

### Administration fees and expenses in relation to the Reference Portfolio

A quarterly Reference Portfolio advisory fee, an adjustment fee (levied for each adjustment) and a quarterly UBS management fee will be deducted from the level of the Reference Portfolio and, hence, result in a reduction in the level of the Reference Portfolio.

### No limitation on the universe of Reference Portfolio Components

There are no material restrictions on the instruments within the predefined universe of Reference Portfolio Components into which the Reference Portfolio Advisor may notionally invest.

### Composition of the Reference Portfolio

The Reference Portfolio Advisor agreed with the Calculation Agent to adhere to specific guidelines (the "**Reference Portfolio Guidelines**") when selecting and adjusting the notional Reference Portfolio Components.

The selection of the initial Reference Portfolio Components, their weightings and any of the rebalancings is made in the reasonable discretion of the Reference Portfolio Advisor. Rebalancings will be effected by the Reference Portfolio Advisor having consulted the Calculation Agent.

The Calculation Agent has the right to reject constituents that form part of a Rebalancing (a) should a situation arise whereby the Issuer due to applicable rules, regulations and internal or external restrictions would not be permitted to hold investments in the envisaged Constituents, (b) should a Market Disruption prevail on the date of the Rebalancing regarding the relevant constituents, (c) should the Issuer incur materially increased (as compared with circumstances existing on the Issue Date)

amount of tax, duty, expense or fee (other than brokerage commissions) to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the price risk of issuing and performing its obligations with respect to the Securities, or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer shall not be considered, (d) the Issuer is unable, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge price risks of issuing and performing its obligations with respect to the Securities, or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s), and (e) where the Rebalancing is not in line with these Reference Portfolio Guidelines.

The Reference Portfolio Advisor will select the Reference Portfolio Components with due diligence. No assurance can be made, however, that the selection of Reference Portfolio Components will be successful, and neither the Reference Portfolio Advisor nor the Calculation Agent are responsible for the market performance of the Reference Portfolio Components.

Notwithstanding the above, the Reference Portfolio Advisor is restricted by the Reference Portfolio Guidelines in its selection of Reference Portfolio Components; it may therefore lack the necessary flexibility to benefit from any market developments not covered by the Reference Portfolio Guidelines.

### 3. Specific risks related to the notional Reference Portfolio Components

Investors should be aware that some risks are related to the Synthetic Discount Certificates and ETFs, which will be comprised in the notional Reference Portfolio. Consequently, any investment in the Securities is, to a certain extent, subject to market risks similar to a direct investment in Synthetic Discount Certificates and ETFs.

#### Synthetic Discount Certificates used as Reference Portfolio Components

The notional Reference Portfolio will mirror the performance of various Synthetic Discount Certificates issued by UBS. Consequently, any investment in the Securities is, to a certain extent, subject to market risks similar to direct investment in the Synthetic Discount Certificates. **Potential investors should seek respective advice and familiarise themselves with the specific risk profile of Synthetic Discount Certificates and seek the advice of a professional, if necessary.**

#### **Market Price Developments**

The market price development of the Securities linked to the notional Reference Portfolio also depends on the development of the Synthetic Discount Certificates comprised in the notional Reference Portfolio as Reference Portfolio Components. **Investors should be aware that the Synthetic Discount Certificates comprised in the notional Reference Portfolio for calculation purposes are notionally issued by UBS. As result, any worsening of the financial situation of the Issuer will automatically lead to a decrease in value of the Synthetic Discount Certificates. Any such decrease in value of the Synthetic Discount Certificates will have a negative impact on the Level of the Reference Portfolio and the value of the Securities respectively.**

#### **No warranty or representation as to the future performance of the Synthetic Discount Certificates**

The Issuer makes no warranty or representation whatsoever, express or implied, as to the future performance of the Synthetic Discount Certificates comprised in the notional Reference Portfolio.

#### ETFs used as Reference Portfolio Components

The notional Reference Portfolio may mirror various exchange traded funds linked to currency exposure. Consequently, any investment in the Securities is, to a certain extent, subject to market risks similar to direct investment in the ETFs. **Potential investors should seek respective advice and familiarise themselves with the specific risk profile of ETFs and seek the advice of a professional, if necessary.**

#### **Concept of an Exchange Traded Fund; Listing**

An ETF is a fund managed by a domestic or non-domestic management company or, as the case may be, a fund in corporate fund, whose fund units ("Fund Units") are listed on a securities exchange. No assurance is given that such admission or listing will be maintained during the whole life of the Securities. In addition, a listing does not imply that the Fund Units are liquid at any time and, hence, may be sold via the securities exchange at any time, since trading in the securities exchange may be suspended in accordance with the relevant trading rules.

**Pricing; Use of Estimates**

The price of ETFs mainly depends in the price per unit of the ETF and, consequently, on the aggregate value of assets held by the ETF less any liabilities, so-called net asset value. Any negative performance or losses of the securities or other investments made by the Fund for the purposes of replicating the performance of a benchmark (*cf.* below "Replication of the performance of a benchmark") will result in a loss of the Fund and a decline in the value of the Fund Units. Even a broad spread of its investments and a strong diversification of the Fund's investments cannot exclude the risk that any negative development on certain markets or exchanges will lead to a decline in the price per unit of the ETF.

As ETFs generally calculate their net asset value on a daily basis only, the price of the ETF as continuously published by the securities exchange is usually based on the estimated net asset values. These estimates may differ from the final net asset value as subsequently published by the Funds. Therefore, the general risks during trading hours exists that the performance of the ETF and of its actual net asset value may deviate.

**Replication of the performance of a benchmark; tracking error**

ETFs are designed to replicate as closely as possible the performance of an index, basket or specific single assets (each a "**Benchmark**"). However, the ETF conditions can allow a Benchmark to be substituted. Therefore, an ETF might not always replicate the original Benchmark.

For the purpose of tracking a Benchmark, ETFs can use full replication and invest directly in all components comprised in the Benchmark, synthetic replication using for example a swap, or other tracking techniques such as sampling. The value of the ETFs is therefore in particular based on the performance of the holdings used to replicate the Benchmark. It cannot be excluded that the performance of the ETF differs from the performance of the Benchmark (tracking error).

Unlike other collective investment schemes, ETFs are usually not actively managed by the management company of the ETF. In fact, investment decisions are determined by the relevant Benchmark and its components. In case that the underlying Benchmark shows a negative performance, ETFs are subject to an unlimited performance risk in particular when they are using full replication or synthetic replication techniques. This can have a negative impact on the performance of the Securities.

Tracking a Benchmark typically entails further risks:

- An ETF using a full replication technique for tracking the performance of the Benchmark may not be able to acquire all components of that Benchmark or sell them at reasonable prices. This can affect the ETF's ability to replicate the Benchmark and may have a negative effect on the ETF's overall performance.
- ETFs using swaps for synthetic replication of the Benchmark may be exposed to the risk of a default of their swap counterparties. ETFs might retain substituting contractual rights in case of default of the swap counterparty. However, it cannot be excluded that the ETF does not receive or not receive the full amount due to it if the Swap counterparty were not in default.
- ETFs replicating the Benchmark using sampling techniques (i.e. not using full replication and without using swaps) may create portfolios of assets which are not Benchmark components at all or do only comprise some components of the Benchmark. Therefore, the risk profile of such ETF is not necessarily consistent with the risk profile of the Benchmark.
- If ETFs use derivatives to replicate or to hedge its positions, this may result in losses which are significantly higher than any losses of the Benchmark (leverage effect).

**Concentration risks**

An ETF may in accordance with its fund rules concentrate its assets with a focus on certain countries, regions or industry sectors while replicating the Benchmark. This can result in the ETFs being subject to a higher volatility as compared to funds with a broader diversification as regards countries, regions or industry sectors. The value of investments in certain sectors, countries or regions may be subject to strong volatility within short periods of time. This also applies to ETFs focusing their investments on certain asset classes such as commodities. ETFs investing their assets in less regulated, small and exotic markets, are subject to certain further risks. Such risks may include the risk of government

interventions resulting in a total or partial loss of assets or of the ability to acquire or sell them at the fund's discretion. Such markets may not be regulated in a manner typically expected from more developed markets. If an ETF concentrates its assets in emerging markets, this may involve a higher degree of risk as exchanges and markets in these emerging market countries or certain Asian countries such as Indonesia may be subject to stronger volatility than exchanges and markets in more developed countries. Political changes, foreign currency exchange restrictions, foreign exchange controls, taxes, restrictions on foreign investments and repatriation of invested capital can have a negative impact on the investment result and therefore the value of the Fund Units in the ETF.

### **Currency risks**

In case of the investments of the ETF being denominated in different currencies or in case of the investment and the Fund Units being denominated in a currency other than the currency in which the net asset value is calculated, certain additional correlation risks may apply. These correlation risks depend on the degree of dependency of currency fluctuations of the relevant foreign currency to the currency in which the net asset value is calculated. Hedging transactions, if any, of the ETF may not exclude these risks. Furthermore, it should be noted that the Benchmark may not be denominated in the fund's base currency. If the Benchmark is converted into the ETF currency for determining fees and costs, currency exchange rate fluctuations may have a negative impact on the value of the Fund Units in the ETF.

### **Conflicts of interest**

In the operation of the ETF certain conflicts of interest may arise that can have negative impact on the ETF's performance. For persons involved in the fund management or advisory activities in relation to the ETF conflicts of interest can arise from retrocessions or other inducements. In addition, persons involved in the fund management or advisory activities to the ETF or their employees may provide services such as management, trading or advisory services for third parties at the same time. Although they will usually aim to distribute the investment opportunities equally to their clients, the fund portfolio and portfolios of other clients may differ even if their investment objectives are similar. Any of these persons might be induced to allocate assets first to a portfolio involving the highest fees. Persons providing management, trading or advisory services to the ETF may make recommendations or enter into transactions which are different to those of the ETF or may even compete with the ETF.

### **Fees on different levels**

Fees charged by the ETF may have a significant negative impact on the value of the Fund Units and the net asset value of the ETF. Fees charged in relation to an ETF can be incurred on different levels. Usually management fees are incurred at fund level. In addition, expenses and cost may be incurred when the services of third parties are commissioned in connection with the fund administration. With respect to investments made by the ETF, such as investments in other funds or other collective investment vehicles, further charges might be incurred. This may have a negative impact on these investments and, consequently, in the ETF's performance.

Performance fees may be agreed upon on the level of the ETF. Such fee arrangements can create an inducement to invest assets in a more risk oriented or speculative manner than would be the case if no performance fee arrangement existed. Performance fees may even be incurred where the ETF underperforms the Benchmark. Even if the ETF outperforms its Benchmark, performance fees might be triggered even though the overall fund performance is negative (for example where the Benchmark's performance is negative). Consequently performance fees can be incurred on the level of the ETF even if an investment in the Securities results in a loss to the investor.

### **Limited Supervision**

Funds may not be regulated or may invest in investment vehicles that are not subject to supervision. If unregulated funds become subject to supervision, this may negatively impact the value of the Fund, and, consequently, of the Securities.

### ***Currency Exchange Rates mirrored in the Reference Portfolio Components***

The notional Reference Portfolio will, in addition, (via the Synthetic Discount Certificates and the ETFs) also mirror the performance of various currency exchange rates. Potential investors should hence consider the following risks **specifically related to currency exchange rates**.

Securities linked to currency exchange rates may bear similar market risks to a direct investment in the relevant underlying currency(ies). In particular, this will apply if the relevant underlying currency is the

currency of an emerging market jurisdiction. Therefore, potential investors should be familiar with foreign exchange rates as an asset class. Furthermore, legal restrictions on the free exchangeability may adversely affect the value of the Securities.

The Securities are also linked emerging market currencies. There is an increased risk of significant adverse fluctuations in the performances of the emerging markets currencies as they are currencies of less developed and less stable economies without a stabilizing component that could be provided by one of the major currencies. With respect to any emerging or developing nation, there is the possibility of nationalisation, expropriation or confiscation, political changes, government regulation and social instability. Currencies of emerging economies are often subject to more frequent and larger central bank interventions than the currencies of developed countries and are also more likely to be affected by drastic changes in monetary or exchange rate policies of the relevant countries, with adverse consequences on the tradability/convertibility of the currencies, which may negatively affect the value the Securities.

#### 4. Specific risks related to the Reference Portfolio Advisor

Additional risks are related to the Reference Portfolio Advisor.

##### Dependence on the Reference Portfolio Advisor

The success of the Reference Portfolio depends upon the Reference Portfolio Advisor selecting successful Reference Portfolio Components. There can be no assurance that the Reference Portfolio Advisor will be able to do so. In particular, subjective (as opposed to systematic) decisions made by the Reference Portfolio Advisor may cause the Reference Portfolio to decline (or not to increase) in a manner which less subjective decision making might have avoided.

##### Reliance on Key Individuals

The loss of one or more key individuals could have a material adverse effect on the Reference Portfolio Advisor's ability to perform its responsibilities in relation to the Reference Portfolio.

##### Automatic Termination of the Securities

According to the Terms and Conditions, the Securities will be automatically terminated and redeemed, in case that the BHF-BANK AG ceases in accordance with the relevant Reference Portfolio Advisor agreement to act as Reference Portfolio Advisor. This could have a considerable impact on the value of the Securities.

## Terms and Conditions of the Securities Part 3: General Conditions of the Securities

### § 3 Form of Securities; Title and Transfer; Status

#### (1) Form of Securities

The Securities are issued as Uncertificated Securities and deposited or registered with an intermediary pursuant to article 4 FISA (such as banks and securities dealers; *Verwahrungsstelle*; “FISA Depositary”) to create Intermediated Securities. Intermediated Securities are created upon immobilization of actual securities or Uncertificated Securities and a respective credit to a Securityholder’s securities account with a FISA Depositary (article 4 and 6 FISA).

Intermediated Securities are fungible monetary or membership rights of an investor against an issuer which are credited to an investor’s securities account with a FISA Depositary and which are at the investor’s disposal pursuant to the FISA (article 3 paragraph 1 FISA).

For each series of Securities one single FISA Depositary keeps the main register which is available to the public. Securityholders may obtain information about their entitlement to Intermediated Securities of a certain series of Securities from their FISA Depositary.

#### (2) Securityholder; Title and Transfer

“Securityholder” means any person acknowledged by Swiss law as legal owner of the Securities. The Securityholder shall, for all purposes, be treated by the Issuer and the Security Agents (§ 10 (1)) as the person entitled to such Securities and the person entitled to receive the benefits of the rights represented by such Securities.

Intermediated Securities are transferred upon a Securityholder’s instruction of his/her FISA Depositary and are then credited to the purchaser’s securities account in accordance with articles 24 et seq. FISA and the terms and conditions of the agreements between a Securityholder and his/her FISA Depositary. Securityholders may assert their rights linked to Intermediated Securities (*Rechte an Bucheffekten*) only through their FISA Depositary. Neither the Intermediated Securities nor any rights pertaining to the Intermediated Securities may be transferred by way of assignment pursuant to articles 164 et seq. CO without the prior written consent of the Issuer.

Securityholders will not be entitled to demand delivery of Uncertificated Securities or actual securities (including Swiss Global Securities). Definitive Securities will not be printed.

The Issuer may convert Swiss Global Securities (constituting Intermediated Securities) into Uncertificated Securities (constituting Intermediated Securities) and *vice versa* at any time without consent of the Securityholders of the respective Securities.

#### (3) Status of the Securities

The Securities constitute direct, unsecured and unsubordinated obligations of the Issuer, ranking *pari passu* among themselves and with all other present and future unsecured and unsubordinated obligations of the Issuer, other than obligations preferred by mandatory provisions of law.

### § 4 Settlement; Prescription

#### (1) Settlement of the Securities

The Issuer will, subject to a Market Disruption (§ 9 (3)) and in all cases subject to any applicable fiscal or other laws and regulations in the place of payment or other laws and regulations to which the Issuer agrees to be subject, procure on the relevant Maturity Date by payment of the Redemption Amount or of the Termination Amount, as the case may be, or of any other amount payable under the Conditions in relation to the relevant Maturity Date in the Redemption Currency to be credited via the Paying Agent to the account of the relevant Securityholder via the relevant FISA Depositary pursuant to its applicable rules and regulations.

**(2) Discharging effect**

The Issuer shall be discharged from its redemption obligations or any other payment obligations under these Conditions of the Securities by delivery to the Clearing System in the manner described above.

**(3) Taxes, charges and/or expenses**

All taxes, charges and/or expenses, if any, incurred in connection with the redemption of the Securities or any other payment or delivery obligations under these Conditions of the Securities shall be borne and paid by the relevant Securityholder. The Issuer and the Paying Agent, as the case may be, are entitled, but not obliged, to withhold from any required performance under these Conditions such taxes, charges and/or expenses as be paid by the Securityholder in accordance with the preceding sentence.

**(4) Prescription**

In accordance with Swiss law, claims of any kind against the Issuer arising under the Securities will be prescribed 10 years after the earlier of the date on which the early redemption or the date on which the ordinary redemption of the Securities has become due.

### § 5 Taxes

Payments in respect of the Securities shall in all cases only be made after deduction and withholding of current or future taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected (the "Taxes") under any applicable system of law or in any country which claims fiscal jurisdiction by or for the account of any political subdivision thereof or government agency therein authorised to levy Taxes, to the extent that such deduction or withholding is required by law or administrative practice. The Issuer shall account for the deducted or withheld Taxes with the competent government agencies.

### § 6 Adjustments to the Reference Portfolio

**(1) Changes in the calculation; Making of Adjustments**

Any changes in the calculation (including corrections) of the Reference Portfolio or of the composition or of the weighting of the Reference Portfolio Components, on which the calculation of the Reference Portfolio is based, shall not lead to an adjustment unless the Issuer and the Calculation Agent, upon exercise of their reasonable discretion, determine that the underlying concept and the calculation (including corrections) of the Reference Portfolio are no longer comparable to the underlying concept or calculation of the Reference Portfolio applicable prior to such change. This applies especially, if due to any change the Level of the Reference Portfolio changes considerably, although the prices and weightings of the Constituents included in the Reference Portfolio remain unchanged.

For the purpose of making any adjustments the Issuer and the Calculation Agent shall at their reasonable discretion determine an adjusted Level of the Reference Portfolio as the basis of the determination of the Level of the Reference Portfolio, which in its result corresponds with the economic result prior to this change, and shall, taking into account the time the change occurred, determine the day, on which the adjusted Level of the Reference Portfolio used shall apply for the first time. The adjusted Level of the Reference Portfolio as well as the date of its first application shall be published without undue delay pursuant to § 12 of these Conditions.

**(2) Making of Adjustments and Determinations; Publication**

Any adjustment and determination shall be final, conclusive and binding on all parties, except where there is a manifest error.

Any reference in these Conditions to the Fund as Reference Portfolio Component shall, to the extent appropriate, be deemed to refer to the Replacement Fund.

### (3) Corrected Price

In the event that the Price of the Fund Unit used as Reference Portfolio Component as determined and published by the Administrator otherwise on behalf the Fund is subsequently corrected and the correction (the "**Corrected Price**") is published by the Administrator or otherwise on behalf the Fund after the original publication, but still within one Settlement Cycle, the Issuer and the Calculation Agent shall be entitled to effect, under consideration of the Corrected Price, adjustments to these Conditions at their reasonable discretion, to account for the correction. 3. The number of different Eligible Instruments incorporated as Constituents in the Reference Portfolio is limited to 20 Constituents referring to different currencies at the same time, the respective weighting of a single constituent as well as the sum of all weightings referring to a specific currency is limited to 25% of the Level of the Reference Portfolio. **The weighting referring to KRW (South Korean Won) shall be during the whole term of the Securities below 10% of the Level of the Reference Portfolio. The weighting referring to INR (Indian Rupee) shall be during the whole term of the Securities below 25% of the Level of the Reference Portfolio.**
  4. The max tenor of each Synthetic Discount Certificates is limited to 3 years.
  5. The Reference Portfolio may only reflect long positions in Eligible Instruments.
  6. The Cash Position may at any time be up to 100% of the value of the Reference Portfolio.

A "Synthetic Discount Certificate" means an instrument issued by UBS with a redemption at maturity equal to the number of units of referenced currency needed for 1 EUR or USD (as the case may be) (the "Relevant FX Exchange Rate") on the date in the inclusion in the Reference Portfolio divided by the Relevant FX Exchange Rate on the specified maturity date for such instrument. Each synthetic discount certificate will be valued on daily basis using the available market data for the Relevant FX Exchange Rate forward market and recognized financial models.

"ETFs linked to currency" means exchange traded funds on regulated US markets which aims to reflect the price of any of the above mentioned currencies either for 1 USD or 1 EUR and are available for trading to the Issuer.

As the Reference Portfolio Advisor, BHF-BANK AG, has agreed to create the Reference Portfolio as a theoretical portfolio by selecting the initial constituents and the weightings of such constituents, a portfolio which aims to

replicate the performance of a basket of instruments linked to currencies and cash and manage and maintain the actively managed Reference Portfolio by rebalancing the notional Reference Portfolio, i.e. changing the weightings of its constituents, selecting new constituents and removing existing constituents, in its reasonable discretion (the "**Rebalancing**").

In case of a Rebalancing the theoretical volume of a buy or sell order for a Constituent is limited to volume that may be executed in such Constituent without causing disruption or a distortion in the market, as determined and communicated by the Calculation Agent. A Rebalancing may happen at the discretion of the Reference Portfolio Advisor. The Calculation Agent has the right to reject constituents that form part of a Rebalancing (see below). The theoretical volume is defined as the number of outstanding Certificates multiplied by the Level of the Reference Portfolio (using a reasonable foreign exchange rate to convert into the currency of the Constituent) and multiplied by the change in the percentage weight of the Constituent.

At any time, the Reference Portfolio may reflect a cash position which mirrors the holding of cash (the "**Cash Position**").

The Reference Portfolio Advisor will receive a quarterly fee of 0.25% (1.00% per year) of the Level of the Reference Portfolio accrued on a daily basis charged by the Calculation Agent and deducted from the Level of the Reference Portfolio (the "**Reference Portfolio Advisory Fee**").

The Issuer will receive a quarterly fee of 0.125% (0.50% per year) of the Level of the Reference Portfolio accrued on a daily basis plus the Adjustment Fee, charged by the Calculation Agent and deducted from the Level of the Reference Portfolio (the "**UBS Management Fee**").

The "**Adjustment Fee**" is levied for each adjustment made in the Reference Portfolio, and represents a percentage of the notional volume of each of the purchase and/or sale of a Constituent. The Adjustment Fee equals 0.10%. If the number of Rebalancings exceed the number of 30 within a year, then the Adjustment Fee equals 0.20% for these additional Rebalancings above 30. If the number of Rebalancings exceed the number of 50 within a year, then the Adjustment Fee equals 0.40% for these additional Rebalancings above 50. The Reference Portfolio Advisor is only entitled to proceed a Rebalancing above the number of 50 within a year, if the notional volume of the rebalancing equals or exceeds 10% of the total notional volume of the Reference Portfolio. The total number of rebalancings is capped to 80 per year.

The Reference Portfolio is denominated in EUR, while the Constituents, notionally comprised in the Reference Portfolio, might be denominated in other currencies than EUR. In order to appropriately reflect the performance of the Constituents in the determination of the value of the Reference Portfolio, the value of the Constituents denominated in other currencies than EUR is expressed in EUR. The exchange rate equals the currently prevailing exchange rate. The exchange-rate risk is not mitigated.

The above Universe can be amended in agreement between the Calculation Agent and the Reference Portfolio Advisor. Long positions may be based on Constituents only.

The Calculation Agent has the right to reject constituents that form part of a Rebalancing (a) should a situation arise whereby the Issuer due to applicable rules, regulations and internal or external restrictions would not be permitted to hold investments in the envisaged Constituents, (b) should a Market Disruption prevail on the date of the Rebalancing regarding the relevant constituents, (c) should the Issuer incur materially increased (as compared with circumstances existing on the Issue Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the price risk of issuing and performing its obligations with respect to the Securities, or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer shall not be considered, (d) the Issuer is unable, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge price risks of issuing and performing its obligations with respect to the Securities, or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s), and (e) where the Rebalancing is not in line with these Reference Portfolio Guidelines.

Where a Potential Adjustment Event (pursuant to § 6 (*Adjustments to the Reference Portfolio*) and § 7 (*Adjustments in relation to a Fund Unit used as Reference Portfolio Component*) of the Terms and Conditions of the Securities) occurs with respect to any Constituent, the Issuer shall be entitled to effect adjustments to the Reference Portfolio in accordance with the Terms and Conditions of the Securities.

## G. TAXATION

The following is a general description of certain tax considerations relating to the EU Savings Tax Directive and to the taxation of the Securities in the Switzerland, the Federal Republic of Germany and Luxembourg. It does not purport to be a complete analysis of all tax considerations relating to the Securities, whether in those countries or elsewhere. **Prospective purchasers of Securities should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Securities and receiving payments of interest, principal and/or other amounts under the Securities and the consequences of such actions under the tax laws of those countries.** This summary is based upon the law as in effect on the date of this Securities Note and is subject to any change in law that may take effect after such date.

**The Issuer does not assume any responsibility for the withholding of taxes at the source.**

### 1. EU Savings Tax Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income (the "EU Savings Directive"), each Member State is required to provide to the tax authorities of another Member State details of payments of interest or other similar income paid by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in that other Member State; however, for a transitional period, Austria and Luxembourg apply instead a withholding system in relation to such payments, deducting tax at a rate of meanwhile 35% (unless during that transitional period they elect to provide information in accordance with the EU Savings Directive). The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments. Luxembourg announced to abandon the transitional withholding system and provide information in accordance with the EU Savings Directive as from 1 January 2015 onwards.

A number of non-EU countries, and certain dependent or associated territories of certain Member States, have adopted similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in a Member State. In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident or certain limited types of entity established in one of those territories.

The European Commission has proposed certain amendments to the EU Savings Directive, which may, if implemented, amend or broaden the scope of the requirements described above. Investors who are in any doubt as to their position should consult their professional advisers.

### 2. Taxation in the Federal Republic of Germany

The information about the German taxation of the Securities issued under the Prospectus set out in the following section deals only with German withholding tax and is not exhaustive. It is based on current tax laws in force at the time when this Securities Note was published. Such tax laws may be subject to change at short notice and, within certain limits, also with retroactive effect.

The following is a general description of certain German withholding tax considerations relating to the Securities. It does not purport to be a complete analysis of all German tax considerations relating to the Securities. In particular, this discussion does not consider any specific facts or circumstances that may apply to a particular investor. This summary does not allow any conclusions to be drawn with respect to issues not specifically addressed.

**Prospective purchasers of Securities are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposition of the Securities on the basis of this Prospectus, including the effect of any state or local taxes, under the tax laws of Germany and each country of which they are residents.**

#### *German withholding tax*

In principle, only persons (individuals and incorporated entities) who are tax resident in Germany (in particular, persons having a residence, habitual abode, seat or place of management in Germany) are subject to German withholding tax with respect to payments under debt instruments. Non-resident persons generally do not suffer

German withholding tax. If, however, the income from the Securities is subject to German tax, i.e. if (i) the Securities are held as business assets (*Betriebsvermögen*) of a German permanent establishment (including a permanent representative) which is maintained by the relevant investor or (ii) the income from the Securities qualifies for other reasons as taxable German source income, German withholding tax is applied, as a rule, as in the case of a German tax resident investor.

German withholding tax will be levied at a flat withholding tax rate of 26.375% (including solidarity surcharge (*Solidaritätszuschlag*)) on proceeds from the sale of the Securities if the Securities are held in a custodial account which the relevant investor maintains with a German branch of a German or non-German credit or financial services institution or with a German securities trading business or a German securities trading bank (a "**German Disbursing Agent**"). If the Securities are redeemed, repaid, assigned or contributed into a corporation by way of a hidden contribution (*verdeckte Einlage*), such transaction is treated like a sale. If the Issuer exercises the right to substitute the debtor of the Securities, the substitution might, for German tax purposes, be treated as an exchange of the Securities for new notes issued by the new debtor. Such a substitution could result in the recognition of a taxable gain or loss for the respective investors.

If an investor sells or redeems the Securities, the tax base is, in principle, the difference between the acquisition costs and the proceeds from the sale or redemption of the Securities reduced by expenses directly and factually related to the sale or redemption. Where the Securities are acquired and/or sold in a currency other than Euro, the sales/redemption price and the acquisition costs have to be converted into Euro on the basis of the foreign exchange rates prevailing on the sale or redemption date and the acquisition date respectively. If the Securities have not been held in the custodial account maintained with the Disbursing Agent since their acquisition and the acquisition costs of the Securities are not proven to the German Disbursing Agent in the form required by law (e.g. if the Securities had been transferred from a non-EU custodial account prior to the sale), withholding tax is applied to 30% of the proceeds from the sale or redemption of the Securities.

When computing the tax base for withholding tax purposes, the German Disbursing Agent has to deduct any negative savings income (*negative Kapitalerträge*) or paid accrued interest (*Stückzinsen*) in the same calendar year or unused negative savings income of previous calendar years.

Individuals who are subject to church tax may apply in writing for this tax to be withheld as a surcharge to the withholding tax. Individuals subject to church tax but declining the application have to include their savings income in their tax return and will then be assessed to church tax. For German credit institutions an electronic information system as regards church withholding tax shall apply in respect of interest received after 31 December 2013, with the effect that church tax will be collected by the German Disbursing Agent by way of withholding unless the investor has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*), in which case the obligation to include savings income in the tax return for church tax purposes will persist.

With regard to individuals holding the Securities as private assets, any withholding tax levied shall, in principle, become definitive and replace the income taxation of the relevant investor. If no withholding tax has been levied other than by virtue of a withholding tax exemption certificate (*Freistellungsauftrag*) and in certain other cases, the relevant investor is nevertheless obliged to file a tax return, and the savings income will then be taxed within the tax assessment procedure. However, the separate tax rate for savings income applies in most cases also within the assessment procedure. In certain cases, the investor may apply to be assessed on the basis of its personal tax rate if such rate is lower than the above tax rate. Such application can only be filed consistently for all savings income within the assessment period. In case of jointly assessed husband and wife the application can only be filed for savings income of both spouses.

With regard to other investors, German withholding tax is a prepayment of (corporate) income tax and will be credited or refunded within the tax assessment procedure.

No German withholding tax will be levied if an individual holding the Securities as private assets has filed a withholding tax exemption certificate (*Freistellungsauftrag*) with the German Disbursing Agent, but only to the extent the savings income does not exceed the exemption amount shown on the withholding tax exemption certificate. Currently, the maximum exemption amount is EUR 801 (EUR 1,602 in the case of jointly assessed husband and wife). Similarly, no withholding tax will be levied if the relevant investor has submitted a certificate of non-assessment (*Nichtveranlagungs-Bescheinigung*) issued by the relevant local tax office to the German Disbursing Agent. Further, with regard to investors holding the Securities as business assets, no withholding tax will be levied on capital gains from the redemption, sale or assignment of the Securities if (a) the Securities are held by a company in terms of section 43 para 2 sentence 3 no 1 German Income Tax Act (*Einkommensteuergesetz*) or (b) the proceeds from the Securities qualify as income of a domestic business and the investor has notified this to the German Disbursing Agent by use of the officially required form.

The Issuer is not obliged to levy German withholding tax in respect of payments on the Securities.

### 3. Taxation in Luxembourg

*The following is a general description of certain Luxembourg withholding tax considerations relating to the Securities. It does not purport to be a complete analysis of all tax considerations relating to the Securities, whether in Luxembourg or elsewhere. Prospective purchasers of the Securities should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of the Securities and receiving payments of interest, principal and/or other amounts under the Securities and the consequences of such actions under the tax laws of Luxembourg. This summary is based upon the law as in effect on the date of the Prospectus. The information contained within this section is limited to withholding taxation issues, and potential investors should not apply any information set out below to other areas, including (but not limited to) the legality of transactions involving the Securities.*

#### **Withholding Tax**

All payments of interest and principal by the Issuer in the context of the holding, disposal, redemption or repurchase of the Securities can be made free and clear of any withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Luxembourg or any political subdivision or taxing authority thereof or therein, in accordance with the applicable Luxembourg law, subject however to:

- (a) the application of the Luxembourg laws of 21 June 2005, as amended, implementing the European Union Savings Directive (Council Directive 2003/48/EC – the “EU Savings Directive”) and several agreements concluded with certain dependent or associated territories and providing for the possible application of a withholding tax (35% from 1 July 2011) on interest paid to certain non Luxembourg resident investors (individuals and certain types of entities called “residual entities” within the meaning of article 4.2 of the above-mentioned directive – see section “EU Savings Directive” below) in the event of the Issuer appointing a paying agent in Luxembourg within the meaning of the above-mentioned directive (see section “EU Savings Directive” below) or agreements;
- (b) the application as regards Luxembourg resident individuals of the Luxembourg law of 23 December 2005, as amended, which has introduced a 10% withholding tax on savings income (i.e. with certain exemptions, savings income within the meaning of the Luxembourg laws of 21 June 2005, as amended, implementing the EU Savings Directive).

Pursuant to the law of 23 December 2005 as amended by the law of 17 July 2008, Luxembourg resident individuals can opt to self declare and pay a 10% tax on interest payments made by paying agents located in a Member State of the European Union other than Luxembourg, a Member State of the European Economic Area other than an EU Member State or in a State or territory which has concluded an agreement directly relating to the EU Savings Directive on the taxation of savings income.

The 10% withholding tax as described above or the 10% tax are final when Luxembourg resident individuals are acting in the context of the management of their private wealth.

Responsibility for the withholding of tax in application of the above-mentioned Luxembourg laws of 21 June 2005, as amended, and 23 December 2005, as amended, is assumed by the Luxembourg paying agent within the meaning of these laws and not by the Issuer.

## § 6 Anpassungen des Referenz-Portfolios

### (1) Veränderungen in der Berechnung; Vornahme von Anpassungen

Veränderungen in der Berechnung (einschließlich Bereinigungen) des Referenz-Portfolios oder der Zusammensetzung oder Gewichtung der Referenz-Portfolio Bestandteile, auf deren Grundlage das Referenz-Portfolio berechnet wird, führen nicht zu einer Anpassung, es sei denn, dass das maßgebende Konzept und die Berechnung des Referenz-Portfolios infolge einer Veränderung (einschließlich einer Bereinigung) nach Auffassung der Emittentin und der Berechnungsstelle, nach billigem Ermessen, nicht mehr vergleichbar sind mit dem bisher maßgebenden Konzept oder der maßgebenden Berechnung des Referenz-Portfolios. Dies gilt insbesondere, wenn sich aufgrund irgendeiner Änderung trotz gleich bleibender Kurse der in dem Referenz-Portfolio enthaltenen Komponenten und ihrer Gewichtung eine wesentliche Änderung des Level des Referenz-Portfolios ergibt.

Zum Zweck einer Anpassung ermitteln die Emittentin und die Berechnungsstelle nach billigem Ermessen einen angepassten Level des Referenz-Portfolios, der bei der Bestimmung des Level des Referenz-Portfolios zugrunde gelegt wird und in seinem wirtschaftlichen Ergebnis der bisherigen

Regelung entspricht, und bestimmen unter Berücksichtigung des Zeitpunktes der Veränderung den Tag, zu dem der angepasste Level des Referenz-Portfolios erstmals zugrunde zu legen ist. Der angepasste Level des Referenz-Portfolios sowie der Zeitpunkt seiner erstmaligen Anwendung werden unverzüglich gemäß § 12 dieser Bedingungen bekannt gemacht.

## (2) Vornahme von Anpassungen und Festlegungen; Bekanntmachung

Anpassungen und Festlegungen nach den vorstehenden Absätzen werden durch die Emittentin nach billigem Ermessen bzw. von der Berechnungsstelle nach billigem Ermessen, vorgenommen und von der Emittentin nach § 12 dieser Bedingungen bekannt gemacht. Anpassungen und Festlegungen sind (sofern nicht ein offensichtlicher Fehler vorliegt) für alle Beteiligten endgültig und bindend.

Bei Eintritt oder dem wahrscheinlichen Eintritt eines Potenziellen Anpassungsereignisses (§ 7 (2)) in Bezug auf den Fondsanteil als Referenz-Portfolio Bestandteil können die Emittentin und die Berechnungsstelle, wenn sie nach billigem Ermessen der Ansicht sind, dass dieser Grund wesentlich ist und sich nachteilig auf den Referenz-Portfolio Bestandteil und das Referenz-Portfolio oder die Berechnung des NAV des Fondsanteils auswirkt,

- (iii) Der Fonds ist ein offener Investmentfonds, der in einem OECD Land gegründet worden ist.
- (iv) Der Fonds (oder ein maßgeblicher Manager) veröffentlicht den Nettoinventarwert oder den Rücknahmepreis in Bezug auf den Fonds auf täglicher Basis.

Auf andere als die vorstehend bezeichneten Ereignisse oder Umstände, die dazu führen, dass die Bedingungen der Wertpapiere nicht mehr die ursprünglichen, zwischen der Emittentin und den Wertpapiergläubigern vereinbarten, wirtschaftlichen Gegebenheiten reflektieren oder sonst die wirtschaftliche Basis, auf deren Grundlage die Emittentin die Wertpapiere begeben hat, nachteilig beeinflussen, sind die beschriebenen Regeln entsprechend anzuwenden.

Jede in diesen Bedingungen enthaltene Bezugnahme auf den Fonds als Referenz-Portfolio Bestandteil gilt dann, sofern es der Zusammenhang erlaubt, als Bezugnahme auf den Nachfolge-Fonds.

**(3) Berichtigter Kurs**

Wenn der durch den Administrator bzw. sonst im Auftrag des Fonds festgelegte und veröffentlichte Kurs des Fondsanteils als Referenz-Portfolio Bestandteil im Nachhinein berichtigt wird, und die Berichtigung (der "**Berichtigte Kurs**") von dem Administrator bzw. sonst im Auftrag des Fonds nach der ursprünglichen Veröffentlichung, jedoch noch innerhalb eines Abwicklungszyklus bekanntgegeben und veröffentlicht wird, sind die Emittentin und die Berechnungsstelle berechtigt, nach billigem Ermessen, unter Berücksichtigung des Berichtigten Kurses Anpassungen dieser Bedingungen vorzunehmen, um der Berichtigung Rechnung zu tragen. In Zweifelsfällen über die jeweils vorzunehmende Anpassung entscheidet die Emittentin über die Anwendung der Anpassungsregeln nach billigem Ermessen. Anpassungen und Festlegungen werden von der Emittentin nach § 12 dieser Bedingungen bekannt gemacht und sind (sofern nicht ein offensichtlicher Fehler vorliegt) für alle Beteiligten endgültig und bindend.

**§ 8****Außerordentliches Kündigungsrecht der Emittentin****(1) Kündigung durch die Emittentin**

Die Emittentin ist bei Vorliegen eines der nachstehenden Kündigungsereignisse, berechtigt, sämtliche, aber nicht einzelne Wertpapiere durch eine Bekanntmachung an die Wertpapiergläubiger gemäß § 12 dieser Bedingungen zu kündigen und vorzeitig zu tilgen. Eine derartige Kündigung wird zum Zeitpunkt der Mitteilung gemäß § 12 dieser Bedingungen beziehungsweise zu dem in der Mitteilung angegebenen Zeitpunkt wirksam (der "**Kündigungstag**").

**(2) Vorliegen eines Kündigungsereignisses**

Ein "**Kündigungsereignis**" bezeichnet jedes der folgenden Ereignisse:

falls solche Änderungen an oder nach dem Ausgabebetrag der Wertpapiere wirksam werden.

**"Hedging-Störung"** bedeutet, dass die Emittentin nicht in der Lage ist, zu Bedingungen, die den am Ausgabebetrag der Wertpapiere herrschenden wirtschaftlich wesentlich gleichwertig sind,

- (i) Transaktionen abzuschließen, fortzuführen oder abzuwickeln bzw. Vermögenswerte zu erwerben, auszutauschen, zu halten oder zu veräußern, welche nach billigem Ermessen der Emittentin zur Absicherung von Preisrisiken oder sonstigen Risiken im Hinblick auf ihre Verpflichtungen aus den Wertpapieren notwendig sind, oder
- (ii) Erlöse aus solchen Transaktionen bzw. Vermögenswerten zu realisieren, zurückzugewinnen oder weiterzuleiten.

**"Gestiegene Hedging-Kosten"** bedeutet, dass die Emittentin im Vergleich zum Ausgabebetrag einen wesentlich höheren Betrag an Steuern, Abgaben, Aufwendungen und Gebühren (außer Maklergebühren) entrichten muss, um

- (i) Transaktionen abzuschließen, fortzuführen oder abzuwickeln bzw. Im Fall der Kündigung durch die Emittentin zahlt die Emittentin an jeden Wertpapiergläubiger bezüglich jedes von ihm gehaltenen Wertpapiers einem Geldbetrag je Wertpapier in der Auszahlungswährung, der von der Berechnungsstelle, nach billigem Ermessen, gegebenenfalls unter Berücksichtigung des dann maßgeblichen Level des Referenz-Portfolios und der durch die Kündigung bei der Emittentin angefallenen Kosten, als angemessener Marktpreis eines Wertpapiers bei Kündigung festgelegt wird (der „Kündigungsbetrag“).

## § 9 Marktstörungen

### (1) Folgen einer Marktstörung

Sind die Emittentin und die Berechnungsstelle nach Ausübung billigen Ermessens der Ansicht, dass an dem Bewertungstag eine Marktstörung (§ 9 (3)) vorliegt, dann wird der Bewertungstag auf den unmittelbar darauf folgenden Börsengeschäftstag, an dem keine Marktstörung mehr vorliegt, verschoben. Die Emittentin wird sich bemühen, den Beteiligten unverzüglich gemäß § 12 dieser Bedingungen mitzuteilen, dass eine Marktstörung eingetreten ist. Eine Pflicht zur Mitteilung besteht jedoch nicht.

### (2) Andauern einer Marktstörung

Wenn der Bewertungstag aufgrund der Bestimmungen des § 9 (1) dieser Bedingungen um acht Börsengeschäftstage verschoben worden ist und auch an diesem Tag die Marktstörung fortbesteht, dann gilt dieser Tag als der Bewertungstag; eine weitere Verschiebung des Bewertungstags findet nicht statt.

Die Emittentin und die Berechnungsstelle werden dann nach Ausübung billigen Ermessens sowie unter Berücksichtigung (i) der dann herrschenden Marktgegebenheiten, (ii) eines geschätzten Level des Referenz-Portfolios, ermittelt auf Grundlage der zuletzt erhältlichen Level des Referenz-Portfolios und der gegebenenfalls vom Referenz-Portfolio Advisor abgegebenen Schätzungen, und (iii) sämtlicher sonstiger Konditionen bzw. Faktoren, die die Emittentin und die Berechnungsstelle angemessenerweise für bedeutsam halten, bestimmen, ob, und gegebenenfalls in welcher Höhe, die Emittentin den Auszahlungsbetrag bzw. den Kündigungsbetrag zahlen wird.

### (3) Vorliegen einer Marktstörung

Eine **“Marktstörung”** bedeutet

**in Bezug auf ein Synthetic Discount Zertifikat als Referenz-Portfolio Bestandteil:**

- (a) das Ausbleiben der Bekanntgabe oder die mangende Verfügbarkeit eines für die Zwecke der Umrechnung oder Bewertung eines Synthetic Discount Zertifikats in EUR oder USD an einem Tag benötigten Kurses, und/oder
- (b) der Eintritt oder das Andauern eines Ereignisses, das nach Ansicht der Berechnungsstelle nach billigem Ermessen, die Berechnungsstelle und/oder die Emittentin unmittelbar bzw. mittelbar darin hindert bzw. deren Fähigkeit dazu zeitlich verzögert oder es unmöglich macht, auf rechtmäßige Art und Weise
  - (i) ein Synthetic Discount Zertifikat in EUR oder USD umzurechnen oder zu bewerten; und/oder
  - (ii) tatsächlich Transaktionen in einem Synthetic Discount Zertifikat als Referenz-Portfolio Bestandteil durchzuführen oder diesbezügliche Marktbewertungen zu erhalten.

**in Bezug auf einen Fondsanteil als Referenz-Portfolio Bestandteil:**

- (a) die Suspendierung oder das Ausbleiben der Bekanntgabe des Kurses des Fondsanteils als Referenz-Portfolio Bestandteil an einem für die Berechnung von Beträgen unter diesen Bedingungen maßgeblichen Tag oder
- (b) die Begrenzung, Suspendierung bzw. Unterbrechung oder, vorbehaltlich der nachfolgenden Bestimmungen, eine nach Auffassung der Berechnungsstelle nach billigem Ermessen wesentliche Einschränkung des Handels
  - (i) an der Maßgeblichen Börse allgemein (beispielsweise wegen Kursbewegungen, die die Grenzen des von der Maßgeblichen Börse Erlaubten überschreiten), oder
  - (ii) an der Maßgeblichen Börse in dem Fondsanteil als Referenz-Portfolio Bestandteil, sofern eine wesentliche Anzahl oder ein wesentlicher Anteil betroffen ist (beispielsweise wegen Kursbewegungen, die die Grenzen des von der Maßgeblichen Börse Erlaubten überschreiten), oder
  - (iii) an der Maßgeblichen Terminbörse, falls dort Optionskontrakte auf den Fondsanteil als Referenz-Portfolio Bestandteil, oder
  - (v) aufgrund einer Anordnung einer Behörde oder der Maßgeblichen Börse (beispielsweise wegen Kursbewegungen, die die Grenzen des von der Maßgeblichen Börse Erlaubten überschreiten), bzw. aufgrund eines Moratoriums für Bankgeschäfte in dem Land, in dem die Maßgebliche Börse ansässig ist, oder aufgrund sonstiger Umstände.

- (c) Der maßgebliche Kurs ist ein Grenzpreis (*limit price*), was bedeutet, dass der für einen Tag ermittelte Kurs des Fondsanteils als Referenz-Portfolio Bestandteil den maßgeblichen Kurs an dem unmittelbar vorangehenden Tag um den nach den Vorschriften der Maßgeblichen Börse zulässigen maximalen Umfang überschritten bzw. unterschritten hat.
- (d) Der Eintritt eines sonstigen Ereignisses, das nach Ansicht der Berechnungsstelle nach billigem Ermessens die allgemeine Möglichkeit von Marktteilnehmern beeinträchtigt oder behindert, Transaktionen in dem Fondsanteil als Referenz-Portfolio Bestandteil durchzuführen oder diesbezügliche Marktbewertungen zu erhalten.

Eine Verkürzung der regulären Handelszeiten oder eine Beschränkung der Stunden oder Anzahl der Tage, an denen ein Handel stattfindet, gilt nicht als Marktstörung, sofern die Einschränkung auf einer Änderung der regulären Handelszeiten der Maßgeblichen Börse beruht, die mindestens eine (1) Stunde vor (i) entweder dem tatsächlichen regulären Ende der Handelszeiten an der Maßgeblichen Börse oder (ii) dem Termin für die Abgabe von Handelsaufträgen zur Bearbeitung an dem betreffenden Tag an der Maßgeblichen Börse, je nachdem welcher Zeitpunkt früher ist, angekündigt worden ist. Eine im Laufe eines Tages auferlegte Beschränkung im Handel aufgrund von Preisbewegungen, die bestimmte vorgegebene Grenzen überschreiten, gilt nur dann als Marktstörung, wenn diese Beschränkung bis zum Ende der Handelszeit an dem betreffenden Tag fort dauert.
